Equert,2023-11-10 In this book Tales of Earth Wind and Scales the reader will encounter a narrative universe that surpasses conventional boundaries Through the sixty three stories not only different landscapes and characters are explored but also multiple dimensions of human experience It s not an easy book to categorize and that s precisely its greatest virtue The title speaks of natural elements but also of something more elusive scales In these pages there is a hint of a quest a concern to unravel both the tangible and the spiritual Each story is a world unto itself but all share that same life force that makes us irredeemably human It s a book that invites us to dream but also to reflect It leads us by the hand like an experienced guide through a maze but at each turn it offers us the freedom to find our own way Some stories will make us laugh others will plunge us into deep melancholy and some will leave us bewildered amazed by the complexity of the human soul and the world around us The characters that populate these pages are as diverse as the stories themselves from the little man crumbled in a corridor to the dreamer seeking answers in the wind But all of them show us facets of the same reality a mosaic of emotions and situations that make up the fabric of life In this book the narrative voice moves with the same ease through psychological introspection as it does through poetic description It s as if the author wanted to remind us that beauty and complexity are not exclusive but often intertwined in that intricate dance that is existence This anthology consists of 63 selected short stories spanning different genres realities and emotions Some are lengthy others mere whispers Some may seem familiar to you but others might appear strange even foreign They are brushstrokes narrative frames and they are also all of them the product of over twenty years of writing from all those versions of me **The Literary Digest** Edward

Jewitt Wheeler, Isaac Kaufman Funk, William Seaver Woods, Arthur Stimson Draper, Wilfred John Funk, 1929      **The Simple Flute** Michel Debost, 2010 A practical concise and comprehensive guide for flutists      **Natural History of Silence** Jérôme Sueur, 2024-11-05 In our busy noisy world we may find ourselves longing for silence But what is silence exactly Is it the total absence of sound Or is it the absence of the sound created by humans the kind of deep stillness you might experience in a remote mountain landscape covered in snow far away from the bustle of human life When we listen closely silence reveals a neglected reality Neither empty nor singular silence is instead plentiful and multiple In this book eco acoustic historian Jérôme Sueur allows us to discover a vast landscape of silences which trigger the full gamut of our emotions anxiety awe and peace He takes us from vistas resplendent with full and rich natural silences to the everyday silence of predators as they stalk their prey To explore silences in animal behaviour and ecology is to discover a counterpoint to the acoustic diversity of the natural world throwing into sharp relief the grating reverberations of the human activity which threatens it It is to attune ourselves to a world that our human insensitivities have closed off to us to take a moment simply to breathe and listen to the place of silence in nature      *Effing the Ineffable* Wesley J. Wildman, 2018-10-01 A meditation on how religious language tries to limn the liminal conceive the inconceivable speak the unspeakable and say the unsayable In *Effing the Ineffable* Wesley J Wildman confronts the human obsession with ultimate reality and our desire to conceive and speak of this reality through religious language despite the seeming impossibility of doing so Each chapter is a meditative essay on an aspect of life that for most people is fraught with special spiritual significance dreaming suffering creating slipping balancing eclipsing loneliness intensity and bliss These moments can inspire religious questioning and commitment and in extreme situations drive us in search of ways to express what matters most to us Drawing upon American pragmatist Anglo American analytic and Continental traditions of philosophical theology Wildman shows how through direct description religious symbolism and phenomenological experience the language games of religion become a means to attempt and in some sense to accomplish this task This is a fine example of Wildman's way of doing philosophy of religion It demonstrates the importance if not necessity of religious philosophers working comparatively and also the benefits of multidisciplinary inquiry Stephen Dawson Lynchburg College      *Impromptus*, Op. 142 Franz Schubert, Murray Baylor, 2005-05-03 In addition to the composer's original musical notations the editor has made tempo metronome fingering and pedaling indications as well as providing footnotes for playing turns and trills Dr Baylor has included a brief biography on Schubert and each of the four pieces has an informative discussion on proper performance techniques
