Ellison,2023-12-11 This study examines third and fourth century portraits of married Christians and associated images reading them as visual rhetoric in early Christian conversations about marriage and celibacy and recovering lay perspectives underrepresented or missing in literary sources Historians of early Christianity have grown increasingly aware that written sources display an enthusiasm for asceticism and sexual renunciation that was far from representative of the lives of most early Christians Often called a silent majority the married laity in fact left behind a significant body of work in the material record Particularly in and around Rome they commissioned and used such objects as sarcophagi paintings glass vessels finger rings luxury silver other jewellery items gems and seals that bore their portraits and other iconographic forms of self representation This study is the first to undertake a sustained exploration of these material sources in the context of early Christian discourses and practices related to marriage sexuality and celibacy Reading this visual evidence increases understanding of the population who created it the

religious commitments they asserted and the comparatively moderate forms of piety they set forth as meritorious alternatives to the ascetic ideal In their visual rhetoric these artifacts and images comprise additional voices in Late Antique conversations about idealized ways of Christian life and ultimately provide a fuller picture of the early Christian world Plentifully illustrated with photographs and drawings this volume provides readers access to primary material evidence Such evidence like textual sources require critical interpretation this study sets forth a careful methodology for iconographic analysis and applies it to identify the potential intentions of patrons and artists and the perceptions of viewers It compares iconography to literary sources and ritual practices as part of the interpretive process clarifying the ways images had a rhetorical edge and contributed to larger conversations Accessibly written *The Visual Rhetoric of the Married Laity in Late Antiquity* is of interest to students and scholars working on Late Antiquity early Christian and late Roman social history marriage and celibacy in early Christianity and early Christian Roman and Byzantine art **Marine Fisheries Review**,2009 *Studies in Ancient Technology* Robert James Forbes,1955 *The Pilgrim and the Book* Julia Bolton Holloway,1992 Julia Bolton Holloway s *The Pilgrim and the Book A Study of Dante Langland and Chaucer* investigates major fourteenth century texts the *Commedia* *Piers Plowman* and *The Canterbury Tales* in the light of the medieval theory and practice of pilgrimage especially concentrating on Emmaus and Exodus paradigms Holloway s analysis draws extensively on iconography musicology typology and anthropology The concluding chapter explains why each poet places himself within his poem in his own image as a pilgrim **Dictionary Catalog of the Department Library** United States. Department of the Interior. Library,1967 **The Biology of the Mollusca** R. D. Purchon,2013-10-22 Reviews the most important literature on the functional morphology and natural history of molluscs over a period of half a century from 1925 to the present day and draws extensively upon authoritative papers published mostly in the English language in a large number of international journals during this period By these means it is hoped to provide an anthology of what is most interesting in the literature in a number of selected topics Appendices give some practical assistance for the dissection of selected examples [The Great Mosque of Damascus](#) Finbarr Flood,2021-07-26 The celebrated Great Mosque of Damascus was built in the early eighth century by the Umayyad caliph al Wal d b Abd al Malik This book provides a detailed study of this Mosque Using textual visual and archaeological evidence the author attempts to reconstruct some of the basic formal and decorative features of the Umayyad mosque to locate it within its broader urban context and to consider its role within al Wal d s unprecedented programme of architectural patronage The work explores the intracultural and intercultural functions of religious architecture within an official visual discourse intended to project a distinctive Muslim identity in a manner determined by Umayyad political aspirations It will be of particular interest to those concerned with the relationship between the Umayyad caliphate and Byzantium **"Architecture and Pilgrimage, 1000?500 "** Deborah Howard,2017-07-05 Although there is an obvious association between pilgrimage and place relatively little research has centred directly on the role of architecture

Architecture and Pilgrimage 1000 1500 Southern Europe and Beyond synthesizes the work of a distinguished international group of scholars It takes a broad view of architecture to include cities routes ritual topographies and human interaction with the natural environment as well as specific buildings and shrines and considers how these were perceived represented and remembered The essays explore both the ways in which the physical embodiment of pilgrimage cultures is shared and what we can learn from the differences The chosen period reflects the flowering of medieval and early modern pilgrimage The perspective is that of the pilgrim journeying within or embarking from Southern Europe with a particular emphasis on Italy The book pursues the connections between pilgrimage and architecture through the investigation of such issues as theology liturgy patronage miracles and healing relics and individual and communal memory Moreover it explores how pilgrimage may be regarded on various levels from a physical journey towards a holy site to a more symbolic and internalized idea of pilgrimage of the soul *Bones and Identity* Nimrod Marom, Reuven Yeshuran, Lior Weissbrod, Guy Bar-Oz, 2016-07-31

[Consciousness](#) Bernard Nesfield-Cookson, 2010 The Italian Renaissance is considered by many to mark the beginning of the modern age The name itself literally rebirth accurately expresses the innovation that took place during that period Renaissance thinkers took a vital interest in history literature and the arts focusing on the human world as much as if not more than that of God The rapid development of the arts and sciences reflected their study of the visible physical world in all its three dimensional glory The source of these new impulses says the author can be found in what Rudolf Steiner calls the birth of the consciousness soul the faculty for objective self awareness Instead of a primarily inward looking consciousness people began looking outward with greater intensity observing the world around them in detail With greater conscious of their separate being people of the Renaissance began to study the phenomena of the world of nature from an individual

personal perspective In this enlightening book illustrated with sixteen pages of color plates the author illuminates the concept of the consciousness soul showing how it is reflected in fifteenth century Florentine painting sculpture and architecture as well as in the impulses issuing from Plato s Academy of Athens **Studies in Ancient Technology, Volume 6 Heat and Heating: Refrigeration, the Art of Cooling and Producing Cold: Light** Forbes,2023-07-24 The Homes of Giorgio Vasari Liana Cheney,2006 Giorgio Vasari was one of the few artists in the history of art who built designed and decorated his homes This book is the first to focus on Vasari s decorative cycles for his homes in Arezzo and Florence revealing the significance of the artistic cultural and historical milieu of the sixteenth century This study breaks new ground in two ways First in a personal and original manner the imagery is related to Vasari s artistic ideas on history painting and the role of the artist And second Vasari s imagery portrays visual galleries applauding his teachers antiquity and the creation of art Max Ernst and Alchemy M. E. Warlick,2013-05-01 Surrealist artist Max Ernst defined collage as the alchemy of the visual image Students of his work have often dismissed this comment as simply a metaphor for the transformative power of using found images in a new context Taking a wholly different perspective on Ernst and alchemy however M E Warlick persuasively demonstrates that the artist had a profound and abiding interest in alchemical philosophy and often used alchemical symbolism in works created throughout his career A revival of interest in alchemy swept the artistic psychoanalytic historical and scientific circles of the late nineteenth and early twentieth centuries and Warlick sets Ernst s work squarely within this movement Looking at both his art many of the works she discusses are reproduced in the book and his writings she reveals how thoroughly alchemical philosophy and symbolism pervade his early Dadaist experiments his foundational work in surrealism and his many collages and paintings of women and landscapes whose images exemplify the alchemical fusing of opposites This pioneering research adds an essential key to understanding the multilayered complexity of Ernst s works as it affirms his standing as one of Germany s most significant artists of the twentieth century **MAN and SHELLS Molluscs in the History** Riccardo Cattaneo-Vietti, Mauro Doneddu, Egidio Trainito, 2016-02-04 Since the Paleolithic age to the present molluscs which include squids octopuses and a variety of shellfish have featured in different facets of our history Yet much of this detail is either unknown or underappreciated From the shapes and patterns in their shells to their culinary medicinal and scientific value and from their depictions in literature and religions molluscs in general and shellfish in particular have fascinated mankind for millennia Man and Shells is a treatise on molluscs in our natural history Readers will traverse through the journey by demonstrating how these organisms have accompanied humans in arts and culture in ancient religions the myths that surround them their role in commerce as in dyeing and as currency as well as in aquaculture and fishing and much more Man and Shells helps us to appreciate these creatures that continue to have an important yet little known place in the cultural evolution of man through the ages
