Scandinavia And The Great Powers 1890 1940:

Scandinavia and the Great Powers 1890-1940 Patrick Salmon, 2002-04-11 At the beginning of the twentieth century Scandinavia lay on the margin of European power politics but with the polarisation of international relations in the era of the two world wars Denmark Finland Norway and Sweden became the point where the spheres of influence of three great powers Great Britain Germany and Russia intersected In this book Patrick Salmon uses his extensive research in British German and Scandinavian archives to examine the position of the Nordic countries in the great power rivalries and conflicts of the period 1890 1940 However it does not treat the Nordic countries merely as passive victims It seeks to show that despite the disparity in strength between the great powers and the small states of northern Europe the latter had means of adapting to great power pressures and even influencing the policies of their formidable neighbours

Scandinavia since 1500 Byron J. Nordstrom, 2023-06-27 An updated edition of the definitive history of Scandinavia over the past five centuries Despite certain distinctions and differences the lands of Scandinavia or Norden Sweden Norway Finland Iceland Denmark and the Faroe Islands are united by bonds of culture language and geography and by a shared history that comes richly to life in this landmark work Now in an expanded updated edition this authoritative chronicle of five centuries of Scandinavian history incorporates the geopolitical developments and momentous events that have marked the Nordic world in recent decades Scandinavia since 1500 situates the region's political history within the traditional European chronology in which the long modern period is subdivided into the Renaissance early modern modern and contemporary Within this framework Byron J Nordstrom traces the various ways in which economic social and cultural ideas and practices have come to Scandinavia from abroad only to be modified and recast in a uniquely Nordic character Long unquestioned national mythologies come under Nordstrom's scrutiny along with historical blind spots and erasures as he ranges from canonical figures like Gustavus Adolphus of Sweden and Christian IV of Denmark to the constitutions of the nineteenth and twentieth centuries the resistance movements in World War II and the Scandinavian welfare states literary culture and modern design Expanded to include the nature and realities of the increasingly postindustrial economies of the late twentieth and early twenty first centuries including environmental concerns

Order and Rivalry Madeleine Lynch Dungy, 2023-06-15 The First World War transformed the legal and geopolitical

framework for international trade by decentring Europe in global markets Order and Rivalry traces the formation and development of multilateral trade structures in the aftermath of the First World War in response to the marginalization of Europe in the world economy the use of private commerce as a tool of military power and the collapse of empires across Central and Eastern Europe In this accessible study Madeleine Lynch Dungy highlights the 1920s as a pivotal transition phase between the network of bilateral trade treaties that underpinned the first globalization of the late nineteenth century and the institutionalised regime of international governance after 1945 Focusing on the League of Nations she shows that this institution's legacy was not to initiate a linear forward march towards today's World Trade Organization but rather to frame an open ended and conflictual process of experimentation that is still ongoing *The Triumph of the Dark* Zara S. Steiner, Zara Steiner, 2011-03-31 Following on her acclaimed study of the collapse of international security during the early 1930s Zara Steiner gives a dramatic and authoritative account of the coming catastrophe She shows that the era of Hitler's rise to power an ascent bent on war was founded on ideologies which the democratic perception could neither penetrate nor arrest Like few others this survey takes both European and East Asian conflicts into interlocking accounts In the light of new material she refutes attempts to whitewash Mussolini argues that Anglo French military response in 1938 had realistic prospects traces the global ramifications of Sino Japanese wars and evaluates Moscow's diplomatic options Zara Steiner shows that only Hitler regarded the Jewish question as of primary importance Lucid formidably documented this profoundly original work will alter our perceptions of the tragic decisive epoch from which our present world map has emerged

Britain, Sweden and the Cold War, 1945-54 J. Aunesluoma, 2003-05-13 Juhana Aunesluoma considers the ways in which Scandinavia's in particular neutral Sweden's relationship was forged with the Western powers after the Second World War He argues that during the early cold war Britain had a special role in Scandinavia and in the ways in which Western oriented neutrality became a part of the international system New evidence is presented on British American and Swedish foreign and defence policies regarding neutrality in the cold war Special Operations in Norway Ian Herrington, 2019-04-04 Between 1940 and 1945 Britain's Special Operations Executive SOE carried out sabotage and organised resistance across occupied Europe Over 5 years SOE sent over 500 agents into Norway to carry out a range of operations from sabotage and assassination to attempts to organise an underground guerrilla army This book is the first multi archival international academic analysis of SOE's policy and operations in Norway and the influences that shaped them challenging previous interpretations of the relationship between this organisation and both the Norwegian authorities and the Milorg resistance movement **Northern European Overture to War, 1939-1941**, 2013-05-24 While the German invasion of Poland in September 1939 was a pivotal moment in European history and precipitated the outbreak of the Second World War western historiography has largely neglected Northern Europe Two questions dominated the course of events the Anglo German contest for control of the access to the Atlantic Ocean and the Soviet German contest for control of their

former territories as a precursor to the future Total War they expected to wage against each other This anthology of 23 essays considers both these issues collectively and provides a new international perspective on the region's transition from the relative peace of the interwar era to the all out war following the German invasion of the Soviet Union in 1941 Contributors are Azar Gat Michael Epkenhans Andrew Lambert Tom Kristiansen Rolf Hobson Gunnar Selius Jörg Hillmann Werner Rahn Sawomir Dąbski Ole Kristian Grimnes Eslovas Laurinavičius Alfred Erich Senn Lars Ericson Wolke Karl Erik Haug Boris Vadimovich Sokolov Toomas Hiio Magnus Ilmjrv Palle Roslyng Jensen Hans Christian Bjerg Valters Erbinskis Michael H Clemmesen and Marcus Faulkner *Strategy and War Planning in the British Navy, 1887-1918* Shawn T. Grimes, 2012 Overturns existing thinking to show that the Royal Navy engaged professionally in war planning in the years before the First World War It has been widely accepted that British naval war planning from the late nineteenth century to the First World War was amateur and driven by personal political agenda But Shawn T Grimes argues that this was far from the case His extensive original research shows that in fact the Royal Navy had a definitive war strategy which was well thought through and formulated in a professional manner Faced by a perceived Franco Russian naval threat the Admiralty adopted an offensive strategy from 1888 to 1905 based on observational blockade and combined operations This strategy was modified after 1905 for war with Wilhelmine Germany The book shows how specific war plans aimed at Germany's naval and economic assets in the Baltic were drawn up between 1906 and 1908 and that the strategy of primary distant blockade formulated between 1897 and 1907 became a reality in late 1912 and not July 1914 as previously thought The book argues that the Naval Intelligence Department which took a lead in devising these plans was the Navy's de facto staff Overall it is clear that there was a continuity underpinning British thinking about how to wage a naval war SHAWN GRIMES received his PhD in history from the University of London and has been a Lecturer in European History at the University of Saskatchewan

Slavery, Diplomacy and Empire Keith Hamilton, 2013-03-04 Throughout the nineteenth century British governments engaged in a global campaign against the slave trade They sought through coercion and diplomacy to suppress the trade on the high seas and in Africa and Asia This collection of essays examines the role played by individuals and institutions in the diplomacy of suppression

Communicating the North Dr Jonas Harvard, Dr Peter Stadius, 2013-12-28 What makes a magazine in South Africa promote Scandinavian unity among its immigrant readers and why does a Swedish

king endorse attempts to influence pan Scandinavian opinion through a transnational media event in Sweden Norway and Denmark Can portraits of exotic Laplanders in the British press enthusiastic accounts of the welfare state in post war travel literature and descriptions of the liberal Nordic woman as a metaphor for a freer society in Franco Spain really be bundled together under a joint label of Nordicness How is it that despite the variety of images of the Nordic region that are circulating we still find this recurring idea of a shared Nordic identity These are some of the questions the current volume seeks to answer Covering the time period from the early nineteenth century up until the present and encompassing case studies from Britain Spain Poland and South Africa as well as from the Nordic countries contributors to the volume investigate the images that have been presented of the Nordic region in the media in and outside of the Nordic countries how such images have been shaped by mechanisms of mediation and the channels through which they have been distributed The chapters address both specific cases such as media events and individual publications as well as the structural and institutional settings for mediating the Nordic region

Navies in Northern Waters Rolf Hobson, TOM KRISTIANSEN, 2004-08-02 Navies in Northern Waters is a collection of articles covering the roles played by the secondary navies of northern European powers and the United States within the maritime balance of power The contributions covering the 18th and 19th centuries focus on their relations with each other as they sought to create a counterweight to the dominant naval power of Britain The inter war years are treated from the perspectives of international disarmament efforts within the framework of collective security and the subsequent naval rivalry in the Baltic area in the years leading up to the Second World War For the post 1945 period the contributions concentrate on superpower rivalry in northern waters during the Cold War the changing aspects of security policy since the collapse of the Soviet Union and the particular challenges facing small coastal states policing extensive waters of increasing economic importance *Harold Wilson, Denmark and the making of Labour European policy* Matthew Broad, 2017-11-28 Explores how the European policies of the British Labour Party and Danish Social Democrats evolved between 1958 and enlargement of the European Economic Community EEC in 1973 comparing how they each responded to the integration process at key moments and more innovatively highlights the impact of informal contacts between them

Britain and Denmark Jørgen Sevaldsen, Bo Bjørke, Claus Bjørn, 2003 Since 1815 Denmark and Britain have lived in peace with each other From the last half of the 19th century massive British imports of Danish agricultural products gave Britain a central role in the Danish economy likewise in the 20th century British efforts in the two world wars became of crucial importance to Denmark's position in relation to Germany and later the Soviet Union In the same period the emergence of English as the first foreign language in Denmark facilitated the increasingly closer human and cultural contacts between the two countries Britain and Denmark written by Danish and British historians constitutes the first attempt to provide a comprehensive picture of the roles that these two neighbouring countries have played in the lives of each other during the last two centuries They are different in size and have had very different global and regional

orientations So naturally Britain has always loomed larger in Danish life and politics than the other way round In many areas however relations have been close The book covers contacts relating to trade security policies and social and political theory but also touch on mutual influences within the areas of literature music design etc Most treatments of Danish political and cultural relations with the outside world in this period concentrate on Germany for the period up to 1945 and on the Soviet Union and the USA in the post war world In the same way works on British contemporary history rarely devote much space to relations with the Nordic countries The aim therefore of this book is to provide a supplement and perhaps corrective to the existing literature on the international positions of Britain and Denmark in the modern world *Rhetorics of Nordic*

Democracy Jussi Kurunmäki, Johan Strang, 2010-12-07 Democracy is today a concept that is overwhelmingly positively evaluated almost everywhere A lot has been written about socio economic and cultural backgrounds of democratic regimes as well as their institutional settings By contrast not much is known about the political manoeuvres and speech acts by which democracy has been tied to particular regions and cultures in concrete historical situations This book discusses a series of efforts to rhetorically produce a particular Nordic version of democracy It shows that the rhetorical figure Nordic democracy was a product of the age of totalitarianism and the Cold War It explores the ways in which Nordic democracy was used mainly by the social democrats to provide the welfare politics with cultural and historical legitimacy and foundations Thus it also acknowledges the ideological and geopolitical context in which the Nordic welfare state was conceptualised and canonised The contributors of the book are specialists on Nordic politics and history who share a particular interest in political rhetoric and conceptual history
