Reading Like a Serpent Marilyn McEntyre, 2012-03-01 Many remember The Scarlet Letter as required reading for reluctant sixteen year olds The unnamed elusive narrator of Hawthorne's tale of human frailty and sorrow is some readers might say maddeningly indirect ambiguous and inconsistent Readers who hope to arrive at satisfying judgments about the book's four iconic characters Hester Arthur Roger and Pearl are often left to arrive at their conclusions by guess and inference The narrator provides what seems to be willfully incomplete information His point of view shifts from one moral or historical perspective to another without announcement or apology Reading Like a Serpent invites readers to reconsider this American classic as Hawthorne's challenge to the American public to become more generous versatile and responsible readers especially of the Bible a book Hawthorne hoped to rescue from moralistic literalists and legalists reminding us that the letter killeth but the spirit giveth life

Meyer, 2004 Literature and the Writer was first conceived with the hope the essays would shed light on several dimensions of the authorial craft It was the hope of the editor that the selected essays would examine not only writers choice of vocabulary but also their deliberate selection of grammatical constructions and word order and their seamless weaving together of plots and imagery Moreover the analyses would also draw attention to how the writing process impacts the development of characters and the formulation of thematic strands in fiction Thus a wide variety of authors are deliberately selected to give the text depth writers of popular fiction as well as modern classics are included and contrasts are established between traditional writers and those who prefer to follow experimental trends Modernists are set against postmodernists absurdists vs realists minority ethnicities vs majority cultures and dominant genders appear in contrast to subordinated ones Clearly the major tenet of the collection is that the writing profession provides an unending dilemma that deserves to be explored in more detail as readers try to determine how authorial voices confuse while simultaneously elucidating their audience how texts are constructed by authors and yet deconstructed by the very words they choose to include how silence functions as inaudible yet audible discourse and how authorial self concept shapes not only itself but is also echoed in the fictional characters writers who appear in the texts
