## **Sceaux Magiques En Iran Sabanide:**

**Sceaux magiques en Iran sassanide** Rika Gyselen, 1995 Première ébauche pour l'étude des sceaux magiques en Iran sassanide qui formaient un type de glyptique bien distincte comportant de nombreuses séries typologiques dont certaines n'avaient jamais été considérées de façon explicite comme magiques Outre la description et l'illustration de nombreux sceaux magiques on trouvera dans cet ouvrage quelques sujets d'ordre plus général en particulier à propos de l'imagerie magiques qui est examinée sous l'angle de l'anthropologie culturelle et religieuse

**The Art and Material Culture of Iranian Shi'ism** Pedram Khosronejad, 2011-11-30 Shi'i Islam has been the official religion of Iran from the Safavids 1501-1732 to the present day The Shi'i world experience has provided a rich artistic tradition encompassing painting sculpture and the production of artefacts and performance which has helped to embed Shi'i identity in Iran as part of its national narrative In what areas of material culture has Iranian Shi'ism manifested itself through objects or buildings that are unique within the overall culture of Islam To what extent is the art and architecture of Iran from the Safavid period onwards identifiably Shi'i What does this say about the relationship of nation state and faith in Iran Here leading experts trace the material heritage of Iranian Shi'ism within each of its political religious and cultural dimensions

**The Parthian and Early Sasanian Empires** Vesta Sarkhosh Curtis, Michael Alam, Touraj Daryaee, Elizabeth Pendleton, 2016-08-30 Although much of the primary information about the Parthian period comes from coins there has been much new research undertaken over the past few decades into wider aspects of both the Parthian and Sasanian Empires including the Arsacid Parthians and their material culture Despite a change of ruling dynasty the two empires were closely connected and cannot be regarded as totally separate entities The continuation of Parthian influence particularly into the early Sasanian period cannot be disputed An historic lack of detailed information arose partly through the relative lack of excavated archaeological sites dating to the Parthian period in Iran and western scholars' lack of knowledge of recent excavations and their results that are usually published in Persian coupled with the inevitable difficulties for academic research engendered by the recent political situation in the region Although an attempt has been made by several scholars in the west to place this important Iranian dynasty in its proper cultural context the traditional Greco-Roman influenced approach is still prevalent The present volume presents 15 papers covering various aspects of Parthian and early Sasanian history material culture linguistics and religion which demonstrate a rich surviving heritage and provide many new insights into ideology royal genealogy social organization military tactics linguistic developments and trading contacts

*Sasanian Persia* Touraj Daryaee, 2023-06-29 Of profound importance in late antiquity the Sasanian Empire is virtually unknown today except as a counterpoint to the Roman Empire In this highly readable history Touraj Daryaee fills a significant gap in our knowledge of world history He examines the Sasanians' complex and colourful narrative and demonstrates their unique significance not only for development of Iranian civilization but also for Roman and Islamic history The Sasanians were the last of the ancient Persian dynasties and are best

known as the pre eminent practitioners of the Zoroastrian religion Founded by Ardashir I in 224 CE the Sasanian Empire was the dominant force in the Middle East for several centuries until its last king Yazdgerd III was defeated by the Muslim Arabs in the seventh century In this concise yet comprehensive book Touraj Daryaee provides an unrivalled account of Sasanian Persia Drawing on extensive new sources he paints a vivid portrait of Sasanian life and unravels the divergent strands that contributed to the making of this great empire This new edition includes updated economic and political histories as well as several inscriptions that have been found in recent years

**Empires and Exchanges in Eurasian Late Antiquity** Nicola Di Cosmo, Michael Maas, 2018-04-26 Empires and Exchanges in Eurasian Late Antiquity offers an integrated picture of Rome China Iran and the Steppes during a formative period of world history In the half millennium between 250 and 750 CE settled empires underwent deep structural changes while various nomadic peoples of the steppes Huns Avars Turks and others experienced significant interactions and movements that changed their societies cultures and economies This was a transformational era a time when Roman Persian and Chinese monarchs were mutually aware of court practices and when Christians and Buddhists criss crossed the Eurasian lands together with merchants and armies It was a time of greater circulation of ideas as well as material goods This volume provides a conceptual frame for locating these developments in the same space and time Without arguing for uniformity it illuminates the interconnections and networks that tied countless local cultural expressions to far reaching inter regional ones

**Guide to the Study of Ancient Magic** David Frankfurter, 2019-03-19 In the midst of academic debates about the utility of the term magic and the cultural meaning of ancient words like mageia or khesheph this Guide to the Study of Ancient Magic seeks to advance the discussion by separating out three topics essential to the very idea of magic The three major sections of this volume address 1 indigenous terminologies for ambiguous or illicit ritual in antiquity 2 the ancient texts manuals and artifacts commonly designated magical or used to represent ancient magic and 3 a series of contexts from the written word to materiality itself to which the term magic might usefully pertain The individual essays in this volume cover most of Mediterranean and Near Eastern antiquity with essays by both established and emergent scholars of ancient religions In a

burgeoning field of magic studies trying both to preserve and to justify critically the category itself this volume brings new clarity and provocative insights This will be an indispensable resource to all interested in magic in the Bible and the Ancient Near East ancient Greece and Rome Early Christianity and Judaism Egypt through the Christian period and also comparative and critical theory Contributors are Magali Bailliot Gideon Bohak Vronique Dasen Albert de Jong Jacco Dieleman Esther Eidinow David Frankfurter Fritz Graf Yuval Harari Naomi Janowitz Sarah Iles Johnston Roy D Kotansky Arpad M Nagy Daniel Schwemer Joseph E Sanzo Jacques van der Vliet Andrew Wilburn      **Rabbis, Sorcerers, Kings, and Priests** Jason Sion Mokhtarian,2021-11-02 examines the impact of the Persian Zoroastrian Empire on rabbinic identity and authority as expressed in the Babylonian Talmud      Sasanian Seals and Sealings in the A. Saeedi Collection Rika Gyselen,2007 Most of the Sasanian seals published in this catalogue have been in the Saeedi family collection for several decades The collection however has continued to grow since this publication was conceived with more seals being added to it as the opportunity arose The 131 seals included here are only a small part of the collection and the sample applies to the clay sealings covered in this work Where more than one sealing bears the same impression we have contented ourselves with reproducing one well preserved specimen or where necessary two less well preserved ones This work therefore does not include all the sealings cited in my previous work on administrative seals A concordance between those cited in that work and those published here is instead provided Comprising as it does some 463 clay sealings at least half of which bear the seals of administrative bodies or high ranking dignitaries this collection is the richest ever to have been published      **Traditions of the Magi** Albert F. de Jong,2015-08-27 This is the first full treatment of the Greek and Latin references to Zoroastrianism since the pioneering works of Benveniste Bidez Cumont and Clemen It focuses on the possibilities offered by the classical reports on Zoroastrianism to reconstruct the history of that faith The book is divided into three sections The first section deals with introductory problems concerning ancient religious ethnography and current views of the history of Zoroastrianism The second section consists of commentaries on five selected passages The third section offers a thematical overview of the materials and their relevance for the history of Iranian religions Apart from offering introductions to a wide range of debates and topics in Classics and Iranian studies the book aims to illustrate the diversity of beliefs and practices in ancient Zoroastrianism      Languages of Iran: Past and Present D.
