
PLAN YOUR WRITING STRATEGY

An academic essay is assigned to enable a student to learn three things:

1. How to explore a subject area and to make a judgment about a particular issue.
2. How to create an argument supporting that judgment using reasoning and evidence.
3. **How to write an interesting and coherently organized essay.**

Many students consider the actual writing of a research paper to be the hardest part of the learning process. Almost everyone has experienced “writer’s panic” or “writer’s block.” These problems are almost invariably caused by an attempt to put words on paper before you have actually thought out and organized your ideas.

If you follow the guidelines presented in the first two parts of this book, you may never experience “writer’s block” again. By the time you begin to write coherent sentences, you should already have a thesis statement, an organizational pattern, and a body of coherent evidence.

This final section focuses on the strategy, craft, and presentation of the academic essay. Chapter 7 describes the most effective way of presenting information about your topic to the reader. Chapter 8 shows you how to evaluate your written work and to improve your use of basic tools such as words, sentences, and paragraphs. Chapter 9 evaluates the essay as a whole and suggests ways that you can improve its style and presentation.
