**The Routledge Handbook of Ecolinguistics** Alwin F. Fill, Hermine Penz, 2017-07-31 The Routledge Handbook of Ecolinguistics is the first comprehensive exploration into the field of ecolinguistics also known as language ecology Organized into three sections that treat the different topic areas of ecolinguistics the Handbook begins with chapters on language diversity language minorities and language endangerment with authors providing insight into the link between the loss of languages and the loss of species It continues with an overview of the role of language and discourse in describing concealing and helping to solve environmental problems With discussions on new orientations and topics for further exploration in the field chapters in the last section show ecolinguistics as a pacesetter into a new scientific age This Handbook is an excellent resource for students and researchers interested in language and the environment language contact and beyond Energy Abstracts for Policy Analysis ,1986-07 *WHO working group on late-stage development for malaria vaccines to reduce disease burden* ,2022-05-17 Gender, Nutrition, and the Human Right to Adequate Food Anne C. Bellows, Flavio L.S. Valente, Stefanie Lemke, María Daniela Núñez Burbano de Lara, 2015-12-07 This book introduces the human right to adequate food and nutrition as evolving concept and identifies two structural disconnects fueling food insecurity for a billion people and disproportionally affecting women children and rural food producers the separation of women s rights from their right to adequate food and nutrition and the fragmented attention to food as commodity and the medicalization of nutritional health Three conditions arising from these disconnects are discussed structural violence and discrimination frustrating the realization of women s human rights as well as their private and public contributions to food and nutrition security for all many women s experience of their and their children s simultaneously independent and intertwined subjectivities during pregnancy and breastfeeding being poorly understood in human rights law and abused by poorly regulated food and nutrition industry marketing practices and the neoliberal economic system s interference both with the autonomy and self determination of women and their communities and with the strengthening of sustainable diets based on democratically governed local food systems The book calls for a social movement led reconceptualization of the right to adequate food toward incorporating gender women s rights and nutrition based on the food sovereignty framework

Kolechkina, 2021-06-12 This book provides an overview of facts theories and methods from hydrology geology geophysics law ethics economics ecology engineering sociology diplomacy and many other disciplines with relevance for concepts and practice of water resources management It provides comprehensive but also critical reading material for all communities involved in the ongoing water discourses and debates The book refers to case studies in the form of boxes sections or as entire chapters They illustrate success stories but also lessons to be remembered to avoid repeating the same mistakes Based on consolidated state of the art knowledge it has been conceived and written to attract a multidisciplinary audience The aim of this handbook is to facilitate understanding between the participants of the international water discourse and multi level decision making processes Knowing more about water but also about concepts methods and aspirations of different professional disciplinary communities and stakeholders professionalizes the debate and enhances the decision making      Index Medicus , 2001-05 Vols for 1963 include as pt 2 of the Jan issue Medical subject headings      *MotorBoating* , 1925-05      **The Well-being of International Migrants in Rural Areas: Bridging the Migration-Development Nexus** Philomena De Lima, Belinda Leach, David Radford, Seema Arora-Jonsson, 2022-10-17      Urbanization and Affordances that Promote Well-Being for (Urban) People and for a Healthy Biosphere Stephan Barthel, Marketta Kytä, 2020-01-30 The world is urbanizing at an unprecedented rate It is estimated that in the near future urban landscapes for another ca 2 7 billion people will be built on planet Earth approximately converting land equivalent to the size of South Africa Such land conversion coupled with citizen densification increasing in equalities shifting diets and emerging technologies challenge human well being and pose ever increasing demand for resources generated by the Biosphere This Research Topic concentrates on the various ways urbanization can promote individual well being mental physical and social health as well as ecological health a healthy Biosphere What kind of affordances for human health promotion can urbanization include What kinds of affordances for a psychological connection with nature can urbanization include What kinds of nudges for pro environmental behavior and consumption decreasing detrimental consumption behaviors can be actively designed in urban settings The Research Topic at hand uses a transactional approach where an affordance can be understood as a non deterministic in situ precondition for a human activity enabled by relations between abilities of an individual with features of an environment We encourage a broad definition of the concept of affordances where the environment must not be restricted to the material biophysical environment alone but also could be combined with social immaterial features We see that the transactional approach of this Research Topic posits that meaning

arises in relations between humans and their environment that it will be equally applicable to natural and designed environments and that it doesn't regard dichotomies like city contra nature or social contra ecological. Hence this Research Topic is interested in if the transactional approach can be used as a conceptual tool not only for promotion of mental, physical and social health in cities but simultaneously for unraveling relations at the micro scale in cities which can be used for solutions that also promote a healthy Biosphere. Educational Research and Innovation: Pedagogical Knowledge and the Changing Nature of the Teaching Profession OECD, 2017-02-21.
