Voices in the Wilderness Walter Simmons, 2006-02-24 Despite the

Modernist search for new and innovative aesthetics and rejection of traditional tonality several twentieth century composers have found their own voice while steadfastly relying on the aesthetics and techniques of Romanticism and 19th century composition principles Musicological and reference texts have regarded these composers as isolated exceptions to modern thoughts of composition_exceptions of little importance treated simplistically and superficially Music critic and scholar Walter Simmons however believes these composers and their works should be taken seriously They are worthy of more scholarly consideration and deserve proper analysis assessment and discussion in their own regard In Voices in the Wilderness the first in a series of books celebrating the Twentieth Century Traditionalist Simmons looks at six Neo Romantic composers Ernest Bloch Howard Hanson Vittorio Giannini Paul Creston Samuel Barber Nicolas Flagello Through biographical overviews and a comprehensive assessment of musical works Simmons provides readers with a clear understanding of the significance of the composers their bodies of work and their placement in musicological history The chapters delve deeply and objectively into each composer s oeuvre addressing their origins stylistic traits and consistencies phases of development strengths and weaknesses and affinities with other composers The composers most representative works are identified and each chapter concludes with a discography of essential recordings Visit the author s website to read samples from the book and to listen to representative excerpts of each composer s work

Surprised by Beauty Robert Reilly, 2016-04-21 The best music of the 20th century developed our capacity for feeling deepened our compassion and furthered our quest for and understanding of what Aristotle called the perfect end of life from the Foreword by NPR music critic Ted Libbey The single greatest crisis of the 20th century was the loss of faith Noise and its acceptance as music was the product of the resulting spiritual confusion and in its turn became the further cause of its spread Likewise the recovery of modern music the theme to which this book is dedicated stems from a spiritual recovery This is made explicitly clear by the composers whose interviews with the author are collected in this book Robert Reilly spells out the nature of the crisis and its solution in sections that serve as bookends to the chapters on individual composers He does not contend that all of these composers underwent and recovered from the central crisis he describes but they all lived and worked within its broader context and soldiered on writing beautiful music For this they suffered ridicule and neglect and he believes their rehabilitation will change the reputation of modern music It is the spirit of music that this book is most about and in his efforts to discern it Reilly has discovered many treasures The purpose of this book is to share them to entice you to listen because beauty is contagious English conductor John Eliot Gardiner writes that experiencing Bach s masterpieces is a way of fully realizing the scale and scope of what it is to be human The reader may be surprised by how many works of the 20th and 21st centuries of which this is also true
