Twark, 2007 Explores the Eastern German literary trend of the 1990s employing humor and satire to come to terms with socialism's failure and a difficult unification process This title surveys ten novels including works by Brussig Schulze and Hensel These contemporary texts help define Germany today from a specific East German perspective Subject Catalog, 1982 Library of Congress, 1982 *Humor, Satire, and Identity* Jill Twark, 2012-02-14 This is the first book in English to survey the Eastern German literary trend of employing humor and satire to come to terms with experiences in the German Democratic Republic and after the fall of the Berlin Wall As sophisticated attempts to make sense of socialism's failure and a difficult unification process these contemporary texts help define Germany today from a specific Eastern German perspective Grounded in politics and history ten humorous and satirical novels are analyzed for their literary aesthetics and language cultural critiques and socio political insights The texts include popular novels such as Thomas Brussig's *Helden wie wir* Ingo Schulze's *Simple Stories* and Jens Sparschuh's *Der Zimmerspringbrunnen* as well as lesser known but equally relevant works like *Schlehwins Giraffe* by Bernd Schirmer and *Katerfrucht* by Erich Loest A broad spectrum of humor and satire theories is applied to probe texts from various angles and suggest multi layered answers to the question of how these literary modes function in postwall Germany to construct a specifically Eastern German identity Interviews the author conducted with five of the satirists are appended as primary sources and contribute to the interpretation of the texts

Taylor, 2022-03-16 In the 1890s French poet and playwright Alfred Jarry founded pataphysics the absurdist science of

imaginary solutions a concept that has been nominally recognized as the precursor to Dadaism Surrealism and the Theater of the Absurd among other movements Over a century after Jarry made the gesture of dying Katie L Price and Michael R Taylor argue that it is time to take the comedic intervention of pataphysics seriously Pataphysics Unrolled collects critical and creative essays to create an unauthorized account of pataphysical experimentation from its origins in the late nineteenth century through the contemporary moment Reaching beyond the geographic and cultural boundaries normally associated with pataphysics this volume presents rich readings of pataphysical syzygy traces the influence of pataphysics across disciplines and outside of coteries such as the Collège de Pataphysique and asks fundamental questions about the field of modern and contemporary studies that challenge distinctions between the modern and the postmodern high and low culture the serious and the comic Touching on disciplines such as literature art architecture education music and technology this book reveals how pataphysics has been a platform and medium for persistent intellectual poetic conceptual and artistic experimentation for over a century In addition to the editors the contributors to this volume include Charles Bernstein Marc D'Amico Adam Dickinson Johanna Drucker Craig Dworkin Catherine Hansen James Hendler John Heon Ted Hiebert Andrew Hugill Steve McCaffery Seth McDowell Jerome McGann Anne M Mulhall Marcus O Dair Jean Michel Rabat Orchid Tierney and Brandon Walsh

Philosophy and German Literature, 1700–1990 Nicholas Saul, 2002-05-02 Although the importance of the interplay of literature and philosophy in Germany has often been examined within individual works or groups of works by particular authors little research has been undertaken into the broader dialogue of German literature and philosophy as a whole *Philosophy and German Literature 1700–1990* offers six chapters by leading specialists on the dialogue between the work of German literary writers and philosophers through their works The volume shows that German literature far from being the mouthpiece of a dour philosophical culture dominated by the great names of Leibniz Kant Hegel Marx Heidegger and Habermas has much more to offer while possessing a high affinity with philosophy it explores regions of human insight and experience beyond philosophy's ken

German-language Comedy Bert Cardullo, 1992 This is the first English collection of the greatest comedies written in German from the late eighteenth to the late nineteenth centuries Each of the translated comedies is placed in historical

context and in relationship to its author's life as well as his other plays and each is followed by a select bibliography of English language criticism and interpretation Romantic Drama Gerald Ernest Paul Gillespie, 1994 It does not treat Romanticism as a limited period dominated by some construed singular master ethos or dialectic rather it follows the literary patterns and dynamics of Romanticism as a flow of interactive currents across geocultural frontiers **The Pataphysician's Library** Ben Fisher, 2000-12-01 The Pataphysician's Library is a study of aspects of 1890s French literature with specific reference to the traditions of Symbolism and Decadence Its main focus is Alfred Jarry who has proved perhaps surprisingly to be one of the more durable fin de siècle authors The originality of this study lies in its use of the enigmatic list of books termed the livres pairs which appears in Jarry's 1898 novel *Gestes et Opinions du docteur Faustroll pataphysicien* his best known prose work The greatest interest of the livres pairs lies in a group of works by Jarry's friends and contemporaries primarily Leon Bloy Georges Darien Gustave Kahn Catulle Mendès Josephin Rodière Rachilde and Henri de Regnier Several of these authors feature as the lords of islands visited by the pataphysician Dr Faustroll in his curious voyage around Paris In conjunction with Jarry's own works the contemporary livres pairs serve to illustrate the vibrant and experimental atmosphere in which these authors worked **Library of Congress Catalog** Library of Congress, 1970
