Schiller Bicentenary Lectures Institute Publications:

Studies in Weimar Classicism Roger H. Stephenson, 2010 This book is a study of central aspects of Weimar Classicism written in the light of Ernst Cassirer's cultural theory. It provides a close reading of key texts ranging across Goethe and Schiller's oeuvre as a whole from their philosophical poems through their drama prose writing and theoretical reflections on cultural and scientific topics. The work seeks to demonstrate the attested but hitherto largely unanalysed aesthetic power at the very heart of their writings which in turn underpins their epistemological and ethical significance. The main theme of Weimar Classicism is the role of symbolism in Classicism as distinct from the centrality of semiosis in competing cultural norms. The overall aim of the book is thus to see Weimar Classicism anew both historically and analytically as an enlightening context in which to reconsider many of the central tenets of contemporary often called postmodern cultural theory.

As a scholar of religion Gill provides special consideration to the importance of this emerging appreciation of dancing as a perspective inclusive of body and experience. Each chapter delves into the many factions of dancing moving gesturing self othering playing seducing and masking. Gill also draws on the analysis of contemporary dance films and musicals his experience as a dancer and dance teacher his extensive research on dance traditions and his interest in neurobiology and phenomenology to develop the core of this rich exploration of dancing the structurality of all dances. **PMLA: Publications of the Modern Language Association of America** Florence Howe, 1974 **University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles** University of California (System).
