Tangueros offers an inside view of Argentine tango music in the context of the growth and development of the art form's instrumental and stylistic innovations. Rather than perpetuating the glamorous worldwide conceptions that often only reflect the tango that left Argentina nearly 100 years ago, authors Kacey Link and Kristin Wendland trace tango's historical and stylistic musical trajectory in Argentina, beginning with the *guardia nueva*'s crystallization of the genre in the 1920s, moving through tango's Golden Age (1932-1955) and culminating with the Music of Buenos Aires today. Through the transmission, discussion, examination, and analysis of primary sources currently unavailable outside of Argentina, including scores, manuals, style, archival audio, video recordings, and live video footage of performances and demonstrations, Link and Wendland frame and define Argentine tango music as a distinct expression possessing its own musical legacy and characteristic musical elements. Beginning by establishing a broad framework of the tango art form, the book proceeds to move through twelve in-depth profiles of representative tangueros (tango musicians) within the genre's historical and stylistic trajectory. Through this focused examination of tangueros and their music, Link and Wendland show how the dynamic Argentine tango grows from one tanguero linked to another and how the composition techniques and performance practices of each generation are informed by that of the past.

**Music in Films about the Shoah** Elias Berner, 2024-08-13 This book focuses on the aural and musical sphere of fictional audio-visual reconstructions of the Holocaust, a defining event in the history of the 20th century. Musicology has seen an increasing number of works on the function of film music and the construction of identity in media contexts in recent years. This project analyses the use of music in feature films about the Shoah. The analysis of the sound of Nazi violence as well as the escape from and resistance against it not only reveals a lot about the construction of the filmic characters' emotive states but also tells us more about our own relationship to the past. The author understands the soundtrack of these films as an affective mediator of time which connects filmic representations of the past with the present. Analysis focuses on the soundtracks of four films: *Schindler's List*, *The Pianist*, *Taking Sides*, and *Inglourious Basterds*. *The Harvard Concise Dictionary of Music and Musicians* Don Michael Randel, 1999-11-29 Entries are arranged alphabetically and encompass terms, musical forms, and styles, individual works, and instruments, as well as composers, performers, and theorists. **Booklist** **The Top Ten Film Themes To Play On Piano** Wise Publications, 2016-12-22
