Schlachtschiff Gneisenau:

German Battleships 1939-45 Gordon Williamson, 2012-04-20 In this the first of a five volume series covering the capital ships of the German Navy of World War II Gordon Williamson examines the design development and operational use of the battleships used by the Kriegsmarine The Schlesien and Schleswig Holstein were used mostly as training ships until the end of the war when they took part in bombardment of Soviet troop movements in East Prussia The Scharnhorst had a successful career until her sinking at the battle of the North Cape and the Gneisenau with her ignominious end as a block ship Bismarck's short but glorious career and Tirpitz's lonely vigil in Norway's distant Fjords until sunk by RAF bombers using the massive Tallboy bombs are also covered

Hitler's Navy Gordon Williamson, 2022-02-03 A complete illustrated study of the German Kriegsmarine throughout World War II Hamstrung at first by the terms of the Treaty of Versailles during the 1930s the German Navy underwent a programme of rearmament in defiance of the restrictions building modern warships under limitations which forced technological innovation Submarines were strictly prohibited by the treaty and yet following years of covert development they became one of the Kriegsmarine's most deadly weapons Blooded in the Spanish Civil War the surface ships of the Kriegsmarine went on to play a crucial role in the opening salvoes of World War II during the invasions of Poland and Norway although serious losses here set back plans for the invasion of Britain and by the end of the war only a handful of surface vessels remained to be divided up among the Allies From the beginning of the war but especially after the fall of France the dreaded and extraordinarily successful U boats stalked the Atlantic threatening vital British shipping convoys and choking off the lifeline of munitions and supply from the US Once Italy and Japan entered the war German naval operations expanded to the Mediterranean and the Indian Ocean This highly illustrated volume is a comprehensive study of the German Navy throughout the war from pocket battleships to torpedo boats

Battleships of the Scharnhorst Class Gerhard Koop, Klaus-Peter Schmolke, 2014-07-22 In this WWII naval history an expert in German warship design examines the legendary battlecruisers Scharnhorst and Gneisenau This concise yet authoritative summary of Scharnhorst class vessels covers the design history and careers of these WWII era warships Much like its companion volume Battleships of the Bismarck Class it offers a detailed description of both ships with full technical details The author also provides an outline of their combat service heavily illustrated with plans battle maps and a substantial collection of photographs The Scharnhorst and Gneisenau were the product of a long and complicated design process Combining speed and power these two battleships took part in a number of major operations including the infamous Channel Dash

Bismarck Michael Tamelander, Niklas Zetterling, 2020-01-10 The author of Blitzkrieg covers one of the most dramatic events of the Second World War in an outstanding book about naval warfare World War II History When the German battleship Bismarck a masterpiece of engineering well armored with a main artillery of eight 15 inch guns left the port of Gotenhafen for her first operation on the night of May 18 1941 the British battlecruiser Hood and the new battleship Prince

of Wales were ordered to find her quickly as several large convoys were heading for Britain On May 24 Bismarck was found off the coast of Greenland but the ensuing battle was disastrous for the British The Hood was totally destroyed within minutes with only three crewmen surviving and Prince of Wales was badly damaged The chase resumed until the German behemoth was finally caught this time by four British capital ships supported by torpedo bombers from the carrier Ark Royal The icy North Atlantic roiled from the crash of shellfire and bursting explosions until finally the Bismarck collapsed sending nearly two thousand German sailors to a watery grave Tamek and Zetterling's work rests on stories from survivors and the latest historical discoveries The book starts with a thorough account of maritime developments from 1871 up to the era of the giant battleship and ends with a vivid account hour by hour of the dramatic and fateful hunt for the mighty Bismarck Nazi Germany's last hope to pose a powerful surface threat to Allied convoys Exciting story telling recreates the thrill of the hunt International Journal of Maritime History An epic sea chase and its vivid human details World War II **Heavy Cruisers of the Admiral Hipper Class** Gerhard Koop, 2014-07-22 A concise authoritative heavily illustrated summary of this class of German WWII era warships covering their design histories and careers The Admiral Hipper class was among the largest heavy cruisers to serve in World War II Intended to be a class of five they enjoyed contrasting fortunes Seydlitz and Lützow were never completed Blücher was the first major German warship sunk in action Admiral Hipper became one of the most successful commerce raiders of the war while the Prinz Eugen survived to be expended as a target in one of the first American nuclear tests in 1946 Part of a six volume series on the German Navy's WWII era warships written by Gerhard Koop and illustrated by Klaus Peter Schmolke this book contains an account of the development of the Admiral Hipper class a detailed description of the ships with full technical details and an outline of their service heavily illustrated with plans battle maps and a substantial collection of photographs Hitler's Navy Jak P. Mallmann Showell, 2009-03-19 The German Navy both before the War and throughout the years of fighting was heavily outnumbered by the navies of Great Britain and the United States nonetheless it proved to be serious thorn in the sides of its adversaries The U boat war in the North Atlantic threatened the very liberation of Europe while the major warships posed a constant threat to the Allied shipping lanes This important reference book is an indispensable guide to the ships organisation command and rank structure and leaders of the Kriegsmarine and helps explain why it was such a potent force A detailed text augmented by photos maps and diagrams studies the German Navy from the Treaty of Versailles to the collapse of the U boat offensive and the demise of the Third Reich After covering the background organisation and naval bases the author gives detailed descriptions of all the classes of ship from the battleships to motor torpedo boats and minesweepers The officers and sailors are covered along with their uniforms and awards and insignia Biographies of notable personalities and a chronology of the main naval events are included as well as appendices and a select bibliography Based on the author's 1979 title The German Navy in World War Two this is a classic work of reference for a new generation of readers *Schlachtschiff Bismarck Teil 2* Malte Gaack, Ward

Hitler Strikes North Jack Greene, Alessandro Massignani, 2013-03-19 A detailed account of Germany's groundbreaking Operation Weserübung the first three dimensional land sea air strategic invasion in history The German invasion of Denmark and Norway in April 1940 brought a sudden and shocking end to the Phoney War in the West In a single day multiple seaborne and airborne landings established German forces ashore in Norway overwhelming the unprepared Norwegian forces and catching the Allied Powers completely by surprise Their belated response was ill thought out and badly organized and by June 9 all resistance had formally ended The strategic importance of Scandinavian iron ore shipped through the port of Narvik to Germany was the main cause of the campaign The authors show how Allied attempts to interdict these supplies provoked German plans to secure them and also how political developments in the inter war years resulted in both Denmark and Norway being unable to deter threats to their neutrality despite having done so successfully in the First World War The German attack was their first joint air sea and land operation making large scale use of air landing and parachute forces and the Luftwaffe's control of the air throughout the campaign would prove decisive Although costly particularly for the Kriegsmarine it was a triumph of good planning improvisation and aggressive determined action by the troops on the ground Making full use of Norwegian Danish and German sources this book is a full and fascinating account of this highly significant campaign and its aftermath both for the course of the Second World War and the post war history of the two countries conquered with such unprecedented speed Battleships and Battle-cruisers, 1884-1984 Myron J.
