Scholars Saints And Sufis Muslim Religious Institutions In The Middle East Since 15:

Scholars and Sultans in the Early Modern Ottoman Empire Abdurrahman Atçıl, 2017 This book examines the transformation of scholars into scholar bureaucrats and discusses ideology law and administration in the Ottoman Empire

A Culture of Sufism Dina Le Gall, 2013-01-03 A Culture of Sufism opens a window to a new understanding of one of the most prolific and enduring of all the Sufi brotherhoods the Naqshbandiyya as it spread from its birthplace in central Asia to Iran Anatolia Arabia and the Balkans between the fifteenth and seventeenth centuries Drawing on original sources and carefully aware of the power of modern paradigms to obscure Le Gall portrays a Naqshbandiyya that was devotionally sober yet not demysticized and rigorously orthodox without being politically activist She argues that the establishment of this brotherhood in Ottoman society was not the product of political instrumentality Instead the Naqshband dissemination is best explained in reference to a series of little appreciated organizational and cultural modes such as proclivity to long distance travel independence from specialized Sufi institutions linguistic adaptability commitment to writing and copying and the practice of bequeathing spiritual authority to non kin

The World's Religions: Islam Peter Clarke, 2002-06-01 The theological and philosophical bases of the beliefs are clearly presented with their history development expression and everyday practice It is written by international specialists in a scholarly but non technical style

Islam without Europe Ahmad S. Dallal, 2018-04-20 Replete with a cast of giants in Islamic thought and philosophy Ahmad S Dallal s pathbreaking intellectual history of the eighteenth century Muslim world challenges stale views of this period as one of decline stagnation and the engendering of a widespread fundamentalism Far from being moribund Dallal argues the eighteenth century prior to systematic European encounters was one of the most fertile eras in Islamic thought Across vast Islamic territories Dallal charts in rich detail not only how intellectuals rethought and reorganized religious knowledge but also the reception and impact of their ideas From the banks of the Ganges to the shores of the Atlantic commoners and elites alike embraced the appeals of Muslim thinkers who while preserving classical styles of learning advocated for general participation by Muslims in the definition of Islam Dallal also uncovers the regional origins of most reform projects showing how ideologies were forged in particular sociopolitical contexts Reformists ventures were in large part successful up until the beginnings of European colonization of the Muslim world By the nineteenth century the encounter with Europe changed Islamic discursive culture in significant ways into one that was largely articulated in reaction to the radical challenges of colonialism

The Battle for God Karen Armstrong, 2011-08-10 In the late twentieth century fundamentalism has emerged as one of the most powerful forces at work in the world contesting the dominance of modern secular values and threatening peace and harmony around the globe Yet it remains incomprehensible to a large number of people In The Battle for God Karen Armstrong brilliantly and sympathetically shows us how and why fundamentalist groups came into existence and what they yearn to accomplish We see the West in the sixteenth century beginning to create an entirely new kind of civilization which brought in

its wake change in every aspect of life often painful and violent even if liberating Armstrong argues that one of the things that changed most was religion People could no longer think about or experience the divine in the same way they had to develop new forms of faith to fit their new circumstances Armstrong characterizes fundamentalism as one of these new ways of being religious that have emerged in every major faith tradition Focusing on Protestant fundamentalism in the United States Jewish fundamentalism in Israel and Muslim fundamentalism in Egypt and Iran she examines the ways in which these movements while not monolithic have each sprung from a dread of modernity often in response to assault sometimes unwitting sometimes intentional by the mainstream society Armstrong sees fundamentalist groups as complex innovative and modern rather than as throwbacks to the past but contends that they have failed in religious terms Maintaining that fundamentalism often exists in symbiotic relationship with an aggressive modernity each impelling the other on to greater excess she suggests compassion as a way to defuse what is now an intensifying conflict **BONUS** This edition contains an excerpt from Karen Armstrong's *Twelve Steps to a Compassionate Life* *Recasting Islamic Law* Rachel M.

Scott,2021-03-15 By examining the intersection of Islamic law state law religion and culture in the Egyptian nation building process *Recasting Islamic Law* highlights how the sharia when attached to constitutional commitments is reshaped into modern Islamic state law Rachel M Scott analyzes the complex effects of constitutional commitments to the sharia in the wake of the Egyptian Revolution of 2011 She argues that the sharia is not dismantled by the modern state when it is applied as modern Islamic state law but rather recast in its service In showing the particular forms that the sharia takes when it is applied as modern Islamic state law Scott pushes back against assumptions that introductions of the sharia into modern state law result in either the revival of medieval Islam or in its complete transformation Scott engages with premodern law and with the Ottoman legal legacy on topics concerning Egypt's Coptic community women's rights personal status law and the relationship between religious scholars and the Supreme Constitutional Court *Recasting Islamic Law* considers modern Islamic state law's discontinuities and its continuities with premodern sharia Thanks to generous funding from Virginia Tech and its participation in TOME Toward an Open Monograph Ecosystem the ebook editions of this book are available as Open Access volumes from Cornell Open cornellpress.cornell.edu/cornell-open and other repositories **Islamic Law and the**

Legal System of Saudi Frank E. Vogel,2000 This volume offers an examination of the legal system of Saudi Arabia not only for its own sake but also as a case study for insight into past and present Islamic legal systems [Hidden in Plain Sight](#)

Eliza Tasbihi,2024-12-02 The book is an examination of the apocryphal text known as Book Seven of the Mathnaw attributed to R m which has never before been studied Why was this text added to R m's Mathnaw What were its implications in the Mevlev centers in 17th century Ottoman society or in Persian speaking societies in India and Iran The author has located and analyzed different manuscript versions of the text discusses possible authors and motives behind its composition Was Book Seven added on the Indian subcontinent or in the Ottoman Empire One important aspect of the text being interpreted as

Book Seven was a great anxiety over whether R m s Mathnaw had been incomplete an assumption made by R m s own son Sul n Valad as well as by Sufis in India and the Ottoman lands In addition to a literary examination of Book Seven of R m s Mathnaw the study also sheds light on religio political conflicts between various social groups in Ottoman society in which this text played a major role By examining sm l Anqarav s d 1631 introduction on his commentary which presents a detailed account of his debate with Mevlev and Khalvet Sufis and shaykhs I argue that Anqarav claimed authority as the ultimate commentator and Mathnaw reciter among the Mevlev Sufis a claim that was bolstered by his closeness to Sultan Murad IV d 1049 1640

The World's Religions Peter Clarke, Friedhelm Hardy, Leslie Houlden, Stewart Sutherland, 2004-01-14 Gives an account of the history the theological basis the practice and the current state of the study of religion and religions throughout the world Combines a clear and non technical style of presentation with a structure and range of contributions which reflect the richness and complexity of religion itself of the religions of the world and the study of religions Comprehensive index bibliographies and suggestions for further reading Intriguing philosophical questions are raised about the nature of religion and the qualities needed for studying it Times Higher Education Supplement Excellent book remarkably successful impressive as much for the sheer scale of the undertaking as for its consistent standard of analysis It is a fine achievement which will serve both as a very suitable textbook for students and a reliable guide to the state of scholarship in the History and Study of Religions Heythrop Journal

Muslim Community Organizations in the West Mario Peucker, Rauf Ceylan, 2017-04-07 The book focusses on the historical emergence and contemporary challenges of Muslim community organizations and their struggle for recognition as ordinary voices in multiethnic and multi religious civil societies of Western democracies It offers a range of different perspectives on how Muslim communities position themselves and navigate the social and political landscape shaped by on the one hand normalization of ethno religious diversity and on the other ongoing misrecognition and essentialisation of Muslims in the West The contributions from internationally acclaimed scholars as well as emerging researchers from Canada the United Kingdom France Germany Switzerland and Australia shine new light on both country specific similarities and divergences
