

# SEX & GENDER GLOSSARY

## SEX

A set of biological attributes including chromosomes, gene expression, hormone levels and functions, and reproductive anatomy. Sex is usually assigned at birth by observation of a baby's external genitalia, not by their internal organs, hormones, or genes.

## GENDER

Society constructed roles, behaviors, expressions, and identities. Gender is often treated, erroneously, as equivalent to sex (boys/men = male and girls/women = female).

## GENDER EXPRESSION

External manifestations of gender, expressed through a person's name, pronouns, appearance, clothing, voice, and/or behavior.

## GENDER DIVERSE

An umbrella term describing any person whose gender identity, role, or expression differs from socially prescribed gender norms.

## INTERSEX

Describes a person with one or more male sex characteristics, including genitalia, internal reproductive organs, and chromosomes, that fall outside of binary conceptions of male or female bodies. Around 1.7% of people are born intersex, comparable to the number of people born with red hair.

## GENDER IDENTITY

A person's internal, deeply-held knowledge of their gender.

## CISGENDER

Describes a person whose gender identity matches their sex assigned at birth.

## TRANSGENDER (TRANS)

Describes a person whose gender identity differs from the sex they were assigned at birth.

## NONBINARY (ALSO GENDER FLUID, GENDERQUEER, AND AGENDER)

Describes a person whose experience of their gender identity and/or gender expression falls outside the binary gender categories of "man" and "woman."

## GENDER DYSPHORIA

The distress a person experiences when their gender identity does not match their sex assigned at birth.

## GENDER-AFFIRMING CARE

An umbrella term to describe surgical, hormonal, psychological, or other medical services provided to transgender and gender diverse people.

## GENDER EUPHORIA

The comfort and joy someone experiences when their gender expression is aligned with their gender identity.

## TRANSITIONING

The medical, legal, and/or social process a person undertakes to bring their gender expression closer to their body into alignment with their gender identity.

## MISGENDERING

When someone addresses or refers to another person by the wrong gender. This includes referring to a person using the wrong pronouns or honorifics such as Mr. or Ms., or by calling a trans person by their deadname—the name they used before they transitioned.
