Cohen, Jerald Greenberg, 2013-11-11 From July 16 through July 21 1984 a group of American and West German scholars met in Marburg West Germany to discuss their common work on the topic of justice in social relations For over 30 hours they presented papers raised questions about each other's work and in so doing plotted a course for future research and theory building on this topic The participants were asked to present work that represented their most recent state of the science contributions in the area The contributions to this volume represent refined versions of those presentations papers that have been improved by the authors consideration of the comments and reactions of their colleagues The result we believe is a work that represents the cutting edge of scholarly inquiry into the important matter of justice in social relations To give the participants the freedom to present their ideas in the most appropriate way we the conference organizers and the editors of this volume gave them complete control over the form and substance of their presentations The resulting diversity is reflected in this book where the reader will find critical integrative reviews of the literature reports of research investigations and statements of theoretical positions The chapters are organized with respect to the common themes that emerged in the way the authors addressed the issues of justice in social relations Each of these themes conflict and power

theoretical perspectives norms and applications is represented by a part of this book **Justice** Ronald L. Cohen,2013-11-11 Ronald L Cohen Justice is a central moral standard in social life It is invoked in judging individual persons and in judging the basic structure of societies It has been described as akin to a human hunger or thirst Pascal Pensees cited in Hirschman 1982 p 91 more powerful than any physical hunger and endlessly resilient Pitkin 1981 p 349 The most prominent contemporary theory of justice proceeds from the claim that justice is the first virtue of social institutions as truth is systems of thought Rawls 1971 p 3 However as the following chapters demonstrate justice has a complex and controversial history If as has been claimed justice is a central category of human thought and a central aspect of human motivation can it also be the case that to invoke justice is no more than banging on the table an emotional expression which turns one s demand into an absolute postulate Ross 1959 p 274 If justice is the first virtue of social institutions can the concept of social or economic justice at the same time be entirely empty and meaningless so that any attempt to employ it is either thoughtless or fraudulent Hayek 1976 pp xi xii In a formal sense justice concerns ensuring that each person receives what she or he is due

The Social Psychology of Procedural Justice E.Allan Lind,Tom R. Tyler,2013-06-29 We dedicate this book to John Thibaut He was mentor and personal friend to one of us and his work had a profound intellectual influence on both of us We were both strongly influenced by Thibaut s insightful articulation of the importance to psychology of the concept of procedural justice and by his empirical work with Laurens Walker in reactions to legal institu demonstrating the role of procedural justice tions The great importance we accord the Thibaut and Walker work is evident throughout this volume If anyone person can be said to have created an entire field of inquiry John Thibaut created the psychological study of procedural justice To honor Thibaut thus in no sense reduces our recognition of the contributions of his co worker Laurens Walker in the creation of the field We are as certain that Walker would endorse our statement as we are that Thibaut with characteristic modesty would demur from it Even to praise Thibaut in this fashion falls short of recognizing all of his contributions to procedural justice Not only did he initiate the psy chological study of the topic he also built much of the intellectual foun dation upon which the study of procedural justice rests Thibaut s work with Harold Kelley 1959 Kelley Thibaut 1978 created a social psy chological theory of interdependence that among many other applica tions serves as the basis for one of the major models of the psychology of procedural justice **Mitigating Learner Disadvantages in**
