School Effectiveness Research Policy And Practice:

School Effectiveness David Reynolds, Peter Cuttance, 1992 **School Effectiveness** David Reynolds, 2010-07-15 This volume reviews the research in the field of school effectiveness and improvement. Many key questions are examined such as different methods for assessing school effectiveness and variations in examination attainment in schools. It draws together the funding of the programmes of improvement being implemented in schools and provides practical discussion of effective school practice and its direct implications in schools. It is aimed at teachers, student teachers, administrators and advisors. The contributors are Bill Badger, Louise S Balkey, Bert P M Creemers, Carol T Fitz Gibbon, Anthony F Heath, Daniel V Levine, Peter Mortimore, Joseph Murphy. **School Effectiveness and Improvement Research, Policy and Practice** Christopher Chapman, Paul Armstrong, Alma Harris, Daniel Muijs, David Reynolds, Pam Sammons, 2012-03-12 This book provides a contemporary overview of school effectiveness and improvement. It charts the development theory and research in this area and looks at the contribution made to policy and practice. It also challenges some assumptions that have become ingrained into the theoretical and methodological traditions of the field. By challenging these orthodoxies it provides a framework that sets a new agenda and repositions the field to meet the emerging challenges of the twenty first century. It argues that traditional measures of school effectiveness are challenged as systems have attempted to adapt to a complex range of emerging agendas. New theoretical perspectives are required which consider education and a broader set of outcomes. This shift requires a rethink of how effectiveness and improvement have been understood by the field and a reconstruction by policy makers and practitioners. Attention must be given to promoting equity as well as effectiveness so that one school or student's gain no longer means another's loss. The field must develop new methodologies if inequities are to be challenged and a broader set of outcome measures are to be developed. The two questions guiding this book are: How can educational effectiveness and improvement research and practice support the development of a more equitable education service? What are the key indicators of educational effectiveness and improvement and what are the new methodologies required to facilitate a shift from school effectiveness and improvement to educational effectiveness and improvement? This book uses lenses of research policy and practice to explore these key questions and articulate what such a repositioning may look like and how it may be achieved. It will prove invaluable for teachers, school leaders and anyone involved in policy and educational research. *The Routledge International Handbook of Educational Effectiveness and Improvement* Christopher Chapman, Daniel Muijs, David Reynolds, Pam Sammons, Charles Teddlie, 2015-08-14 The International Handbook of Educational Effectiveness and Improvement draws together leading academics and researchers in the field to reflect on the history, traditions and the most recent developments in this dynamic and influential field.
