Natural Theology Kelly Cherry,1988 *Literature and Natural Theology in Early Modern England* Katherine Calloway,2023-10-19 Katherine Calloway explores the relationship between science and religion through a wide ranging selection of early modern English poets *The Oxford Handbook of Natural Theology* Russell Re Manning,2013-01-17 The Oxford Handbook of Natural Theology is the first collection to consider the full breadth of natural theology from both historical and contemporary perspectives and to bring together leading scholars to offer accessible high level accounts of the major themes The volume embodies and develops the recent revival of interest in natural theology as a topic of serious critical engagement Frequently misunderstood or polemicized natural theology is an under studied yet persistent and pervasive presence throughout the history of thought about ultimate reality from the classical Greek theology of the philosophers to twenty first century debates in science and religion Of interest to students and scholars from a wide range of disciplines this authoritative handbook draws on the very best of contemporary scholarship to present a critical overview of the subject area Thirty eight new essays trace the transformations of natural theology in different historical and religious contexts the place of natural theology in different philosophical traditions and diverse scientific disciplines and the various cultural and aesthetic approaches to natural theology to reveal a rich seam of multi faceted theological reflection rooted in human nature and the environments within which we find ourselves *Natural Theology in the Scientific Revolution* Katherine Calloway,2015-10-06 In the seventeenth century scientific discoveries called into question established Christian theology It has been claimed that contemporary thinkers contributed to this conflict model by using the discoveries of the natural world to prove the existence of God Calloway challenges this view by close examination of five key texts of the period

The Poems of Browning: Volume Four John Woolford,Daniel Karlin,Joseph Phelan,2014-05-12 The Poems of Robert Browning is a multi volume edition of the poetry of Robert Browning 1812 1889 resulting from a completely fresh appraisal of the canon text and context of his work The poems are presented in the order of their composition and in the text in which they were first published giving a unique insight into the origins and development of Browning s art Annotations and headnotes in keeping with the traditions of Longman Annotated English Poets are full and informative and provide details of composition publication sources and contemporary reception Volumes one 1826 1840 and two 1841 1846 presented the poems from his Browning s early years while volume three 1847 61 covered the period of his marriage to Elizabeth Barrett and residence in Italy Volume four 1862 71 deals with the decade following Elizabeth s death and Browning s return to England These years saw the appearance of some of his most significant work and a steady rise in his critical reputation In *Dramatis Personae* 1864 Browning uses his characteristic dramatic mode to expose predicaments of thought and feeling in characters ranging from Shakespeare s Caliban to the cheating medium Mr Sludge other poems dramatize Browning s complicated feelings about the deceptions and self deceptions of romantic love *Balaustion s Adventure* 1871 is an engaging

reworking of Euripides Alcestis whose theme the resurrection of a beloved lost wife has poignant personal resonance for Browning while Prince Hohenstiel Schwangau published in the same year offers a thinly veiled account of the life and actions of Napoleon III the recently deposed Emperor of France over whom Browning and Elizabeth had quarrelled In these two long poems Browning can be seen engaged in the dialogue with Elizabeth that was to shape much of his work during the remainder of his writing life

A Natural Theology of the Arts Anthony Monti, 2017-07-05 A Natural Theology of the Arts contends that the arts are theological by their very nature and not simply when they are explicitly religious thereby constituting a distinctive kind of natural theology Borrowing from science the stance of critical realism to justify truth claims in art and theology it argues that works of art are complex metaphors that convey the real presence of God even when not labelled as such Citing numerous examples from literature painting and music including Shakespeare's King Lear Vermeer's Young Woman with a Water Jug Rembrandt's Return of the Prodigal Son and Stephen Cleobury's experiences performing Bach's St Matthew Passion and Britten's Rejoice in the Lamb the author concludes that works of art anticipate the new creation thereby suggesting a Trinitarian account of the God present in the creation and reception of such works

Robert Browning: Selected Poems John Woolford, Daniel Karlin, Joseph Phelan, 2013-11-19 Robert Browning 1812-1889 was one of the defining figures of the Victorian age Famous in his lifetime for his elopement and marriage to Elizabeth Barratt his critical reputation grew steadily in the years following her early death Browning's mastery of dramatic verse was evident throughout his career from such chillingly unforgettable monologues as My Last Duchess and Porphyria to the mature work included in his collection Dramatis Personae This selection chosen by leading scholars reveals the innovation complexity and profound psychological insight that have ensured Browning's enduring reputation and his continuing appeal to readers today Browning Selected Poems results from a completely fresh appraisal of the canon text and context of the writer's work The poems are presented in the order of their composition and in the text in which they were first published giving a unique insight into the development of Browning's art An introduction and chronology offer useful background material whilst annotations and headnotes provide details of composition publication sources and contemporary reception This authoritative yet accessible selection should become the first point of reference for scholar student and general reader alike

The Cambridge Companion to Victorian Poetry Joseph Bristow, 2000-10-26 This Companion to Victorian Poetry provides an introduction to many of the pressing issues that absorbed the attention of poets from the 1830s to the 1890s It introduces readers to a range of topics including historicism patriotism prosody and religious belief The thirteen specially commissioned chapters offer insights into the works of well known figures such as Matthew Arnold Robert Browning and Alfred Tennyson and the writings of women poets like Michael Field Amy Levy and Augusta Webster whose contribution to Victorian culture has in more recent years been acknowledged by modern scholars Revealing the breadth of the Victorians' experiments with poetic form this Companion also discloses the extent to which their writings addressed the prominent intellectual and social

questions of the day The volume which will be of interest to scholars and students alike features a detailed chronology of the Victorian period and a comprehensive guide to further reading *Ramified Natural Theology in Science and Religion* Rodney Holder, 2020-10-15 This book offers a rationale for a new ramified natural theology that is in dialogue with both science and historical critical study of the Bible Traditionally knowledge of God has been seen to come from two sources nature and revelation However a rigid separation between these sources cannot be maintained since what purports to be revelation cannot be accepted without qualification rational argument is needed to infer both the existence of God from nature and the particular truth claims of the Christian faith from the Bible Hence the distinction between bare natural theology and ramified natural theology The book begins with bare natural theology as background to its main focus on ramified natural theology Bayesian confirmation theory is utilised to evaluate competing hypotheses in both cases in a similar manner to that by which competing hypotheses in science can be evaluated on the basis of empirical data In this way a case is built up for the rationality of a Christian theist worldview Addressing issues of science theology and revelation in a new framework this book will be of keen interest to scholars working in Religion and Science Natural Theology Philosophy of Religion Biblical Studies Systematic Theology and Science and Culture *Interpretations of Poetry and Religion* George Santayana, 2021-05-19 In *Interpretations of Poetry and Religion* by George Santayana the author delves into the relationship between poetry and religion exploring the underlying themes and connections between the two Santayana's writing style is both profound and insightful drawing on his vast knowledge of literature and philosophy to provide a unique perspective on the subject The book is a blend of literary analysis and philosophical reflection offering readers a nuanced understanding of the interplay between poetry and religion within a broader cultural and intellectual context George Santayana a renowned philosopher and essayist brings his expertise in aesthetics and metaphysics to bear on the discussions in this book His background in classical philosophy and literature informs his interpretation of poetry and religion allowing him to offer fresh insights and perspectives on these timeless topics Santayana's keen intellect and philosophical acumen shine through in his exploration of these themes making *Interpretations of Poetry and Religion* a must read for anyone interested in the intersection of art spirituality and culture I highly recommend *Interpretations of Poetry and Religion* to readers who appreciate thought provoking analyses of poetry and religion from a philosophical standpoint Santayana's eloquent prose and deep understanding of the subject matter make this book a valuable addition to any literary or philosophical library

Translation as Transformation in Victorian Poetry Annmarie Drury, 2015-05-05 Explores how Victorian poetry and translation dynamically influenced one another in an age of empire **Poetry Realized in Nature** Trevor H. Levere, Trevor Harvey Levere, 2002-08-08 This volume establishes the fundamental importance of science in Coleridge's intellectual development *Poetry, Philosophy and Theology in Conversation* Francesca Bugliani Knox, Jennifer Reek, 2019-08-05 This volume is a collection of essays that explains how literature philosophy and theology have explored the role of wonder in our

lives particularly through poetry Wonder has been an object of fascination for these disciplines from the Greek antiquity onwards yet the connections between their views on the subject are often ignored in subject specific studies The book is divided into three parts Part I opens the conversation on wonder in philosophy Part II is given to theology and Part III to literary perspectives An international set of contributors including poets as well as scholars have produced a study that looks beyond traditional chronological geographical and disciplinary boundaries both within the individual essays themselves and in respect to one another The volume s wide historical framework is punctuated by four poems by contemporary poets on the theme of wonder An unconventional foray into one of the best known themes of the European tradition this book will be of great interest to scholars of literature theology and philosophy

The Cambridge Introduction to Victorian Poetry

Linda K. Hughes, 2010-05-20 Victorian poetry was read and enjoyed by a much larger audience than is sometimes thought Publication in widely circulating periodicals reprinting in book reviews and excerpting in novels and essays ensured that major poets such as Tennyson Browning Hardy and Rossetti were household names and they remain popular today The Cambridge Introduction to Victorian Poetry provides an accessible overview of British poetry from 1830 to 1901 paying particular attention to its role in mass media print culture Designed to interest both students and scholars the book traces lively dialogues between poets and explains poets choices of form style and language It also demonstrates poetry s relevance to Victorian debates on science social justice religion imperialism and art Featuring a glossary of literary terms a guide to further reading and two examples of close readings of Victorian poems this introduction is the ideal starting point for the study of verse in the nineteenth century

The Natural Theology of Natural Beauty Richard St. John Tyrwhitt, 1882

Lands of Likeness Kevin Hart, 2024-05-31 An original and profound exploration of contemplation from philosopher theologian and poet Kevin Hart In *Lands of Likeness* Kevin Hart develops a new hermeneutics of contemplation through a meditation on Christian thought and secular philosophy Drawing on Kant Schopenhauer Coleridge and Husserl Hart first charts the emergence of contemplation in and beyond the Romantic era Next Hart shows this hermeneutic at work in poetry by Gerard Manley Hopkins Marianne Moore Wallace Stevens and others Delivered in its original form as the prestigious Gifford Lectures *Lands of Likeness* is a revelatory meditation on contemplation for the modern world

Natural Religion Frederick Turner, 2011-12-31 There is widespread belief that the world s religions contradict each other It follows that if one religion is true the others must be false an assumption that implies and may actually create religious strife In *Natural Religion* acclaimed poet critic and essayist Frederick Turner sets out to show that the natural world offers grounds for stating that all religions are in some respect true Through the ages various ways have been proposed to resolve religious differences Some argue for the destruction of all religions but one s own Others substitute an abstract principle for the real ritual and moral practice of religion Still others doubt all religious truth and consequently all truth Others accept a kind of pluralistic relativism This book explores syncretism whereby all religions are seen as grasping the same strange and complex

reality but by very different means and handles The idea that all religions are true raises a supervening question if so what must the real physical universe be like Turner approaches these questions in terms of scientific inquiry There is not enough room in space itself to fit in all theologies but there may be enough room in time if new scientific descriptions of time s nature are to be believed Turner argues that in the time models of contemporary cosmological and evolutionary science all times may be connected and time may be infinitely branched and causally looped so that both forward in time and backward in time factors may be in operation in the same event Thus the fundamental substance of the universe may be information rather than matter or energy The universe is more like a vast living organism than a vast machine Turner argues that all existing religions can be shown to fit into this model which in turn points to deeper implications of religious doctrines languages and practices There would be plenty of room in such a view of time for a tree of different yet linked religious worlds and poetic language may be the most effective tool for describing the divine **Thomas Carlyle. Philosophic**

Thinker, Theologian, Historian, and Poet Edwin Paxton Hood,2024-02-01 Reprint of the original first published in 1875 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost

Darwinism and the Divine Alister E. McGrath,2011-02-28 Darwinism and the Divine examines the implications of evolutionary thought for natural theology from the time of publication of Darwin s On the Origin of Species to current debates on creationism and intelligent design Questions whether Darwin s theory of natural selection really shook our fundamental beliefs or whether they served to transform and illuminate our views on the origins and meaning of life Identifies the forms of natural theology that emerged in 19th century England and how they were affected by Darwinism The most detailed study yet of the intellectual background to William Paley s famous and influential approach to natural theology set out in 1802 Brings together material from a variety of disciplines including the history of ideas historical and systematic theology evolutionary biology anthropology sociology and the cognitive science of religion Considers how Christian belief has adapted to Darwinism and asks whether there is a place for design both in the world of science and the world of theology A thought provoking exploration of 21st century views on evolutionary thought and natural theology written by the world renowned theologian and bestselling author The Poetical Works of Robert Browning Robert Inglesfield,2025-05-13

The English first edition of Dramatis Personae was published in May 1864 with the American first edition appearing hard on its heels in the following September This was the second of the two great collections of Robert Browning s middle years the first Men and Women having appeared nine years previously The new collection with its inspired general title which Browning seems to have hit upon only weeks before the publication of the English first edition was certainly an extraordinary imaginative and technical achievement the poems are remarkable for their modernity of subject matter and close psychological interest as well as their assertive individuality of conception An outstanding feature is the inventive handling of

tone as for example in *Apparent Failure* Browning seems to have regarded the collection very much as a continuation and development of *Men and Women* with its varied contrasting dramatic lyrics and dramatic argumentative poems As in the earlier collection the great majority of the poems are essentially dramatic in conception
