## **Naturalism Subjectivism:**

*Naturalism and Subjectivism* Marvin Farber, 1959-01-01 This book will assist readers of philosophical literature to understand and to appraise a large section of the controversial philosophical thought of our time The central theme is the conflict between naturalism and idealism The idealist philosophy is considered in its historical outcome of subjectivism as developed in the phenomenological movement The use of phenomenology is discussed as a general philosophy as well as with respect to representative philosophies of human existence The naturalistic view of experience as represented by Dewey is contrasted with the subjectivistic treatment of pure experience which is taken to be somehow prior to nature **The Routledge Handbook of Practical Reason** Ruth Chang, Kurt Sylvan, 2020-12-30 Over the last several decades questions about practical reason have come to occupy the center stage in ethics and metaethics The Routledge Handbook of Practical Reason is an outstanding reference source to this exciting and distinctive subject area and is the first volume of its kind Comprising thirty six chapters by an international team of contributors the Handbook provides a comprehensive overview of the field and is divided into five parts Foundational Matters Practical Reason in the History of Philosophy Philosophy of Practical Reason as Action Theory and Moral Psychology Philosophy of Practical Reason as Theory of Practical Normativity The Philosophy of Practical Reason as the Theory of Practical Rationality The Handbook also includes two chapters by the late Derek Parfit Objectivism about Reasons and Normative Non Naturalism The Routledge Handbook of Practical Reason is essential reading for philosophy students and researchers in metaethics philosophy of action action theory ethics and the history of philosophy **Phenomenology and Natural Existence** Dale Riepe, 1973-01-01 **The Dilemma of Modernity** Lawrence Cahoon, 1988-01-01 The development of modern culture along subjectivist lines has led to an analogue of psychological narcissism to philosophical narcissism in the culture The intrinsic value of human cultural activity has been lost and the intellectual foundation of the modern world view has been destroyed Cahoon carefully develops the idea of subjectivity and narcissism using psychological theory the dialectical theory of the Frankfurt school and historians The core of his interpretive argument is developed through careful analysis of Descartes and Kant as well as of Husserl and Heidegger Cahoon maintains a carefully controlled continuity between the analysis of philosophic positions and what they reveal about culture In the conclusion he moves toward a recreation of culture in non subjectivist naturalism Insights are drawn from Freud Fairbairn Winnicott Kohut Sennett Lasch Horkheimer Adorno Dewey Cassirer Kundera and Buchler **John McDowell** Jakob Lindgaard, 2009-04-29 John McDowell Experience Norm and Nature combines original essays by leading contemporary philosophers with point by point responses by McDowell himself to explore the central themes of one of the most innovative philosophers of our day Provides original and critical essays examining McDowell's reading and appropriation of Sellars Kant and Hegel in his own philosophy Explores McDowell's notions of perceptual experience and his proposed rethinking of our conception of nature in light of the challenges that reason and normativity introduce Includes an original

essay by McDowell that includes significant developments of his conception of perceptual experience. Offers thorough and penetrating responses by McDowell to his critics.

Meaning in Life Thaddeus Metz, 2013-11-07 What makes a person's life meaningful Thaddeus Metz offers a new answer to an ancient question which has recently returned to the philosophical agenda. He proceeds by examining what if anything all the conditions that make a life meaningful have in common. The outcome of this process is a philosophical theory of meaning in life. He starts by evaluating existing theories in terms of the classic triad of the good, the true and the beautiful. He considers whether meaning in life might be about such principles as fulfilling God's purpose, obtaining reward in an afterlife for having been virtuous, being attracted to what merits attraction, leaving the world a better place, connecting to organic unity or transcending oneself by connecting to what is extensive. He argues that no extant principle satisfactorily accounts for the three-fold significance of morality, enquiry and creativity and that the most promising theory is a fresh one according to which meaning in life is a matter of intelligence contoured toward fundamental conditions of human existence.

Systems of Ethics and Value Theory Ph. S. D. Sahakian, 1963-01-01 In the extensive study *Systems of Ethics and Value Theory* author William S. Sahakian deconstructs these two complex philosophical systems for a scholarly audience. He covers topics from self-realizationism to free will to dignity with careful analysis and reasoning. His astute contributions to the fields of ethics and value theory provide excellent introductions and open up readers' minds to the complex philosophical concepts and arguments.

Metaphors, Narratives, Emotions Stefán Snævarr, 2010 This book argues that there is a complex logical and epistemological interplay between the concepts of metaphor, narrative and emotions. They share a number of important similarities and connections. In the first place all three are constituted by aspect seeing, the seeing as or perception of Gestalts. Secondly all three are meaning-endowing devices helping us to furnish our world with meaning. Thirdly the threesome constitutes a trinity. Emotions have both a narrative and metaphoric structure and we can analyse the concepts of metaphors and narratives partly in each other's terms. Further the concept of narratives can partly be analysed in the terms of emotions. And if emotions have both a narrative structure and a metaphoric one then the concept of emotions must to some extent be analysable through the concepts of narratives and metaphors. But there is more. Metaphors, especially poetic ones, are important tools for the understanding of the tacit sides of emotions, perhaps because of the metaphoric structure of emotions. The notion that narrations can be tools for understanding emotions follows from two facts: narrations are devices for explanation and emotions have a narrative structure. Fourthly the threesome has an impact on our rationality. It has become commonplace to say that emotions have a cognitive content that narratives have an explanatory function and that metaphors can perform cognitive functions. This book is the first attempt to articulate the implications that these new ways of seeing the three concepts entail for our concept of reason. The cognitive roles of the threesome suggest a richer notion of rationality than has traditionally been held: a rationality enlivened with metaphoric, narrative and emotive qualities.

*Red Rising and Philosophy* Courtland Lewis, Kevin McCain, 2016-11-10 Red Rising and Philosophy has gathered together a crew of the wisest Helldivers philosophy can offer Could humanity s love of physical enhancements cause its extinction Do people doom humanity by trying to all be the same Can a person love someone while at the same time wanting that person destroyed Is equality always the best principle on which to organize society What is evil and how does it exist in contemporary life Does one remain the same person even after changing every physical aspect of one s body Is it moral to sell oneself into slavery whether it s through sex or manual labor Is it ethical to sell one s children into slavery on the promise that their children will live in peace and tranquility These questions and more are what make Brown s Red Rising

trilogy such an impactful story Brown pulls no punches and philosophy works best in such an environment Red Rising and Philosophy is not for the timid or the faint at heart It s not The Passage since no one will die from reading it but reading it could be a life changing experience     *The Definition of Good (Routledge Revivals)* Alfred Ewing,2013-04-03 First published in Great Britain in 1948 this book examines the definition of goodness as being distinct from the question of What things are good Although less immediately and obviously practical Dr Ewing argues that the former question is more fundamental since it raises the issue of whether ethics is explicable wholly in terms of something else for example human psychology Ewing states in his preface that the definition of goodness needs to be confirmed before one decides on the place value is to occupy in our conception of reality or on the ultimate characteristics which make one action right and another wrong This book discusses these issues     *Philosophy in an Age of Pluralism* Charles Taylor,1994-11-24 This is the first comprehensive evaluation of Charles Taylor s work and a major contribution to the leading questions in philosophy and the human sciences as they face an increasingly pluralistic age Charles Taylor is one of the most influential moral and political philosophers of our time and these essays address topics in his thought ranging over the history of philosophy truth modernity and postmodernity theism interpretation the human sciences liberalism pluralism and difference     **Oxford Studies in Metaethics, Volume 19** Russ Shafer-Landau,2024-03-20 Oxford Studies in Metaethics is the only publication devoted exclusively to original philosophical work in the foundations of ethics It provides an annual selection of much of the best new scholarship being done in the field Its broad purview includes work being done at the intersections of ethical theory with metaphysics epistemology philosophy of language and philosophy of mind The essays included in the series provide an excellent basis for understanding recent developments in the field those who would like to acquaint themselves with the current state of play in metaethics would do well to start here     **The Journal of Philosophy, Psychology and Scientific Methods** ,1920     **The Journal of Philosophy** ,1928 Covers topics in philosophy psychology and scientific methods Vols 31 include A Bibliography of philosophy 1933     **On What Matters** Derek Parfit,2013-07-11 This is the second volume of a major new work in moral philosophy It starts with critiques of Derek Parfit s work by four eminent moral philosophers and his responses The largest part of the volume is a self contained monograph on normativity The final part comprises seven new essays on Kant reasons and why the universe exists
