

Nature

I am a human,
I'm tired from cities,
I am going to nature,
to find peace.

Long and Shady trees,
and that cool Breeze,
made me relax and calm,
and found tree of palm.

The plain ground,
with flora and fauna,
and silence all over the area,
made me feel peace.

The clouds were as light as air,
And blew with the wind,
And the sun set,
Was the day's end

Bond, 2017-08-29 If a tortoise could run And losses be won And bullies be buttered on toast If a song brought a shower And a gun grew a flower This world would be nicer than most Beautiful poignant and funny Ruskin Bond's verses for children are a joy to read to yourself on a lazy summer afternoon or to recite in school among friends For the first time his poems for children old and new come together in this illustrated volume Nature love friends school books all find a place in the poetry of India's favourite children's writer *Sweet nature, and other poems, with illustrations, selected by R.E. Mack* Robert Ellice Mack, 1888 Nature-poems and Others Thomas Edwards, 1893 *Scenes and sketches from life and nature; Edgbaston; and other poems* Thomas Ragg, 1847 **On the Enjoyment of Nature: With Other Writings on Nature** Hermann Hesse, This collection gathers Hermann Hesse's evocative writings on the beauty and inspiration of the natural world showcasing his deep appreciation for its serenity and splendor Together these works reveal Hesse's developing environmental consciousness and his belief that genuine engagement with nature could serve as a counterbalance to modern alienation ideas that would continue to resonate throughout his literary journey and remain remarkably relevant to contemporary readers The centerpiece *On the Enjoyment of Nature* Vom Naturgenu 1908 captures Hesse's meditations on the joy and solace found in nature's embrace Central to Hesse's essay is the call for a multisensory immersive communion with nature He emphasizes that true connection transcends visual beauty engaging smell linden blossoms saltwater sound birdsong wind and somatic sensations sultriness atmospheric electricity These sensory experiences often overlooked directly shape mood and creativity as seen in poets like M. Rike and Storm Yet Hesse insists even language and art fail to capture nature's full complexity urging readers to abandon judgment and instead absorb nature's strength spirit meaning through unfiltered presence Hesse frames nature as a gateway to existential harmony He critiques travelers who fetishize novelty or cling to comfort zones advocating instead for adaptability and a brotherhood with sun and earth True nature enjoyment he posits dissolves egocentric perspectives fostering kinship with all life Specialization whether in art science or profession is denounced as impoverishing while openness to nature's totality enriches the soul loosening the chains of modern one-sidedness Written amid industrialization's rise the essay champions nature as a counterbalance to urban alienation urging readers to reclaim their primal multisensory bond with the world a theme echoing Hesse's later explorations of spirituality and self transcendence Written during a pivotal period in his development as an artist these reflections demonstrate how natural settings served as both sanctuary and muse for Hesse Through lyrical prose that blends romantic sensibility with philosophical inquiry he examines how communion with nature offers pathways to self understanding and inner harmony themes that would reach their fullest expression in later masterworks like *Siddhartha* This edition includes three additional nature writings that complement the main text *Septembermorgen am Bodensee* September Morning on Bodensee 1905 a luminous meditation on autumn light reflecting across Lake Constance *Winterglanz* Winter Radiance 1905 an evocative portrait of winter's austere beauty and its invitation to introspection *At the Gotthard* Am Gotthard 1905 This lyrical narrative

recounts Hesse's winter journey to the Gotthard Pass. At the Gotthard juxtaposes the sensory overload of Zurich's urban life filled with art socializing and luxury with the stark rejuvenating clarity of the Alps. Hesse's encounter with a golden eagle, a recurring symbol of beauty, crystallizes his longing for spiritual fulfillment through nature. The essay's detailed imagery of frozen waterfalls, moonlit glaciers, and sunlit snowfields evokes a meditative awe, emphasizing nature's capacity to restore meaning amid life's weariness. By framing the journey as both a physical trek and a metaphysical quest, Hesse elevates the Alps into a metaphor for inner pilgrimage, where fleeting moments of natural splendor, like the eagle's flight or the silent starry night, become timeless anchors against existential disillusionment. This new edition features a fresh contemporary translation of Hesse's early work, making his philosophical existentialist literature accessible to modern readers from the original Fraktur manuscripts. Enhanced by an illuminating Afterword focused on Hesse's personal and intellectual relationship with Carl Jung, a concise biography, a glossary of essential philosophical terms integral to his writings, his version of Jungian Psychological concepts, and a detailed chronology of his life and major works, this robust edition introduces the reader to the brilliance of his literature in context. It not only captures the depth and nuance of Hesse's thought but also highlights its enduring impact on the debates of the mid-20th century contemporary culture and Western Philosophy across the 20th and into the 21st century.

Nature Poems, and Some Others James Brown Borland, 1933 Literature of Nature Patrick D. Murphy, Terry Gifford, Katsunori Yamazato, 1998 First Published in 1999 Routledge is an imprint of Taylor Francis, an informal company. *The Divine Will and Other Poems* Yogesh Singh Mohan, From times immemorial poetry has been an outlet of emotions, impulses, and ideas in innovative styles. As far as my association with poetry goes, I would say that writing poems suits me as I always intend to speak less and often in rhythms of my thoughts. The moment the rhythm breaks, the poem ends. As far as I can understand it, there's no specific theory to my writing of poetry. The poems I wrote have a diverse range of subjects and are mostly written in different states of mind.

The Blazing World and Other Writings Margaret Cavendish, 2025-06-05 I had rather die in the adventure of noble achievements than live in obscure and sluggish security. One of the most diverse, prolific, and maverick intellectuals of her time, Margaret Cavendish is known for critiquing a wide range of early modern cultural and philosophical beliefs. While she was the first British woman to publish several philosophical treatises, she was also profoundly interested in literature and writing in nearly every available genre. Indeed, with her wide-ranging complex and often unorthodox ideas, she was a pioneer of what today would be referred to as science fiction. In this edition, Lisa Walters brings together well-known and popular works such as *The Blazing World* alongside lesser-known poems and prose pieces like *The Ambitious Traitor* and *The Unnatural Tragedy*. The introduction discusses the wide-ranging concepts that appear in the writings, from gender and cross-dressing to science and the nature of the universe, and provides a fresh insight on Cavendish's proclivity for literary experimentation and innovation.
