An Affair with Mother Nature JWTrout,2017-05-26 The following six pieces are just but a few of the events that have been witnessed while on the river fishing The Netting of a Trout was an experience my cousin Ed and I enjoyed together in our early attempts at trout fishing It is a short piece that connects to trout behavior Ausable River Monster is a piece that has not been forgotten The trout behavior in this was surprising and lasted only seconds And left the writer stunned that he was able to witness the event plus having a fellow fly fisher actually catch the monster a few days later The Exceptional Take is about adequate food a feeding trout cautious casting and line handling precise fly presentation the trouts take of the fly setting the hook and playing the trout Rain Drop Rises is about mistaking a rise of a trout to a mayfly for drops of water making a watery disturbance on the river surface It is a lesson on observation studying the water recognizing the hatching of mayflies and the patient waiting to be sure of the feeding trouts location and placement of the correct fly pattern to the trouts feeding lane The piece Break Off the Final Jump is another piece about trouts behavior While many fishermen may have encountered the same experience not all of them have connected to the reason why the final jump happened The Pacific Salmon Altercation is about a piece experienced on the Salmon River that was totally unbelievable to the writer when it occurred While the event has been told to many friends it is not sure how many really believed that it happened
