Ward,2014-07-15 Growth of interest in the periodical literature of the past has emphasized increasingly the need for specialized hand lists a need which the American Union List of Serials the British Union Catalogue of the Periodical Publications in the University Libraries of the British Isles and other existing indexes cannot answer To satisfy one area of this need William S Ward has compiled a near definitive index and finding list of periodicals and

newspapers of the English Romantic period In it are reflected the holdings of almost eleven hundred American Canadian and British libraries and newspaper offices The volume is also the first to list titles and library locations of all the newspapers magazines and other serials published in the British Isles during the years between the French Revolution and the Great Reform Bill     Devices of Curiosity Oliver Gaycken,2015-05-01 Devices of Curiosity excavates a largely unknown genre of early cinema the popular science film Primarily a work of cinema history it also draws on the insights of the history of science Beginning around 1903 a variety of producers made films about scientific topics for general audiences inspired by a vision of cinema as an educational medium This book traces the development of popular science films over the first half of the silent era from its beginnings in England to its flourishing in France around 1910 Devices of Curiosity also considers how popular science films exemplify the circulation of knowledge These films initially relied upon previous traditions such as the magic lantern lecture for their representational strategies and they continually had recourse to established visual iconography but they also created novel visual paradigms and led to the creation of ambitious new film collections Finally the book discerns a transit between nonfictional and fictional modes seeing affinities between popular science films and certain aspects of fiction films particularly Louis Feuillade s crime melodramas This kind of circulation is important for an understanding of the wider relevance of early popular science films which impacted the formation of the documentary educational and avant garde cinemas     **The Literary churchman** ,1880     **Current Catalog** National Library of Medicine (U.S.),1968 Includes subject section name section and 1968 1970 technical reports     **The Athenaeum** ,1876     **Young Oologist** ,1889
