Nautical Quarterly ,1988      Ottoman Women Builders Lucienne Thys-Senocak,2017-03-02 Examined here is the historical figure and architectural patronage of Hadice Turhan Sultan the young mother of the Ottoman Sultan Mehmed IV who for most of the latter half of the seventeenth century shaped the political and cultural agenda of the Ottoman court Captured in Russia at the age of twelve she first served the reigning sultan's mother in Istanbul She gradually rose through the ranks of the Ottoman harem bore a male child to Sultan Ibrahim and came to power as a valide sultan or queen mother in 1648 It was through her generous patronage of architectural works including a large mosque a tomb a market complex in the city of Istanbul and two fortresses at the entrance to the Dardanelles that she legitimated her new political authority as a valide and then attempted to support that of her son Central to this narrative is the question of how architecture was used by an imperial woman of the Ottoman court who because of customary and religious restrictions was unable to present her physical self before her subjects gaze In lieu of displaying an iconic image of herself as Queen Elizabeth and Catherine de Medici were able to do Turhan Sultan expressed her political authority and religious piety through the works of architecture she commissioned Traditionally historians have portrayed the role of seventeenth century royal Ottoman women in the politics of the empire as negative and destabilizing But Thys Senocak through her examination of these architectural works as concrete expressions of legitimate power and piety shows the traditional framework to be both sexist and based on an outdated paradigm of decline Thys Senocak's research on Hadice Turhan Sultan's two Ottoman fortresses of Sedd lbahir and Kumkale improves in a significant way our understanding of early modern fortifications in the eastern Mediterranean region and will spark further research on many of the Ottoman fortifications built in the area Plans and elevations of the fortresses are published and analysed here for the first time Based on archival research including letters written by the queen mother many of which are published here for the first time and archaeological fieldwork her work is also informed by recent theoretical debates in the fields of art history cultural history and gender studies      Slavery in the South Clayton E. Jewett,John O. Allen,2004-02-28 Slavery in the United States is once again a topic of contention as politicians and interest groups argue about and explore the possibility of reparations The subject is clearly not exhausted and a state by state approach fills a critical reference niche This book is the first comparative summary of the southern slave states from Colonial times to Reconstruction The history of slavery in each state is a story based on the unique events in that jurisdiction and is a chronicle of the relationships and interactions between its blacks and whites Each state chapter explores the genesis growth and economics of slavery the life of free and enslaved blacks the legal codes that defined the institution and affected both whites and blacks the black experience during the Civil War and the freedmen's struggle during Emancipation and Reconstruction The commonalities and differences can be seen from state to state and students and other interested readers will find fascinating accounts from ex slaves that flesh out the fuller picture of slavery state and country wide Included are

timelines per state photos numerous tables for comparison and appendixes on the numbers of slaveholders by state in 1860 dates of admission secession and readmission and economic statistics A bibliography and index complete the volume **The Thoreau Society Bulletin** Thoreau Society,1983 National Trade and Professional Associations of the United States, 1984 Craig Colgate,1984 Lone Star Blue and Gray Ralph Wooster,Robert Wooster,2015-04-21 From the bitter disputes over secession to the ways in which the conflict would be remembered Texas and Texans were caught up in the momentous struggles of the American Civil War Tens of thousands of Texans joined military units and scarcely a household in the state was unaffected as mothers and wives assumed new roles in managing farms and plantations Still others grappled with the massive social political and economic changes wrought by the bloodiest conflict in American history The sixteen essays eleven of them new from some of the leading historians in the field in the second edition of Lone Star Blue and Gray illustrate the rich traditions and continuing vitality of Texas Civil War scholarship Along with these articles editors Ralph A and Robert Wooster provide a succinct introduction to the war and Texas and recommended readings for those seeking further investigations of virtually every aspect of the war as experienced in the Lone Star State **Monthly Catalog of United States Government Publications** ,1984 **Air University Quarterly Review** ,1985 **The CSS Arkansas** Myron J. Smith, Jr.,2014-01-10 While the Monitor and Merrimack are the most famous of the Civil War ironclads the Confederacy had another ship in its flotilla that carried high hopes and a metal hull The makeshift CSS Arkansas completed by Lt Isaac Newton Brown and manned by a mixed crew of volunteers gave the South a surge of confidence when it launched in 1862 For 28 days of summer the ship engaged in five battles with Union warships falling victim in the end only to her own primitive engines The saga of the CSS Arkansas represents the last significant Rebel naval activity in the war s Western theater *Ancient Ocean Crossings* Stephen C. Jett,2017-06-06 Paints a compelling picture of impressive pre Columbian cultures and Old World civilizations that contrary to many prevailing notions were not isolated from one another In *Ancient Ocean Crossings* Reconsidering the Case for Contacts with the Pre Columbian Americas Stephen Jett encourages readers to reevaluate the common belief that there was no significant interchange between the chiefdoms and civilizations of Eurasia and Africa and peoples who occupied the alleged terra incognita beyond the great oceans More than a hundred centuries separate the time that Ice Age hunters are conventionally thought to have crossed a land bridge from Asia into North America and the arrival of Columbus in the Bahamas in 1492 Traditional belief has long held that earth s two hemispheres were essentially cut off from one another as a result of the post Pleistocene meltwater fed rising oceans that covered that bridge The oceans along with arctic climates and daunting terrestrial distances formed impermeable barriers to interhemispheric communication This viewpoint implies that the cultures of the Old World and those of the Americas developed independently Drawing on abundant and concrete evidence to support his theory for significant pre Columbian contacts Jett suggests that many ancient peoples had both the seafaring capabilities and the motives to cross the oceans and

in fact did so repeatedly and with great impact His deep and broad work synthesizes information and ideas from archaeology geography linguistics climatology oceanography ethnobotany genetics medicine and the history of navigation and seafaring making an innovative and persuasive multidisciplinary case for a new understanding of human societies and their diffuse but interconnected development     *A Companion to American Military History* James C. Bradford, 2009-11-03 With more than 60 essays *A Companion to American Military History* presents a comprehensive analysis of the historiography of United States military history from the colonial era to the present Covers the entire spectrum of US history from the Indian and imperial conflicts of the seventeenth century to the battles in Afghanistan and Iraq Features an unprecedented breadth of coverage from eminent military historians and emerging scholars including little studied topics such as the military and music military ethics care of the dead and sports Surveys and evaluates the best scholarship on every important area and topic Summarizes current debates and identifies areas where conflicting interpretations are in need of further study     *The Coevolution Quarterly* , 1984     *National Ocean Service Product Information Guide* , 1984     **The Philosophy of Shipbuilding** Frederick M. Hocker, Cheryl A. Ward, 2004 12 expert nautical archaeologists present the latest information from excavations and explore the conceptual basis for shipbuilding traditions     *Cruising World* , 1982-01     **Government of Canada Publications, Quarterly Catalogue** , 1979     *Great Plains Quarterly* , 1984     **Print Quarterly** , 1984     *National Trade and Professional Associations of the U.
