Navaho weaving Charles Avery Amsden,1934 Navajo Weaving its teaching and its history *Navaho Weaving, Its Technic and History ; Foreword by Frederick Webb Hodge* Charles Avery Amsden,1949 A New Deal for Navajo Weaving Jennifer McLerran,2022-05-10 A New Deal for Navajo Weaving provides a detailed history of early to mid twentieth century Din weaving projects by non Natives who sought to improve the quality and marketability of Navajo weaving but in so doing failed to understand the cultural significance of weaving and its role in the lives of Din women By the 1920s the durability and market value of Din weavings had declined dramatically Indian welfare advocates established projects aimed at improving the materials and techniques Private efforts served as models for federal programs instituted by New Deal administrators Historian Jennifer McLerran details how federal officials developed programs such as the Southwest Range and Sheep Breeding Laboratory at Fort Wingate in New Mexico and the Navajo Arts and Crafts Guild Other federal efforts included the publication of Native natural dye recipes the publication of portfolios of weaving designs to guide artisans and the education of consumers through the exhibition of weavings aiding them in their purchases and cultivating an upscale market McLerran details how government officials sought to use these programs to bring the Din into the national economy instead these federal tactics were ineffective because they marginalized Navajo women and ignored the important role weaving plays in the resilience and endurance of wider Din culture **The Book of Looms** Eric Broudy,2021-09-29 A heavily illustrated classic on the evolution of the handloom The handloom often no more than a bundle of sticks and a few lengths of cordage has been known to almost all cultures for thousands of years Eric Broudy places the wide variety of handlooms in their historical context What influenced their development How did they travel from one geographic area to another Were they invented independently by different cultures How have modern cultures improved on ancient weaving

skills and methods Broudy shows how virtually every culture has woven on handlooms He highlights the incredible technical achievement of early cultures that created magnificent textiles with the crudest of tools and demonstrates that modern technology has done nothing to surpass their skill or inventiveness Indian Handcrafts United States. Bureau of Indian Affairs, **Pueblo Crafts** Ruth Underhill, 1945 Blanket Weaving in the Southwest Joe Ben Wheat, 2022-06-21 Exquisite blankets sarapes and ponchos handwoven by southwestern peoples are admired throughout the world Despite many popularized accounts serious gaps have existed in our understanding of these textiles gaps that one man devoted years of scholarly attention to address During much of his career anthropologist Joe Ben Wheat 1916 1997 earned a reputation as a preeminent authority on southwestern and plains prehistory Beginning in 1972 he turned his scientific methods and considerable talents to historical questions as well He visited dozens of museums to study thousands of nineteenth century textiles oversaw chemical tests of dyes from hundreds of yarns and sought out obscure archives to research the material and documentary basis for textile development His goal was to establish a key for southwestern textile identification based on the traits that distinguish the Pueblo Navajo and Spanish American blanket weaving traditions and thereby provide a better way of identifying and dating pieces of unknown origin Wheat's years of research resulted in a masterful classification scheme for southwestern textiles and a book that establishes an essential baseline for understanding craft production Nearly completed before Wheat's death Blanket Weaving in the Southwest describes the evolution of southwestern textiles from the early historic period to the late nineteenth century establishes a revised chronology for its development and traces significant changes in materials techniques and designs Wheat first relates what Spanish observers learned about the state of native weaving in the region a historical review that reveals the impact of new technologies and economies on a traditional craft Subsequent chapters deal with fibers yarns dyes and fabric structures including an unprecedented examination of the nature variety and origins of bayeta yarns and with tools weaves and finishing techniques A final chapter constructed by editor Ann Hedlund from Wheat's notes provides clues to his evolving ideas about the development of textile design Hedlund herself a respected textile scholar and a protégé of Wheat's is uniquely qualified to interpret the many notes he left behind and brings her own understanding of weaving to every facet of the text She has ensured that Wheat's research is applicable to the needs of scholars collectors and general readers alike Throughout the text Wheat discusses and evaluates the distinct traits of the three textile traditions More than 200 photos demonstrate these features including 191 color plates depicting a vast array of chief blankets shoulder blankets ponchos sarapes diyugi mantas and dresses from museum collections nationwide In addition dozens of line drawings demonstrate the fine points of technique concerning weaves edge finishes and corner tassels Through his groundbreaking and painstaking research Wheat created a new view of southwestern textile history that goes beyond any other book on the subject Blanket Weaving in the Southwest addresses a host of unresolved issues in textile research and provides critical tools for resolving them It is an essential resource for anyone who appreciates the intricacy of

these outstanding creations *Navajo Lifeways* Maureen Trudelle Schwarz,2001 I think what is always really amazing to me is that Navajo are never amazed by anything that happens Because it is like in a lot of our stories they are already there Sunny Dooley Navajo Storyteller During the final decade of the twentieth century Navajo people had to confront a number of challenges from unexplained illness the effects of uranium mining and problem drinking to threats to their land rights and spirituality Yet no matter how alarming these issues Navajo people made sense of them by drawing guidance from what they regarded as their charter for life their origin stories Through extensive interviews Maureen Trudelle Schwarz allows Navajo to speak for themselves on the ways they find to respond to crises and chronic issues In capturing what Navajo say and think about themselves Schwarz presents this southwestern people s perceptions values and sense of place in the world *Diné* Peter Iverson,2002-08-28 This comprehensive narrative traces the history of the Navajos from their origins to the beginning of the twenty first century Based on extensive archival research traditional accounts interviews historic and contemporary photographs and firsthand observation it provides a detailed up to date portrait of the Din past and present that will be essential for scholars students and interested general readers both Navajo and non Navajo As Iverson points out Navajo identity is rooted in the land bordered by the four sacred mountains At the same time the Navajos have always incorporated new elements new peoples and new ways of doing things The author explains how the Din remember past promises recall past sacrifices and continue to build upon past achievements to construct and sustain North America s largest native community Provided is a concise and provocative analysis of Navajo origins and their relations with the Spanish with other Indian communities and with the first Anglo Americans in the Southwest Following an insightful account of the traumatic Long Walk era and of key developments following the return from exile at Fort Sumner the author considers the major themes and events of the twentieth century including political leadership livestock reduction the Code Talkers schools health care government economic development the arts and athletics Monty Roessel Navajo an outstanding photographer is Executive Director of the Rough Rock Community School He has written and provided photographs for award winning books for young people Traders, Agents, and Weavers Robert S. McPherson,2020-03-12 For travelers passing through northern Navajo country the desert landscape appears desolate The few remaining Navajo trading posts once famous for their bustling commerce seem unimpressive Yet a closer look at the economic and creative activity in this region which straddles northeastern Arizona northwestern New Mexico and southeastern Utah belies a far more interesting picture In *Traders Agents and Weavers* Robert S McPherson unveils the fascinating and at times surprising history of the merging of cultures and artistic innovation across this land McPherson the author of numerous books on Navajo and southwestern history narrates here the story of Navajo economic and cultural development through the testimonies of traders government agents tribal leaders and accomplished weavers For the first half of the twentieth century trading posts dominated the Navajo economy in northwestern New Mexico McPherson highlights the Two Grey Hills post and its sister posts Toadlena and

Newcomb which encouraged excellence among weavers and sold high quality rugs and blankets Parallel to the success of the trading industry was the establishment of the Northern Navajo or Shiprock Agency and Boarding School The author explains the pivotal influence on the area of the agency's stern and controversial founder William T Shelton known by Navajos as Tall Leader Through cooperation with government agents American settlers and traders Navajo weavers not only succeeded financially but also developed their own artistic crafts Shunning the use of brightly dyed yarn and opting for the natural colors of sheep's wool these weavers primarily women developed an intricate style that has few rivals Eventually economic shifts including oil drilling and livestock reduction eroded the traditional Navajo way of life and led to the collapse of the trading post system Nonetheless as McPherson emphasizes Navajo weavers have maintained their distinctive style and method of production to this day

The Desert is No Lady Vera Norwood, Janice J. Monk, 1997 Over the past century women artists and writers have expressed diverse creative responses to the landscape of the Southwest The Desert Is No Lady provides a cross cultural perspective on women by examining Anglo Hispanic and Native American women's artistic expressions and the effect of their art in defining the southwestern landscape The Desert Is No Lady has been made into a motion picture of the same title by Women Make movies New York NY A beautifully crafted book Although it varies in intensity the response of women to the environment is virtually always different from the male frontiersman's view of the land as inanimate boundless conquerable and controllable Polly Wells Kaufman in Women's Review of Books A powerful masterpiece Eve Gruntfest in The Professional Geographer

Thomas Varker Keam Laura Graves, 2016-11-18 Thomas Varker Keam owned and operated a trading post in Keams Canyon Arizona Territory from 1874 to 1902 He was the first trader to develop American Indian arts and crafts as part of his business and the first to suggest that Native artists modify their techniques to increase sales Keam had a major impact on the evolution of Hopi pottery Involved in early archaeological work in the Southwest Keam was the first trader to develop lucrative contacts with museum curators and anthropologists He sold enormous collections to the Smithsonian Institution the Field Museum and the Peabody Museum as well as several European institutions An advocate for the Indians Keam represented the Hopis and Navajos in confrontations with the U S government over civilizing programs between 1869 and 1902 when the Indians tried to maintain their political and cultural independence Thomas Varker Keam revised Indian trading so that he and American Indian artists profited
