The theory and practice of imitation has long been central to the construction of art and yet imitation is still frequently confused with copying. Theorizing Imitation in the Visual Arts challenges this prejudice by revealing the ubiquity of the practice across cultures and geographical borders. This fascinating collection of original essays has been compiled by a group of leading scholars. Challenges the prejudice of imitation in art by bringing to bear a perspective that reveals the ubiquity of the practice of imitation across cultural and geographical borders. Brings light to a broad range of areas some of which have been little researched in the past. *American Indian Art* Beverly Gordon, Melanie Herzog, 1988. A fascinating and novel exploration of the transformative role played by the American West in the development of modernism in the United States. Drawing extensively from various disciplines including ethnology, geography, geology and environmental studies, this groundbreaking book addresses shifting concepts of time, history and landscape in relation to the work of pioneering American artists during the first half of the 20th century. Paintings, watercolors and photographs by renowned artists such as Frederic Remington, Georgia O'Keeffe, Ansel Adams, Thomas Hart Benton, Dorothea Lange and Jackson Pollock are considered alongside American Indian ledger drawings, temperas and Diné sandpaintings. Taken together, these works document the quest to create a specifically American art in the decades prior to World War II. The Modern West begins with a captivating meditation on the relationship between human culture and the physical landscape by Barry Lopez, who traveled the West in the artist's footsteps. Emily Ballew Neff then describes the evolving importance of the West for American artists working out a radically new aesthetic response to space and place from artist-explorers on the turn of the century frontier to visionaries of a Californian arcadia to desert luminaries who found in its stark topography a natural equivalent to abstraction. Beautifully illustrated and handsomely designed, this book is essential to anyone interested in the West and the history of modernism in American art. *Unpacking Culture* Ruth B. Phillips, Christopher B. Steiner, 1999-01-30. Tourist art production is a global phenomenon and is increasingly recognized as an important and authentic expression of indigenous visual traditions.
