Environmentally sustainable tourism or ecotourism has become a major area of interest for governments the private sector
and international lending institutions It is regarded as a way of allowing economic development whilst protecting against
environmental degradation especially in those countries with fragile ecosystems However despite the beneficial intentions of
ecotourism it tends to be regarded uncritically by environmental organizations governments and the private sector alike
Rosaleen Duffy presents this analysis of ecotourism linking it with environmental ideologies and the politics of North South
relations By the extensive use of case study and interview material she formulates ideas and proposals that should be
important for the development of ecotourism around the globe Hunter-trader-trapper ,1927
