## Od Magic:

**Od Magic** Patricia A. McKillip, 2005-06-07 Brenden Vetch has a gift With an innate sense he cannot explain to himself or describe to others he connects to the agricultural world nurturing gardens to flourish and instinctively knowing the healing properties each plant and herb has to offer But Brenden s gift isolates him from people and from becoming part of a community Until the day he receives a personal invitation from the wizard Od She needs a gardener for her school in the great city of Kelior where every potential wizard must be trained to serve the Kingdom of Numis For decades the rulers of Numis have controlled the school believing they can contain the power within it and punish any wizard who dares defy the law But unknown to the reigning monarchy is the power possessed by the school s new gardener a power that even Brenden isn t fully aware of and which is the true reason Od recruited him *Magic and Ritual in Tibet* Stephan Beyer, 2013-01-01 The real history of man is the history of religion The truth of the famous dictum of Max Muller the father of the History of Religions is nowhere so obvious as in Tibet Western students have observed that religion and magic pervade not only the forms of Tibetan art politics and society but also every detail of ordinary human existence And what is the all pervading religion of Tibet Buddhism of that country has been described to us of course but that does not mean the question has been answered The unique importance of Stephan Beyer s work is that it presents the vital material ignored or slighted by others the living ritual of Tibetan Buddhists The reader is made a witness to cultic proceedings through which the author guides him carefully He does not force one to accept easy explanations nor does he direct one s attention only to aspects that can be counted on to please He leads one step by step without omitting anything through entire rituals and interprets whenever necessary without being unduly obtrusive Oftentimes as in the case of the many hymns to the goddess Tara the superb translations speak directly to the reader and it is indeed as if the reader himself were present at the ritual *Magic in Apuleius' >Apologia<* Leonardo Costantini, 2019-01-14 Despite the growing interest in Apuleius Apologia or Pro se de magia a speech he delivered in AD 158 159 to defend himself against the charge of being a magus the only comprehensive study on this speech and magic to date is that by Adam Abt 1908 The aim of this volume is to shed new light on the extent to which Apuleius speech reveals his own knowledge of magic and on the implications of the dangerous allegations brought against Apuleius By analysing the Apologia sequentially the author does not only reassess Abt s analysis but proposes a new reconstruction of the prosecution s case arguing that it is heavily distorted by Apuleius Since ancient magic is the main topic of this speech an extensive discussion of the topic is provided offering a new semantic taxonomy of magus and its cognates Finally this volume also explores Apuleius forensic techniques and the Platonic ideology underpinning his speech It is proposed that a Platonising reasoning distinguishing between higher and lower concepts lies at the core of Apuleius rhetorical strategy and that Apuleius aims to charm the judge the audience and ultimately his readers with the irresistible power of his arguments *The American Theosophist* , 1912 *The Theosophist* , 1899 *Transcendental Magic* Eliphas

Levi,1968-01-15 This is Eliphas Levi's 1810-1875 best known book. This work arguably made Levi THE most influential writer on magic since the Renaissance. Originally issued in French, the English translator is A. E. Waite, and it is doubtful that anyone else could have better captured the essence of Levi's work. The book is divided into two parts: the first is theoretical, the second practical. This is a fascinating and often debated work involving a discussion that covers almost the entire realm of Ritual and High Magic.

**The Scent of Ancient Magic** Britta K. Ager,2022-04-27 Magic was a fundamental part of the Greco-Roman world. Curses, erotic spells, healing charms, divination, and other supernatural methods of trying to change the universe were everyday methods of coping with the difficulties of life in antiquity. While ancient magic is most often studied through texts like surviving Greco-Egyptian spellbooks and artifacts like lead curse tablets, for a Greek or Roman magician, a ritual was a rich sensual experience full of unusual tastes, smells, textures, and sounds, bright colors, and sensations like fasting and sleeplessness. Greco-Roman magical rituals were particularly dominated by the sense of smell, both fragrant smells and foul odors. Ritual practitioners surrounded themselves with clouds of fragrant incense and perfume to create a sweet and inviting atmosphere for contact with the divine, and to alter their own perceptions, they also used odors as an instrumental weapon to attack enemies and command the gods. Elsewhere, odiferous herbs were used equally as medical cures and magical ingredients. In literature, scent and magic became intertwined as metaphors, with fragrant spells representing the dangers of sensual perfumes and conversely, smells acting as a visceral way of envisioning the mysterious action of magic. *The Scent of Ancient Magic* explores the complex interconnection of scent and magic in the Greco-Roman world between 800 BCE and CE 600, drawing on ancient literature and the modern study of the senses to examine the sensory depth and richness of ancient magic. Author Britta K. Ager looks at how ancient magicians used scents as part of their spells to put themselves in the right mindset for an encounter with a god or to attack their enemies through scent. Ager also examines the magicians who appear in ancient fiction like Medea and Circe and the more metaphorical ways in which their spells are confused with perfumes and herbs. This book brings together recent scholarship on ancient magic from classical studies and on scent from the interdisciplinary field of sensory studies in order to examine how practicing ancient magicians used scents for ritual purposes, how scent and magic were conceptually related in ancient literature and culture, and how the assumption that strong scents convey powerful effects of various sorts was also found in related areas like ancient medical practices and normative religious ritual.

**Paideia at Play** Werner Riess,2008 Paideia, the yearning for and display of knowledge, reached its height as a cultural concept in the works of the Second Sophistic, an elite literary and philosophical movement seeking to ape the style and achievements of the 5th and 4th centuries BC. A crucial element in the display of paideia was an ability to mix the witty and playful with the serious and instructive. The Second Sophistic is known as a Greek phenomenon, but these essays ask how the Latin author Apuleius fitted into this framework and created a distinctively Latin expression of paideia focusing on the elements of playfulness at its heart.
