grooves this encyclopedic book and two CD set contains more than 450 musical examples in standard notation showing grooves and practical variations. Overviews of the history and development of almost all popular music styles are covered alongside innumerable helpful performance tips. The two accompanying CDs feature performances of nearly 200 of the grooves including every primary style example all performed both with and without a click track. Styles covered include blues, rock, jazz, reggae, country, klezmer, ska, samba, punk, surf, heavy metal, latin, rock and funk. Virtually every style a performing drummer will ever need to play is in there. This revised second edition also includes an updated bibliography and discography as well as more historical information about the individual styles. *What Are the Odds* Sebastian Simsa, 2021-09-20

Odd Meter Playalongs zum Downloaden *Bass Guitar For Dummies* Patrick Pfeiffer, 2020-07-21. Way more than just the bass ics. Whatever you're playing funk, soul, rock, blues, country, the bass is the heart of the band. Bassists provide a crucial part of driving force and funky framework that other members of any band work off from. From John Paul Jones of Led Zeppelin to The Pixies' Kim Deal to James Brown's favored bassist Jimmy Nolan, bass players have made big names for themselves and commanded respect throughout music history. In *Bass Guitar For Dummies*, Patrick Pfeiffer, who coached U2's Adam Clayton among others, is your friendly guide to laying down the low end. Starting from the beginning with what bass and accessories to buy, the book shows you everything from how to hold and position your instrument to how to read music and understand chords. You'll develop your skills step by step until you're confident playing your own solos and fills. Sharpen skills with instructional audio and video. Discipline your play with exercises. Understand chords, scales, and octaves. Care for your instrument. Whether you're new to the bass or already well into the groove, *Bass Guitar For Dummies* gives you the thorough balance of theory and practice that distinguishes the titanic Hall of Famer from the just-so-so P.S. If you think this book seems familiar, you're probably right. The Dummies team updated the cover and design to give the book a fresh feel, but the content is the same as the previous release of *Bass Guitar For Dummies*. 9781118748800. Sting and The Police Aaron J West, 2023-06-14. An excellent look at how the Police accomplished success. West is especially good at examining how the band used the nascent MTV to define themselves. *Publishers Weekly*. During the 1980s, The Police were one of the biggest bands in the world. Yet after only five albums and at the peak of their popularity, they disbanded, and Sting began a solo career that made him a global pop star. Today, artists from Puff Daddy to Gwen Stefani credit The Police and Sting as major influences on their own work. In this book, Aaron J West explores the cultural and musical impact of Stewart Copeland, Andy Summers, and Sting. West details the distinctive hybrid character of The Police's musical output, which would also characterize Sting's post-Police career. Sting's long-lived solo career embodies the power of the artful appropriation of musical styles while capitalizing on the modern realities of pop.
