Wager, 2017-03-21 Film noir showcased hard-boiled men and dangerous femmes fatales rain-slicked city streets, pools of inky darkness cut by shards of light, and occasionally jazz. Jazz served as a shorthand for the seduction and risks of the mean streets in early film noir. As working jazz musicians began to compose the scores for and appear in noir films of the 1950s, black musicians found a unique way of asserting their right to participate fully in American life. Jazz and Cocktails explores the use of jazz in film noir from its early function as a signifier of danger, sexuality, and otherness to the complex role it plays in film scores in which jazz invites the spectator into the narrative while simultaneously transcending the film and reminding viewers of the world outside the movie theater. Jans B. Wager looks at the work of jazz composers such as Miles Davis, Duke Ellington, and Billy Strayhorn, Chico Hamilton, and John Lewis, as she analyzes films including *Sweet Smell of Success*, *Elevator to the Gallows*, *Anatomy of a Murder*, *Odds Against Tomorrow*, and considers the *neonoir* *American Hustle*. Wager demonstrates how the evolving role of jazz in film noir reflected cultural changes instigated by black social activism during and after World War II and altered Hollywood representations of race and music. **John Lewis and the Challenge of**

"Real" Black Music Christopher Coady, 2016-10-04 The first scholarly study of John Lewis and the Third Stream music of the Modern Jazz Quartet. **The Films of Robert Wise** Richard C. Keenan, 2007-08-22 From his early days as a film editor at RKO studios where he helped Orson Welles shape *Citizen Kane* to his success as a director and producer of musical blockbusters of the 1960s, Robert Wise had a long and illustrious film career. Unlike contemporaries such as Alfred Hitchcock, John Ford, or Howard Hawks, however, Wise's films lack any clearly discernible characteristics to signify his work. There are few striking camera angles or visual flourishes that might distract from the primary obligation to present the story. And like Hawks, Wise never specialized in one or two genres but brought his directing skills to all manner of films. His work as a director resists auteur categorization, and that is a chief reason why some critics have been unduly negative in their consideration of his work. In *The Films of Robert Wise*, Richard Keenan examines the nearly forty features that represent the

director's career from *Curse of the Cat People* in 1944 to *A Storm in Summer* 2001 the only television production Wise ever directed Keenan offers a reappraisal of Wise's films so that the true quality of his work can be better appreciated Keenan argues that if there was a flaw in Robert Wise as a director it was that he lacked the ego and temperament of the artist which was not necessarily a flaw at all Indeed Wise was a conscientious craftsman who saw his work not primarily as a vehicle for his own ideas and visual style but as an opportunity to present narrative that quite simply engages informs and entertains It was this perspective that helped produce a number of memorable films over the years including the gritty noir *Born to Kill* the one two punch of *The Set Up* and *Somebody Up There Likes Me* the sci fi prophecy *The Day the Earth Stood Still* and the gripping indictment of capital punishment *I Want to Live* classics all Wise also won a pair of Oscars for two of the most memorable not to mention successful musicals of all time *West Side Story* and *The Sound of Music* Drawing on more than 30 hours of interviews with Wise as well as additional interviews with a number of his collaborators Keenan offers a welcome reassessment of the director's work In his analysis of each film Keenan reveals both Wise the craftsman and the artist In doing so *The Films of Robert Wise* finally confers upon this underappreciated director the recognition he deserves

Bags' Grooves ,2006 *Words on Screen* Michel Chion,2017-03-07 Michel Chion is well known in contemporary film studies for his innovative investigations into aspects of cinema that scholars have traditionally overlooked Following his work on sound in film in *Audio Vision* and *Film a Sound Art* *Words on Screen* is Chion s survey of everything the seventh art gives

us to read on screen. He analyzes titles, credits, and intertitles but also less obvious forms of writing that appear on screen, from the tear-stained letter in a character's hand to reversed writing seen in mirrors. Through this examination, Chion delves into the multitude of roles that words on screen play: how they can generate narrative, be torn up or consumed, but still remain in the viewer's consciousness, take on symbolic dimensions, and bear every possible relation to cinematic space. With his characteristic originality, Chion performs a poetic inventory of the possibilities of written text in the film image. Taking examples from hundreds of films spanning years and genres, from the silents to the present, he probes the ways that words on screen are used and their implications for film analysis and theory. In the process, he opens up and unearths the specific poetry of visual text in film. Exhaustively researched and illustrated with hundreds of examples, *Words on Screen* is a stunning demonstration of a creative scholar's ability to achieve a radically new understanding of cinema.
