*When Race Trumps Merit* Heather Mac Donald, 2023-04-18 Does your workplace have too few black people in top jobs It s racist Does the advanced math and science high school in your city have too many Asians It s racist Does your local museum employ too many white women It s racist too After the Black Lives Matter protests of 2020 prestigious American institutions from the medical profession to the fine arts pleaded guilty to systemic racism How else explain why blacks are overrepresented in prisons and underrepresented in C suites and faculty lounges their leaders asked The official answer for those disparities is disparate impact a once obscure legal theory that is now transforming our world Any traditional standard of behavior or achievement that impedes exact racial proportionality in any enterprise is now presumed racist Medical school admissions tests expectations of scientific accomplishment in the award of research grants the enforcement of the criminal law all are under assault because they have a disparate impact on underrepresented minorities When Race Trumps Merit provides an alternative explanation for those racial disparities It is large academic skills gaps that cause the lack of proportional representation in our most meritocratic organizations and large differences in criminal offending that account for the racially disproportionate prison population The need for such a corrective argument could not be more urgent Federal science agencies now treat researchers skin color as a scientific qualification Museums and orchestras choose which art and music to promote based on race Police officers avoid making arrests and prosecutors decline to bring charges to avoid disparate impact on minority criminals When Race Trumps Merit breaks powerful taboos But it is driven by a sense of alarm supported by detailed case studies of how disparate impact thinking is jeopardizing scientific progress destroying public order and poisoning the appreciation of art and culture As long as alleged racism remains the only allowable explanation for racial differences we will continue tearing down excellence and putting lives as well as civilizational achievement at risk

*Beethoven's Ninth* Esteban Buch, 2004-05 Who hasn t been stirred by the strains of Beethoven s Ninth Symphony That s a good question claims Esteban Buch German nationalists and French republicans communists and Catholics have all in the course of history embraced the piece It was performed under the direction of Leonard Bernstein at a concert to mark the fall of the Berlin Wall yet it also serves as a ghastly and ironic

leitmotif in Stanley Kubrick's *A Clockwork Orange*. Hitler celebrated his birthdays with it and the government of Rhodesia made it their anthem. And played in German concentration camps by the imprisoned it also figured prominently at Mitterand's 1981 investiture. In his remarkable history of one of the most popular symphonic works of the modern period, Buch traces such complex and contradictory uses and abuses of Beethoven's Ninth Symphony since its premier in 1824. Buch shows that Beethoven consciously drew on the tradition of European political music with its mix of sacred and profane military and religious themes when he composed his symphony. But while Beethoven obviously had his own political aspirations for the piece, he wanted it to make a statement about ideal power; he could not have had any idea of the antithetical political uses, nationalist and universalist, to which the Ninth Symphony has been put since its creation. Buch shows us how the symphony has been deployed throughout nearly two centuries and in the course of this exploration offers what was described by one French reviewer as a fundamental examination of the moral value of art. Sensitive and fascinating, this account of the tangled political existence of a symphony is a rare book that shows the life of an artwork through time shifted and realigned with the currents of history.

**German Crime Dramas from Network Television to Netflix** Sunka Simon, 2022-12-15. German Crime Dramas from Network Television to Netflix approaches German television crime dramas to uncover the intersections between the genre's media-specific network and post-network formats and how these negotiate with and contribute to concepts of the regional, national, and global. Part I concentrates on the ARD network's long-running flagship series *Tatort*: Crime Scene 1970. Because the domestically produced crime drama succeeded in interacting with and competing against dominant U.S. formats during 3 different mediascapes, it offers strategic lessons for post-network television. Situating 9 *Tatort* episodes in their televisual moment within the Sunday evening flow over 38 years and 3 different German regions reveals how producers, writers, directors, critics, and audiences interacted not only with the cultural, socio-political context but also responded to the challenges aesthetically, narratively, and media reflexively. Part II explores how post-2017 German crime dramas *Babylon Berlin*, *Dark*, *Perfume*, and *Dogs of Berlin* rework the genre's formal and narrative conventions for global circulation on Netflix. Each chapter concentrates on the dynamic interplay between time-shifted viewing, transmedia storytelling, genre hybridity, and how these interact with projections of cultural specificity and continue or depart from established network practices. The results offer crucial information and inspiration for producers and executives, for creative teams, program directors, and television scholars.
