Odilon Redon, 1840-1916 Michael Gibson, 2017 **Odilon Redon** Douglas W. Druick, 1994 **Beyond the Visible: The Art of Odilon Redon** Jodi Hauptman, 2005 Caught between description and dream the felt and the imagined French artist Odilon Redon whose career bridged the 19th and 20th centuries transformed the natural world into nightmarish visions and bizarre fantasies Closely allied with the Symbolist movement Redon offered his own interpretations of literary biblical and mythological subjects created a universe of strange hybrid creatures and presented landscape in a singular way we see grinning disembodied teeth smiling spiders melancholic floating faces winged chariots unfamiliar plant life and velvety black or colored swirls of atmosphere With a recent gift from the Ian Woodner family The Museum of Modern Art is now the site of the most significant body of the artist s work outside France and this book will showcase the full range of Redon s varied oeuvre charcoal noirs luminous pastels richly textured canvases literary collaborations and experiments in printmaking and will illuminate the hold his particular kind of modernism has had on both 20th century and contemporary artists

Masterpieces of European Painting, 1800-1920, in the Metropolitan Museum of Art Metropolitan Museum of Art (New York, N.Y.), Kathryn Calley Galitz, 2007 *The Mysterious Science of the Sea, 1775-1943* Natascha Adamowsky, 2015-10-06 The depths of the oceans are the last example of terra incognita on earth Adamowsky presents a study of the sea arguing that contrary to popular belief post Enlightenment discourse on the sea was still subject to mystery and wonder and not wholly rationalized by science

Odilon Redon; prince of dreams 1840 - 1916 D.W. Druick, 1994 **Paul Gauguin** Dario Gamboni, 2014-09-15 French artist Eugène Henri Paul Gauguin 1848 1903 once reproached the Impressionists for searching around the eye and not at the mysterious centre of thought But what did he mean by this enigmatic phrase In this innovative investigation into Gauguin s art and thought Dario Gamboni illuminates Gauguin s quest for this mysterious centre and offers a fresh look at the artist s output in all

media from ceramics and sculptures to prints paintings and his large corpus of writings Foregrounding Gauguin s conscious use of ambiguity Gamboni unpacks what the artist called the language of the listening eye Gamboni shows that the interaction between perception cognition and imagination was at the core of Gauguin s work and he traces a line of continuity in them that has been previously overlooked Emulating Gauguin s wide ranging curiosity with literature psychology theology and the natural sciences not to mention the whole of art history this richly illustrated book provides new insight into the life and works of this well known yet little understood artist *Exploring the Invisible* Lynn

Gamwell,2020-03-17 How science changed the way artists understand reality Exploring the Invisible shows how modern art expresses the first secular scientific worldview in human history Now fully revised and expanded this richly illustrated book describes two hundred years of scientific discoveries that inspired French Impressionist painters and Art Nouveau architects as well as Surrealists in Europe Latin America and Japan Lynn Gamwell describes how the microscope and telescope expanded the artist s vision into realms unseen by the naked eye In the nineteenth century a strange and exciting world came into focus one of microorganisms in a drop of water and spiral nebulae in the night sky The world is also filled with forces that are truly unobservable known only indirectly by their effects radio waves X rays and sound waves Gamwell shows how artists developed the pivotal style of modernism abstract non objective art to symbolize these unseen worlds Starting in Germany with Romanticism and ending with international contemporary art she traces the development of the visual arts as an expression of the scientific worldview in which humankind is part of a natural web of dynamic forces without predetermined purpose or meaning Gamwell reveals how artists give nature meaning by portraying it as mysterious dangerous or beautiful With a foreword by Neil deGrasse Tyson and a wealth of stunning images this expanded edition of Exploring the Invisible draws on the latest scholarship to provide a global perspective on the scientists and artists who explore life on Earth human consciousness and the space time universe *Art in Reproduction* Robert Verhoogt,2007 This

illuminating study examines the cultural meaning of artistic reproduction in a refreshingly new context through its consideration of how three artists managed the reproduction of their work *Debussy* Eric Frederick Jensen,2014-07-03 Nearly one hundred years after the death of its composer the music of Claude Debussy has lost none of its breadth of appeal With the rare ability to entice listeners on many levels at its heart lies an engaging simplicity one which defies traditional analysis and lends mystery to what ultimately is an extremely refined and highly personal approach to composition Equally fascinating is Debussy s often contradictory personality at times elusive but always centered on his devotion to music and his ambition to create a name for himself unlike any other Author Eric Frederick Jensen provides new insight to the man and the music in this authoritative biography Although born into poverty and a failure as a piano student at the Paris Conservatoire Debussy became the most famous French composer of his day known for his culture and refinement His revolutionary music baffled critics but was embraced by audiences Debussy s scandalous personal life stirred up as much controversy as his

music and his notoriety proved more harmful to his career than the unusual nature of his compositions Jensen also explores Debussy's relationship to the arts and his career as a music critic Debussy drew on all of the arts in his development as a composer including poetry and painting and his fascination with the arts has often led to his being classified as an Impressionist or Symbolist two claims which Jensen debunks One of the finest music critics of his time Debussy's reviews reveal a great deal not only about his musical taste but also about what he felt the role and function of music should be Debussy brings together the most recent biographical research including a revised catalogue of Debussy's compositions and the first complete edition of his correspondence With separate chronological sections on his life and music Debussy is accessible to the general reader who wishes to focus on his life and personality while providing detailed discussion of the music to musicians and students

Potential Images Dario Gamboni, 2002 In *Potential Images* Dario Gamboni explores ambiguity in modern art considering images that rely to a great degree on a projected or imaginative response from viewers to achieve their effect Ambiguity became increasingly important in late 19th and early 20th century aesthetics as is evidenced in works by such artists as Redon Cezanne Gauguin Ensor and the Nabis Similarly the Cubists subverted traditional representational conventions requiring their viewers to decipher images to extract their full meanings The same device was taken up in the various experiments leading to abstraction For example it was Kandinsky's intention that his work could be interpreted in both figurative and non figurative ways and Duchamp's Readymades suggested the radical conclusion that it is the beholder who makes the picture These invitations to viewers to participate in the process of artistic communication had social and political implications as they accorded artist and beholder symmetrical almost interchangeable roles

Artists & Prints Deborah Wye, Starr Figura, Museum of Modern Art (New York, N.Y.), 2004 Volume covers the Collection of Prints and Illustrated Books not the collection of artists books

Medieval Saints in Late Nineteenth Century French Culture Elizabeth Emery, Laurie Postlewaite, 2004-08-02 Legends tales and mysteries featuring saints captivated the French at the end of the nineteenth century As Jean Lorrain pointed out in an 1891 article for the popular weekly *Le Courrier Francais* the seemingly simple language of the saints lives their noble battles between good and evil and the atmosphere of religious mysticism appealed to many especially those involved in the visual and performing arts Ironically The Third Republic 1870-1940 a regime that claimed to reinforce and institute the secular ideas of the French Revolution was witness to this great popular interest in the saints and religious imagery The eight essays in this work explore the popularity of the saints from the 1850s to the 1920s The essays evaluate the role they played in literature art music science history and politics examine portrayals of the saints lives in both low and high culture from children's literature shadow plays and the popular press to literature opera and theological studies and reveal the prevalence of the saints in fin de siecle France

Americans from Gilbert Stuart to Louise Nevelson and Europeans from Corot to Henry Moore In the introduction how and why Smith became steward of such a fine body of work is ascribed to the school s high minded mission and its generous alumni donors The rest of the book is divided into two sections one American and the other European Each individual full color reproduction is accompanied by an informative one page essay and a brief reading list During several years of renovations at Smith the items featured in this book are traveling to diverse sites which should increase the book s appeal 118 colour 1 b w illustrations

The Nabis and Intimate Modernism KatherineM. Kuenzli,2017-07-05 Providing a fresh perspective on an important but underappreciated group of late nineteenth century French painters this is the first book to provide an in depth account of the Nabis practice of the decorative and its significance for twentieth century modernism Over the course of the ten years that define the Nabi movement 1890 1900 its principal artists included Edouard Vuillard Pierre Bonnard Maurice Denis Paul Sier and Paul Ranson The author reconstructs the Nabis relationship to Impressionism mass culture literary Symbolism Art Nouveau Wagnerianism and a revolutionary artistic tradition in order to show how their painterly practice emerges out of the pressing questions defining modernism around 1900 She shows that the Nabis were engaged nonetheless with issues that are always at stake in accounts of nineteenth century modernist painting issues such as the relationship of high and low art of individual sensibility and collective identity of the public and private spheres *The Nabis and Intimate Modernism* is a rigorous study of the intellectual and artistic endeavors that inform the Nabis decorative domestic paintings in the 1890s and argues for their centrality to painterly modernism The book ends up not only re positioning the Nabis to occupy a crucial place in modernism s development from 1860 to 1914 but also challenges that narrative to place more emphasis on notions of decoration totality and interiority
