## **Odor Of Sanctity:**

Wounds of Love Frank Graziano, 2004-01-15 The Peruvian mystic St Rose of Lima Isabel Flores y Oliva 1586 1617 was canonized in 1671 as the first saint of the New World and remains the object of widespread devotion today In this engrossing new study Frank Graziano uses the example of St Rose to explore the meaning of female mysticism and the way in which saints are products of their cultures Virginity austerity eucharistic devotion incessant mortification and mystical marriage to Christ characterized the devotional regimen that structured St Rose s entire life Many of her mystical practices echo the symptoms of such modern psychological disorders as masochism depression hysteria and anorexia nervosa Graziano offers a sophisticated argument not only for the origins and meaning of these behaviors in Rose s case but also for the reason her culture venerated them as signs of sanctity In the process he explores a wide range of themes from the idea of suffering as an expression of love to the assimilation of childhood trauma through religious repetition Graziano also offers a penetrating analysis of the politics of Rose s canonization He finds that her mystical union with God bypassing the institutional channels of sacrament and priestly mediation was inherently subversive to the bureaucratized Church Canonization was a cooptation by which Rose s competing claim to Christ was integrated into the Catholic canon The book concludes with a fascinating exploration of mystical eroticism with its intense experiences of vision and ecstasy The eroticized suffering of many mystics is shown to be very human in origin the mystic s wounded love is projected onto a God conceived to accommodate it Wounds of Love is based on a decade of research in archives rare books and an extraordinary range of secondary sources Introducing an innovative method that integrates history cultural studies psychoanalysis and clinical psychology this compelling work offers a bold new interpretation of female mysticism *Lire Descartes aujourd'hui* Maurice F. Wiles, Edward Yarnold, 2001 **The Colour of Angels** Constance Classen, 2002-01-04 The Colour of Angels uncovers the gender politics behind our attitude to the senses Using a wide variety of examples ranging from the sensuous religious visions of the middle ages through to nineteenth century art movements this book reveals a previously unexplored area of womens history An Odor of Sanctity Frank Yerby, 1975 **Encyclopædia of Superstitions, Folklore, and the Occult Sciences of the World** Cora Linn Daniels, C. M. Stevans, 2003-11 Originally published in 1903 this is an excellent source for an historical perspective on superstitions and folklore Hundreds of entries are arranged alphabetically within broad subject categories The original subtitle reads A comprehensive library of human belief and practice in the mysteries of life through more than six thousand years of experience and progress including the fundamental intuitions and instincts underlying the structure of civilization theology mythology demonology magic witchcraft esoteric philosophy signs omens oracles sorceries auguries divinations prophecies methods and means employed in revealing fortune and fate systems and formulas for the use of psychical forces hypnotism clairvoyance telepathy spiritualism character reading and character building with all the known powers and wonders of mind and soul illustrated with numerous ancient and modern designs and thoroughly indexed **Untimely**

**Matter in the Time of Shakespeare** Jonathan Gil Harris, 2010-11-24 Selected by Choice magazine as an Outstanding Academic Title The New Historicism of the 1980s and early 1990s was preoccupied with the fashioning of early modern subjects But Jonathan Gil Harris notes the pronounced tendency now is to engage with objects From textiles to stage beards to furniture objects are read by literary critics as closely as literature used to be For a growing number of Renaissance and Shakespeare scholars the play is no longer the thing the thing is the thing Curiously the current wave of thing studies has largely avoided posing questions of time How do we understand time through a thing What is the time of a thing In *Untimely Matter in the Time of Shakespeare* Harris challenges the ways we conventionally understand physical objects and their relation to history Turning to Renaissance theories of matter Harris considers the profound untimeliness of things focusing particularly on Shakespeare's stage materials He reveals that many Renaissance objects were actually survivals from an older time the medieval monastic properties that post Reformation were recycled as stage props in the public playhouses or the old Roman walls of London still visible in Shakespeare's time Then as now old objects were inherited recycled repurposed they were polytemporal or palimpsested By treating matter as dynamic and temporally hybrid Harris addresses objects in their futurity not just in their encapsulation of the past *Untimely Matter in the Time of Shakespeare* is a bold study that puts the material the explosive world changing potential back into a material culture that has been too often understood as inert stuff

significance of the sense of smell is evident in scholastic Latin texts most of which are untranslated and unedited by modern scholars Between the late eleventh and thirteenth century medieval scholars developed a logical theory of the workings of the sense of smell based on Greek and Arabic learning In the thirteenth through fifteenth century medical authors detailed practical applications of smell theory and these were communicated to individuals and governing authorities by the medical profession in the interests of personal and public health At the same time religious authors read philosophical and medical texts and gave their information religious meaning This reinterpretation of scholastic philosophy and medicine led to the development of what can be termed a medically aware theology of smell that was communicated to popular audiences alongside traditional olfactory theory in sermons Its impact on popular thought is reflected in late medieval mystical texts While the senses have received increasing scholarly attention in recent decades this volume presents the first detailed research into the sense of smell in the later European Middle Ages

**Perfume on the Page in Nineteenth-Century France** Cheryl Krueger, 2023-06-26 Despite long standing assertions that languages including French and English cannot sufficiently communicate the experience of smell much of France's nineteenth century literature has gained praise for its memorable evocation of odours As French perfume was industrialized democratized cosmeticized and feminized in the nineteenth century stories of fragrant scent trails aligned perfume with toxic behaviour and viewed a woman's scent as something alluring but also something to be controlled Drawing on a wealth of resources *Perfume on the Page in Nineteenth Century France* explores how fiction and related writing on olfaction meet permeate and illuminate one another The book examines medical tracts letters manuscripts posters print advertisements magazine articles perfume manuals etiquette books interviews and encounters with fragrant materials themselves Cheryl Krueger explores how the olfactory language of a novel or poem conveys the distinctiveness of a text its unique relationship to language its style and its ways of engaging the reader its signature scent Shedding light on the French perfume culture that we know today *Perfume on the Page in Nineteenth Century France* follows the scent trails that ultimately challenge us to read perfume and literature in new ways
