Agenorid Myth in the ›Bibliotheca‹ of Pseudo-Apollodorus Johanna Astrid Michels, 2022-11-21 The Bibliotheca of Pseudo Apollodorus perhaps the best known mythographic text stands out for its comprehensive aim and state of preservation The handbook has regularly been disregarded as a repository of standard myths or as a primary witness to archaic stories a reductive view at once underestimating and romanticizing the merits of the Bibliotheca This monograph unlocks the Bibliotheca as a literary work in its own right by offering the first systematic commentary on an essential selection the Cretan and Theban myths in Bibl III 1-56 and by presenting an in-depth analysis of the text In so doing this volume closes a gap in current research from which a philological commentary is entirely missing The main part of the study focuses on various aspects of composition and organization by addressing structuring principles narratorial interventions and the author's method and sources It lays to rest persistent misconceptions about the representative character of the Bibliotheca's myths the author's merits and his source use all of which have divided the scholarship to this date In addition it provides an update on the author date purpose and readership text history and book division of the Bibliotheca [Library of Congress Catalogs](#) Library of Congress, 1977 **Monographic Series** Library of Congress, **Arctos**, 1988 *Der satirische Agon* Langbein, Florian, 2021-06-28 Das erste Satirenbuch des Horaz ist nach einhelliger Forschungsmeinung eine Mischung verschiedener literarischer Gattungen In dieser Dissertation werden erstmals die Wortgefechte im Satirenbuch untersucht und die Einflüsse anderer agonalen Gattungen Epos Tragödie die Komödie festgestellt Weiterhin wird das Satirenbuch als politisch erwiesen nach Foucaults Dispositiv der Macht *Verlags-Katalog von B.G.Teubner in Leipzig, 1824-1875* B. [With] Erster (Zweiter) Nachtrag B.G. Teubner,1875 Women and Death Helen Fronius,Anna Linton,2008 Identifies
and analyzes thematizations of women and death from the past five centuries illuminating the present and recent past The
theme of women and death is pervasive in the German culture of the past five centuries With the conviction that only an
interdisciplinary approach can explore a typology as far reaching and significant as this and in accordance with the feminist
tenet that images are accountable for norms this volume investigates how iconic representations of women and death came
about and why they endure Traditionally representations of women as agents of death when they have been considered at all
have been considered separately from women as victims as though there was no shared thematic ground Here familiar
depictions of female victims are examined alongside the more unsettling spectacle of women as killers exposing cultural
assumptions Essays explore among others the themes of virgin sacrifice and female infanticides Death and the Maiden in art
female vampires in literature and women killersin the media Others compare cultural practices such as female mourning
across historical contexts examining change and the reasons for it The authors judgments eschew the simplistic and
programmatic contributing not just to current research in German literature but also to understanding of cultural history in
