Paul Ricoeur's Moral Anthropology Geoffrey Dierckxsens, 2017-12-20 Paul Ricoeur s Moral Anthropology is a guide for readers who are interested in Paul Ricoeur s thoughts on morals in general bringing together the different aspects of what Geoffrey Dierckxsens understands as Ricoeur s moral anthropology This anthropology addresses the question what it means to be human capable of participating in moral life Dierckxsens argues that Ricoeur shows that this participation implies being a self living a singular lived existence with others and being responsible in institutions of justice Through experiencing life one comes to learn taking moral decisions and the reasons for moral life The wager of Ricoeur s hermeneutical approach to moral anthropology is so Dierckxsens argues to understand moral life on the basis of the interpretation of lived existence rather than on the basis of cultural or natural patterns only like many contemporary moral theories in analytical philosophy Ricoeur s moral anthropology is thus particularly timely in that it offers a critical argument against contemporary moral relativism and reductionism By bringing together Ricoeur s moral anthropology and recent moral theories this book offers a novel perspective on Ricoeur s already well established moral theory Dierckxsens moreover offers a critical perspective by arguing that we should revisit certain moral concepts in Ricoeur s moral anthropology and in contemporary moral theories in analytical philosophy He evaluates certain concepts in Ricoeur s work such as the concept of universal moral norms and how it stands against cultural differences in morals He moreover interrogates certain ideas of contemporary analytical philosophy such as the idea of cultural moral relativism and whether we can find a common morality

across the cultural differences By placing Ric ur s ideas on moral life within the context of the contemporary scene of moral theory this book contributes well to Studies in the Thought of Paul Ric ur
