Oeuvres Complètes De Voltaire Volume 16 Writings Of 1736:

Commerce and Peace in the Enlightenment Béla Kapossy, Isaac Nakhimovsky, Richard Whatmore, 2017-07-20 For many Enlightenment thinkers discerning the relationship between commerce and peace was the central issue of modern politics The logic of commerce seemed to require European states and empires to learn how to behave in more peaceful self limiting ways However as the fate of nations came to depend on the flux of markets it became difficult to see how their race for prosperity could ever be fully disentangled from their struggle for power On the contrary it became easy to see how this entanglement could produce catastrophic results This volume showcases the variety and the depth of approaches to economic rivalry and the rise of public finance that characterized Enlightenment discussions of international politics It presents a fundamental reassessment of these debates about perpetual peace and their legacy in the history of political thought

The Hamburg Dramaturgy by G.E. Lessing Natalya Baldyga, 2018-10-26 While eighteenth century playwright and critic Gotthold Ephraim Lessing made numerous contributions in his lifetime to the theater the text that best documents his dynamic and shifting views on dramatic theory is also that which continues to resonate with later generations the Hamburg Dramaturgy Hamburgische Dramaturgie 1767 69 This collection of 104 short essays represents one of the eighteenth century's most important critical engagements with the theater and its potential to promote humanistic discourse Lessing's essays are an immensely erudite deeply engaged witty ironic and occasionally

scathing investigation of European theatrical culture bolstered by deep analysis of Aristotelian dramatic theory and utopian visions of theater as a vehicle for human connection This is the first complete English translation of Lessing s text with extensive annotations that place the work in its historical context For the first time English language readers can trace primary source references and link Lessing s observations on drama theory and performance not only to the plays he discusses but also to dramatic criticism and acting theory This volume also includes three introductory essays that situate Lessing s work both within his historical time period and in terms of his influence on Enlightenment and post Enlightenment theater and criticism The newly translated Hamburg Dramaturgy will speak to dramaturgs directors and humanities scholars who see theater not only for entertainment but also for philosophical and political debate **Œuvres complètes de**

tesquieu in *Lettres Persanes* LXXXIII In this survey attention is concentrated on the way in which the connotations of these terms fluctuate with the divergent development of the methodological and speculative outgrowths of Cartesianism into two schools of thought materialist and idealist often widely at variance in their views of the nature and organization of the universe In Part Two Montesquieu's definition of justice is set against this background whose doctrinal conflicts because of the characteristic associations of its key terms it may be taken to reflect just as it may be held to epitomize by virtue of its elaboration in the opening chapter of *De l'Esprit des Lois* and its close terminological affinities with the definition of law there given an undoubtedly related conflict between the implications of causal determinism and the aspirations of idealist metaphysics surviving at the heart of Montesquieu's outlook and remaining unresolved often said to impair the coherence if not the validity of his theory of society
