The Progressive Poetics of Confusion in the French Enlightenment John C. O'Neal, 2011-03-14 In *The Progressive Poetics of Confusion in the French Enlightenment* John C. O'Neal draws largely on the etymological meaning of the word confusion as the action of mixing or blending in order to trace the development of this project which he claims aimed to reject dogmatic thinking in all of its forms and recognized the need to embrace complexity. Eighteenth-century thinkers used the notion of confusion in a progressive way to reorganize social classes, literary forms, metaphysical substances, scientific methods and cultural categories such as taste and gender. In this new work O'Neal explores some of the paradoxes of the Enlightenment's theories of knowledge. Each of the chapters in this book attempts to address the questions raised by the eighteenth-century's particular approach to confusion as a paradoxical reorganizing principle for the period's progressive agenda. Perhaps the most paradoxical thinker of his times, Diderot occupies a central place in this study of confusion. Other authors include Marivaux, Crbillon, Voltaire and Pinel, among others. Rousseau and Sade serve as counterexamples to this kind of enlightenment but ultimately do not so much oppose the period's poetics of confusion as they complement it. The final chapter on Sade combines contemporary discussions of politics, society, culture, philosophy and science in an encyclopedic way that at once reflects the entire period's tendencies and establishes important differences between Sade's thinking and that of the mainstream philosophes. Ultimately, confusion serves O'Neal argues as an overarching positive notion for the Enlightenment and its progressive ideals.

The Enterprise of Enlightenment Terry Pratt, David McCallam, 2004 Published on the occasion of his retirement in honour of his outstanding contribution to French Enlightenment studies, this volume explores those areas of research in which David Williams has excelled and continues to excel: literary criticism, particularly Voltaire, the history of ideas, women and Enlightenment, colonial practices and revolutionary politics. It brings together a collection of essays from some of the most prestigious international names in the field and tackles subjects which expose in all their splendid diversity the enterprise, both innovation and undertaking, of the *Siècle des Lumières*.
