Oeuvres Romanesques:

Americanism, Media and the Politics of Culture in 1930s France David A. Pettersen, 2016-05-20 First book to focus on Americanism and its consideration of French film and literature The book is organized around individual figures texts and films making it easy to adopt for individual units in courses The book is written in clear accessible and jargon free language The book brings a new and innovative transatlantic perspective to 1930s French culture The books offers new perspectives on important figures that we thought we knew well The book mixes cultural history with the analysis of individual films and novels in a way that is engaging to read **France in 1938** Benjamin F. Martin, 2006-09-01 When Benjamin Martin s latest report from the front of French fallibility does not read like a tragedy whose end is foreordained it reads like a melodrama sensational doings punctuated by catchy melodies like L Internationale and La Marseillaise In both cases it reads well French life in the run up to World War II was a gangrenous decomposition to be followed by still worse The country s leaders found nary a pratfall that they could avoid They chose a semblance of peace above honor and ended up with neither In spite of a masterful prologue successful synthesis elegant concision and lucid presentation or perhaps thanks to them the reader can t help sharing the nation s shames A tribute to the historian s talent Eugen Weber Phi Beta Kappa Key Reporter At the beginning of 1938 containment of Nazi Germany by a coalition of eastern and western democracies without resorting to war was still a distinct possibility By the end of 1938 however Germany was much stronger the western democracies stood alone and war was all but certain The primary cause for these developments argues Benjamin F Martin was the foreign and domestic policies adopted by the French government and embraced by the French people In a riveting account of the dark days leading up to France s defeat and occupation Martin reveals a great and civilized nation committing a kind of suicide in 1938 Using movies novels newspapers and sensational court cases Martin weaves an absorbing tale of France s collective fear and melancholy during this troubled prewar period **Authors and Philosophers** Brill Academic Pub, 1979

Imagining Women's Conventual Spaces in France, 1600-1800 Barbara R. Woshinsky, 2016-12-05 Blending history and architecture with literary analysis this ground breaking study explores the convent s place in the early modern imagination The author brackets her account between two pivotal events the Council of Trent imposing strict enclosure on cloistered nuns and the French Revolution expelling them from their cloisters two centuries later In the intervening time women within convent walls were both captives and refugees from an outside world dominated by patriarchal power and discourses Yet despite locks and bars the cloister remained porous to privileged visitors Others could catch a glimpse of veiled nuns through the elaborate grills separating cloistered space from the church provoking imaginative accounts of convent life Not surprisingly the figure of the confined religious woman represents an intensified object of desire in male authored narrative The convent also spurred feminutopian discourses composed by women convents become safe houses for those fleeing bad marriages or trying to construct an ideal pastoral life as a counter model to the male dominated court or household Recent

criticism has identified certain privileged spaces that early modern women made their own the ruelle the salon the hearth of fairy tale telling Woshinsky's book definitively adds the convent to this list The Architectural Uncanny Anthony Vidler,1994-03-29 Anthony Vidler interprets contemporary buildings and projects in light of the resurgent interest in the uncanny as a metaphor for a fundamentally unhomely modern condition The Architectural Uncanny presents an engaging and original series of meditations on issues and figures that are at the heart of the most pressing debates surrounding architecture today Anthony Vidler interprets contemporary buildings and projects in light of the resurgent interest in the uncanny as a metaphor for a fundamentally unhomely modern condition The essays are at once historical serving to situate contemporary discourse in its own intellectual tradition and theoretical opening up the complex and difficult relationships between politics social thought and architectural design in an era when the reality of homelessness and the idealism of the neo avant garde have never seemed so far apart Vidler one of the deftest and surest critics of the contemporary scene explores aspects of architecture through notions of the uncanny as they have been developed in literature philosophy and psychology from the beginning of the nineteenth century to the present He interprets the unsettling qualities of today's architecture its fragmented neo constructivist forms reminiscent of dismembered bodies its seeing walls replicating the passive gaze of domestic cyborgs its historical monuments indistinguishable from glossy reproductions in the light of modern reflection on questions of social and individual estrangement alienation exile and homelessness Focusing on the work of architects such as Bernard Tschumi Rem Koolhaas Peter Eisenman Coop Himmelblau John Hejduk Elizabeth Diller and Ricardo Scofidio as well as theorists of the urban condition Vidler delineates the problems and paradoxes associated with the subject of domesticity Obsolete Objects in the Literary Imagination Francesco Orlando,2008-10-01 Translated here into English for the first time is a monumental work of literary history and criticism comparable in scope and achievement to Eric Auerbach's Mimesis Italian critic Francesco Orlando explores Western literature's obsession with outmoded and nonfunctional objects ruins obsolete machinery broken things trash etc Combining the insights of psychoanalysis and literary political history Orlando traces this obsession to a turning point in history at the end of eighteenth century industrialization when the functional becomes the dominant value of Western culture Roaming through every genre and much of the history of Western literature the author identifies distinct categories into which obsolete images can be classified and provides myriad examples The function of literature he concludes is to remind us of what we have lost and what we are losing as we rush toward the future The Demon of Noontide Reinhard Clifford Kuhn,2017-03-14 Kierkegaard claimed that the gods created man because they were bored and Baudelaire predicted that the delicate monster of boredom would one day swallow up the whole world in an immense yawn Between these two statements lies the undefined expanse of ennui whose manifestations in European literature form the fascinating subject of this book Reinhard Kuhn's aim is to define the demon of noontide to learn how writers through the ages have treated it and to discover what it indicates about the nature of the creative act Originally

published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The Violent Mystique Joyce O. Lowrie,1974 *No Tomorrow* Catherine Cusset,1999 In this ambitious book Cusset reframes the often misunderstood genre that celebrates what Casanova calls the present enjoyment of the senses She contends libertine works are not as is commonly thought characterized by the preaching of sexual pleasure but are instead linked by an ethics of pleasure that teaches readers that vanity and sensual enjoyment are part of their moral being Developing Roland Barthes s concept of the pleasure of the text the author argues that the novel is a powerful vehicle for moral lessons more so than philosophical or moral treatises because it conveys such lessons through pleasure Midwest **The French Novel: Theory and Practice** Michael Butor,2024-10-07 **The Cambridge History of Literary Criticism: Volume 4, The Eighteenth Century** George Alexander Kennedy,1989 This comprehensive 1997 account of eighteenth century literary criticism is now available in paperback **Encyclopedia of Literary Translation Into English: A-L** O. Classe,2000 **The Supplément to the Encyclopédie** Kathleen Hardesty,2012-12-06 **The Surprising Effects of Sympathy** David Marshall,1988 Through readings of works by Marivaux Diderot Rousseau and Mary Shelley David Marshall provides a new interpretation of the eighteenth century preoccupation with theatricality and sympathy Sympathy is seen not as an instance of sensibility or natural benevolence but rather as an aesthetic and epistemological problem that must be understood in relation to the problem of theatricality Placing novels in the context of eighteenth century writing about theater fiction and painting Marshall argues that an unusual variety of authors and texts were concerned with the possibility of entering into someone else s thoughts and feelings He shows how key eighteenth century works reflect on the problem of how to move touch and secure the sympathy of readers and beholders in the realm of both art and life Marshall discusses the demands placed upon novels to achieve certain effects the ambivalence of writers and readers about those effects and the ways in which these texts can be read as philosophical meditations on the differences and analogies between the experiences of reading a novel watching a play beholding a painting and witnessing the spectacle of someone suffering The Surprising Effects of Sympathy traces the interaction of sympathy and theater and the artistic and philosophical problems that these terms represent in dialogues about aesthetics moral philosophy epistemology psychology autobiography the novel and society **Diderot and the Jews** Leon Schwartz,1981 Explores the many articles that appeared in the Encyclopédie of which Diderot was the editor in order to more clearly define and interpret the philosopher s true attitudes Although many of these articles were indeed harsh in their treatment of the Jews Diderot s thinking evolves to reveal a genuine regard for this group *Virtuosity of the*

Nineteenth Century Susan Bernstein, 1998 A study of the reflexive relationship between music and language in the nineteenth century this book maintains a discrete historical focus while drawing upon an aesthetic going back to problems of epic delivery in ancient Greece Reading Romantic reactions to music together with linguistic and economic conflicts brought about by the rise of journalism the book pursues the tension around performativity that both connects and separates music and writing Franz Liszt is the organizing figure in this detailed study of music in Heine and Baudelaire The acclaimed virtuoso functions both as a metaphor for a musical mode of enunciation and as a historical referent This dual status dramatizes the struggle at the heart of nineteenth century aesthetics between poetic self reference and realism s efforts to report the world accurately Debates surrounding Liszt pinpoint the conflict between the view that locates sense in the process of its production and the contrary judgment privileging a stable meaning over the exteriority of its execution This dualism also articulates the problematic relationship of the individual to general social and linguistic structures The book s analyses of nineteenth century theories of correspondence along with the thematization of the other arts point to the limitations of analogy the impossibility of a general theory of art and a crisis of identity that is a shared non identity that can be the only common property among different discourses genres and media *Virtuosity of the Nineteenth Century* offers a fresh reading of relatively marginal texts by canonical figures addressing questions about the relation between the arts the possibility of critical description and the function of performativity

French Existentialism , 2021-11-15 This book is a critical appraisal of the distinctive modern school of thought known as French existentialism It philosophically engages the ideas of the major French existentialists namely Beauvoir Merleau Ponty Marcel Camus and because of his central role in the movement especially Sartre in a fresh attempt to elucidate their contributions to contemporary philosophy

User's Guide to Philologic 2.0 American and French Research on the Treasury of the French Language (Project), 1993 [Egitto oggi](#) Elisabetta Bartuli, 2005 *Phenomenology and Deconstruction, Volume Two* Robert Denoon Cumming, 1991 In this final volume of Robert Denoon Cumming s four volume history of the phenomenological movement Cumming examines the bearing of Heidegger s philosophy on his original commitment to Nazism and on his later inability to face up to the implication of that allegiance Cumming continues his focus as in previous volumes on Heidegger s connection with other philosophers Here Cumming looks first at Heidegger s relation to Karl Jaspers an old friend on whom Heidegger turned his back when Hitler consolidated power and who discredited Heidegger in the denazification that followed World War II The issues at stake are not merely personal Cumming argues but regard the philosophical relevance of the personal
