Oeuvres Vol II Bibliothèque De La Pleiade Series:

Love, Desire and Transcendence in French Literature Paul Gifford, 2016-12-05 European literature and theory of the twentieth century have been intensely preoccupied with questions of Desire whereas love has increasingly represented a fractured and strange if not actually suspect proposal this is a prime symptom of an age of deep cultural mutation and uncertainty Paul Gifford's book allows this considerable contemporary phenomenon to be observed steadily and whole with strategic understanding of its origins nature and meaning Gifford paints a clear and coherent picture of the evolution of erotic ideas and their imaginary and formal expressions in modern French writing He first retraces the formative matrix of French tradition by engaging with five classic sources Plato's Symposium the Song of Songs the myth of Genesis the tension between Greek Eros and Christian Agape and the repercussions of Nietzsche's declaration of the death of God Modern variations on these perennial problematics are then pursued in ten chapters devoted to Proust Valéry Claudel Breton Bataille Duras Barthes Irigaray Emmanuel Kristeva Literary and theoretical perspectives are perfectly blended in his study of these attempts at deciphering Eros The book will appeal not only to students of French literature but to all those interested in the cultural upheavals of the twentieth century

Mallarmé and Debussy Elizabeth McCombie, 2003 This book examines afresh the web of similarities and differences between music and poetry using works by Mallarmé and Debussy as case studies It challenges the easy metaphorical impressionism that has characterized much of the scholarly literature to date Analyzing Mallarmé's vision of a shared musico-poetic aesthetic Elizabeth McCombie derives a set of performative structural motifs analytical tools that express our experience of the two arts and their middle ground

Individuation and Attachment in the Works of Isabelle de Charrière Jelka Samsom, 2005 The novels published by Isabelle de Charrière before the French Revolution offer a perceptive account of the psychology and the social climate of the late eighteenth century The anti-Freudian psychoanalysis of the neurologist and psychiatrist Heinz Kohut 1913-81 is used in this study as a means of developing an awareness of the position of the fictional characters Feminist and Freudian readings of Charrière's novels of the 1780s have stressed the closed deterministic atmosphere of contemporary society this new study emphasises what can be called the modern side of the novels patriarchal society and individual needs confront each other and allow the relationships to be seen in a new light By means of Kohut's notion of self-object a rich insight is gained into the complex relationships described by Isabelle de Charrière

Poetic Creation Carl Abraham Daniel Fehrman, 1980

Literary Medicine: Brain Disease and Doctors in Novels, Theater, and Film J. Bogousslavsky, S. Dieguez, 2013-03-07 Classical and modern literature is full of patients with interesting neurological cognitive or psychiatric diseases often including detailed and accurate descriptions which suggests the authors were inspired by observations of real people In many cases these literary portrayals of diseases even predate their formal identification by medical science Fictional literature encompasses nearly all kinds of disorders affecting the nervous system with certain favorites such as memory loss and behavioral syndromes There are even

unique observations that cannot be found in scientific and clinical literature because of the lack of appropriate studies Not only does literature offer a creative and humane look at disorders of the brain and mind but just as authors have been inspired by medicine and real disorders clinicians have also gained knowledge from literary depictions of the disorders they encounter in their daily practice This book provides an amazing and fascinating look at neurological conditions patients and doctors in literature and film in a way which is both nostalgic and novel The Death Penalty, Volume II Jacques

Derrida,2017-05-31 In the first volume of his extraordinary analysis of the death penalty Jacques Derrida began a journey toward an ambitious end the first truly philosophical argument against the death penalty Exploring an impressive breadth of thought he traced a deeply entrenched logic throughout the whole of Western philosophy that has justified the state's right to take a life He also marked literature as a crucial place where this logic has been most effectively challenged In this second and final volume Derrida builds on these analyses toward a definitive argument against capital punishment Of central importance in this second volume is Kant's explicit justification of the death penalty in the *Metaphysics of Morals* Thoroughly deconstructing Kant's position which holds the death penalty as exemplary of the eye for an eye Talionic law Derrida exposes numerous damning contradictions and exceptions Keeping the current death penalty in the United States in view he further explores the anesthesial logic he analyzed in volume one addressing the themes of cruelty and pain through texts by Robespierre and Freud reading Heidegger and in a fascinating improvised final session the nineteenth century Spanish Catholic thinker Donoso Cort's Ultimately Derrida shows that the rationality of the death penalty as represented by Kant involves an imposition of knowledge and calculability on a fundamental condition of non knowledge that we don't otherwise know what or when our deaths will be In this way the death penalty acts out a phantasm of mastery over one's own death Derrida's thoughts arrive at a particular moment in history when the death penalty in the United States is the closest it has ever been to abolition and yet when the arguments on all sides are as confused as ever His powerful analysis will prove to be a paramount contribution to this debate as well as a lasting entry in his celebrated oeuvre **Reading Images and Seeing**

Words,2021-11-01 The simultaneously tautological and oxymoronic nature of word image relations has become a subject of massive debate in the post modern period This is not only because of the increasing predominance of word image messages within our modern media saturated culture but also because intellectual disciplines are becoming increasingly sensitized to the essentially hybrid nature of the way we construct meaning in the world The essays in this volume offer an exemplary insight into both aspects of this phenomenon Focussing on both traditional and modern media theatre fiction poetry graphic art cinema the essays of *Reading Images and Seeing Words* are deeply concerned to show how it is according to signifying codes rhetoric poetics metaphor that meaning and knowledge are produced Not the least value of this collection is the insight it gives into the multiple models of word image interaction and the rich ambiguity of the tautological and oxymoronic relations they embody **Kant, God and Metaphysics** Edward Kanterian,2017-11-15 Kant is widely acknowledged as the

greatest philosopher of modern times He undertook his famous critical turn to save human freedom and morality from the challenge of determinism and materialism Intertwined with his metaphysical interests however he also had theological commitments which have received insufficient attention He believed that man is a fallen creature and in need of redemption He intended to provide a fortress protecting religious faith from the failure of rationalist metaphysics from the atheistic strands of the Enlightenment from the new mathematical science of nature and from the dilemmas of Christian theology itself Kant was an epistemologist a philosopher of mind a metaphysician of experience an ethicist and a philosopher of religion But all this was sustained by his religious faith This book aims to recover the focal point and inner contradictions of his thought the secret thorn of his metaphysics as Heidegger once put it It first locates Kant in the tradition of reflection on the human weakness from Luther to Hume and then engages in a critical but charitable manner with Kant's entire pre-critical work including his posthumous fragments Special attention is given to *The Only Possible Ground* 1763 one of the most difficult interesting and underestimated of Kant's works The present book takes its cue from an older approach to Kant but also engages with recent Anglophone and continental scholarship and deploys modern analytical tools to make sense of Kant What emerges is an innovative and thought provoking interpretation of Kant's metaphysics set against the background of forgotten religious aspects of European philosophy

The Art of the Text Susan R Harrow, 2013-09-15 *The Art of the Text* contributes to the fast developing dialogue between textual studies and visual culture studies It focuses on the processes through which writers think and readers respond visually and in essays by researchers in literature screen and visual studies the volume explores the visuality of the literary and non-literary text with a sustained focus on French material of the later nineteenth and twentieth centuries Visuality is appraised here not as a state but as a set of processes of adaptation resistance negotiation and transformation By reading visually the contributors here reactivate the visual textual relations of canonical texts from Romanticism to Naturalism Surrealism to high Modernism from

film to fan literature television to picture language Disguised Vices Michael Moriarty, 2011-09-08 The notions of virtue and vice are essential components of the Western ethical tradition But in early modern France they were called into question as writers most famously La Rochefoucauld argued that what appears as virtue is in fact disguised vice people carry out praiseworthy deeds because they stand to gain in some way they deserve no credit for their behaviour because they have no control over it they are governed by feelings and motives of which they may not be aware Disguised Vices analyses the underlying logic of these arguments and investigates what is at stake in them It traces the arguments back to their sources in earlier writers showing how ancient philosophers particularly Aristotle and Seneca formulated the distinction between behaviour that counts as virtuous and behaviour that only seems so It explains how St Augustine reinterpreted the distinction in the light of the difference between pagans and Christians and how medieval and early modern theologians strove to reconcile Augustine's position with that of Aristotle It examines the restatement of Augustine's position by his hard line early modern followers especially the Jansenists and the controversy to which this gave rise Finally it examines La Rochefoucauld's critique of virtue and assesses the extent of its links with the Augustinian current of thought Rhetoric and Contingency DS Mayfield, 2020-10-26 Human life is susceptible of changing suddenly of shifting inadvertently of appearing differently of varying unpredictably of being altered deliberately of advancing fortuitously of commencing or ending accidentally of a certain malleability In theory any human being is potentially capacitated to conceive of and convey the chance view or fact that matters may be otherwise or not at all with respect to other lifeforms this might be said animal's distinctive characteristic This state of play is both an everyday phenomenon and an indispensable prerequisite for exceptional innovations in culture and science contingency is the condition of possibility for any of the arts be they dominantly concerned with thinking crafting or enacting While their scope and method may differ the fact of reckoning with and taking advantage of contingency renders rhetoricians and philosophers associates after all In this regard Aristotle and Blumenberg will be exemplary hence provide the framework Between these diachronic bridgeheads close readings applying the nexus of rhetoric and contingency to a selection of Early Modern texts and authors are intercalated among them La Celestina Machiavelli Shakespeare Wilde Fontane *Baudelaire and the Making of Italian Modernity* Alessandro Cabiati, 2022-03-24 This book establishes the role of French writer Charles Baudelaire in the formation of paradigms of modernity in Italian poetry between 1857 the year of publication of Baudelaire's highly influential collection *Les Fleurs du Mal* and 1912 when the first anthology of Futurist poetry *I poeti futuristi* was published in Milan It focuses primarily on Baudelaire's influence on the poetry of the Scapigliatura a long underrated movement which in the 1860s introduced a thematic and formal modernity into Italian literature paving the way for Futurism and the twentieth century avant garde This monograph also investigates Baudelaire's and the Scapigliatura's interrelated impacts on early Futurist poetry demonstrating that Futurist poets turned to the works of Baudelaire and the Scapigliatura for inspiration on themes that were considered as distinctly unpoetic and therefore modern

Henry, 1993 Changing the Subject Raymond Geuss, 2017-10-23 For Raymond Geuss philosophers attempt to bypass normal ways of thinking to point out that the question being asked is itself misguided represents philosophy at its best By provoking people to think differently philosophers make clear that we are not fated to live within the stifling systems of thought we inherit We can change the subject **Fables of the Self** Rosanna Warren, 2008 *Fables of the Self* traces ideas of imagined selfhood through the lyric poetry of classical Greece and Rome the modernist poetry of France and modern and contemporary English and American lyrics Rosanna Warren's work emerges from the tradition of British and American poet critics such as William Empson

Donald Davie and Randall Jarrell Her readings of Sappho Virgil Baudelaire Melville Rimbaud Mark Strand and Louise Glück among others combine Helen Vendler's passionate attention to detail and something of Harold Bloom's panoramic view Warren opposes both the literalizing autobiographical approach to self in so called confessional poetry and the other extreme of avant garde erasures of self Framing her critical studies between a memoir of childhood and a concluding journal entry Warren has composed an occult autobiography showing the imagination as a transfiguring and potentially moral force
