**Women, Identities and Communities in Early Modern Europe** Stephanie Tarbin, Susan Broomhall, 2016-12-05 Addressing a key challenge facing feminist scholars today this volume explores the tensions between shared gender identity and the myriad social differences structuring women's lives By examining historical experiences of early modern women the authors of these essays consider the possibilities for commonalities and the forces dividing women They analyse individual and collective identities of early modern women

tracing the web of power relations emerging from women's social interactions and contemporary understandings of femininity. Essays range from the late medieval period to the eighteenth century, study women in England, France, Germany, Ireland, Italy, and Sweden, and locate women in a variety of social environments from household, neighbourhood, and parish to city, court, and nation. Despite differing local contexts, the volume highlights continuities in women's experiences and the gendering of power relations across the early modern world. Recognizing the critical power of gender to structure identities and experiences, this collection responds to the challenge of the complexity of early modern women's lives. In paying attention to the contexts in which women identified with other women or were seen by others to identify contributors, add new depth to our understanding of early modern women's senses of exclusion and belonging.

[Women in Early Modern Britain, 1450-1640](#) Christine Peters, 2017-03-09 Although in its infancy, the history of women in Wales and Scotland before and during the Reformation is now thriving. A longer tradition of historical studies has shed light on many areas of women's experience in England. Drawing on this historiography, Christine Peters examines the significance of contrasting social, economic, and religious conditions in shaping the lives of women in Britain. Gender assumptions were broadly similar in England, Wales, and Scotland, but female experience varied widely. *Women in Early Modern Britain, 1450-1640* explores how this was influenced by various factors, including changes in clanship and inheritance, the employment of single women, the punishment of pregnant brides, and the introduction of Protestantism, and the fusion of fairy beliefs with ideas of demonological witchcraft. Peters' text is the first comparative survey and analysis of the diversity of women's lives in Britain during the early modern period.

**Chaucer, Ethics, and Gender** Alcuin Blamires, 2006-04-06 This book makes a vigorous reassessment of the moral dimension in Chaucer's writings. For the Middle Ages, the study of human behaviour generally signified the study of the morality of attitudes, choices, and actions. Moreover, moral analysis was not gender neutral; it presupposed that certain virtues and certain failings were largely gender specific. Alcuin Blamires, mainly concentrating on *The Canterbury Tales*, discloses how Chaucer adapts the composite, inherited traditions of moral literature to shape the significance and the gender implications of his narratives. *Chaucer, Ethics, and Gender* is therefore not a theorization of ethical reading but a discussion of Chaucer's engagement with the literature of practical ethical advice. Working with the commonplace primary sources of the period, Blamires demonstrates that Stoic ideals, somewhat uncomfortably absorbed within medieval Christian moral codes, as Chaucer realized, penetrate the poet's constructions of how women and men behave in matters of friendship and anger, sexuality and chastity, protest and sufferance, generosity and greed, credulity and foresight. The book will be absorbing for all serious readers or teachers of Chaucer because it is packed with commanding new insights. It offers illuminating explanations concerning topics that have often eluded critics in the past: the flood forecast in *The Miller's Tale*, for example, or the status of emotion and equanimity in *The Franklin's Tale*, the unethical sexual trading in the *Shipman's Tale*, the contemporary moral force of a widow's curse in *The Friar's Tale*, and the quizzical moral link between the *Wife of Bath's*

Prologue and Tale There is even a new hypothesis about the conceptual design of The Canterbury Tales as a whole Deeply informed and historically alert this is a book that engages its reader in the vital role played by ethical assumptions with their attendant gender assumptions in Chaucer's major poetry A Companion to Geoffrey of Monmouth ,2020-08-10 A Companion to Geoffrey of Monmouth brings together scholars from a range of disciplines to provide an updated scholarly introduction to all aspects of his work Arguably the most influential secular writer of medieval Britain Geoffrey d 1154 popularized Arthurian literature and left an indelible mark on European romance history and genealogy Despite this outsized influence Geoffrey's own life background and motivations are little understood The volume situates his life and works within their immediate historical context and frames them within current critical discussion across the humanities By necessity this volume concentrates primarily on Geoffrey's own life and times with the reception of his works covered by a series of short encyclopaedic overviews organized by language that serve as guides to further reading Contributors are Jean Blacker Elizabeth Bryan Thomas H Crofts Si n Echard Fabrizio De Falco Michael Faletra Ben Guy Santiago Gutierrez Garcia Nahiri Ota o Gracia Paloma Gracia Georgia Henley David F Johnson Owain Wyn Jones Maud Burnett McInerney Fran oise Le Saux Barry Lewis Coral Lumbley Simon Meecham Jones Paul Russell Victoria Shirley Joshua Byron Smith Jaakko Tahkokallio H l ne Trel Rebecca Thomas Fiona Tolhurst **Chaucer and the Making of Optical Space** Peter Brown,2007 The author links Chaucer's writings with the medieval optical tradition in its various forms scholastic texts encyclopedias exempla vernacular poetry both in general cultural terms and through the discussion of specific examples He shows how the science of optics or perspectiva provides an account of spatial perception including visual error and demonstrates how these aspects of optical theory impact on Chaucer's poetry He provides detailed and sustained analysis of the spatial content of narratives across the range of Chaucer's works relating them to optical ideas and making use of Lefebvre's theory of the production of space The texts discussed include the Book of the Duchess House of Fame Knight's Tale Miller's Tale Reeve's Tale Merchant's Tale Squire's Tale and Troilus and Criseyde **Policing and Boundaries in a Violent Society** Guy Lamb,2022-01-31 This book explores how social and territorial boundaries have influenced the approaches and practices of the South Africa Police Service SAPS By means of a historical analysis of South Africa this book introduces a new concept police frontierism which illuminates the nature of the relationships between the police policing and boundaries and can potentially be used for future case study research Drawing on a wealth of research this book examines how social and territorial boundaries strongly influenced police practices and behaviour in South Africa and how social delineations amplify and distort existing police prejudices against those communities on the other side of the boundary Focusing on cases of high density police operations public order policing and the recent policing of the COVID 19 lockdown this book argues that poor economic conditions combined with an increased militarisation of the SAPS and a decline in public trust in the police will result in boundaries continuing to fundamentally inform police work in South Africa This book will be of interest to scholars and students

interested in policing in post colonial societies characterised by high levels of violence as well as police work and police militarization *Communal Discord, Child Abduction, and Rape in the Later Middle Ages* J. Goldberg, 2007-12-25 Did medieval women have the power to choose This is a question at the heart of this book which explores three court cases from Yorkshire in the decades after the Black Death Alice de Rouclif was a child heiress made to marry the illegitimate son of the local abbot and then abducted by her feudal superior Agnes Grantham was a successful businesswoman ambushed and assaulted in a forest whilst on her way to dine with the Master of St Leonard s Hospital Alice Brathwell was a respectable widow who attracted the attentions of a supposedly aristocratic conman These are their stories **Beer and Brewing in Medieval Culture and Contemporary Medievalism** John A. Geck, Rosemary O'Neill, Noelle Phillips, 2022-06-25 Beer and Brewing in Medieval Culture and Contemporary Medievalism is a cross cultural analysis of the role that alcohol consumption played in literature social and cultural history and gender roles in the Middle Ages The volume also seeks to correct or offer new insights into historical beer production By drawing on the expertise of scholars of history archaeology Old and Middle English Old Norse and Medieval and Early Modern literature the book shows how historical medieval beer and brewing has influenced nostalgic post medieval nationalism and romanticized visions of the medieval ale house seen in beer marketing today The essays describe alcohol consumption in the Middle Ages across much of Northern Europe engage with the various myths employed in modern craft beer advertising and beer production and examine how gender intersects with beer production and consumption The editors also raise certain critical questions about medievalisms which need to be interrogated particularly in light of the continued use of the Middle Ages for white supremacist and colonialist ideals The volume contributes to the study of the popular and historical understandings of the Middle Ages as well the issues of race and gender *Alcohol, Violence, and Disorder in Traditional Europe* A. Lynn Martin, 2009-10-01 Traditional Europe had high levels of violence and of alcohol consumption both higher than they are in modern Western societies where studies demonstrate a link between violence and alcohol A Lynn Martin uses an anthropological approach to examine drinking drinking establishments violence and disorder and compares the wine producing south with the beer drinking north and Catholic France and Italy with Protestant England and explores whether alcohol consumption can also explain the violence and disorder of traditional Europe Both Catholic and Protestant moralists believed in the link and they condemned drunkenness and drinking establishments for causing violence and disorder They did not advocate complete abstinence however for alcoholic beverages had an important role in most people s diets Less appreciated by the moralists was alcohol s function as the ubiquitous social lubricant and the increasing importance of alehouses and taverns as centers of popular recreation The study utilizes both quantitative and qualitative evidence from a wide variety of sources to question the beliefs of the moralists and the assumptions of modern scholars about the role of alcohol and drinking establishments in causing violence and disorder It ends by analyzing the often conflicting regulations of local regional and national governments that

attempted to ensure that their citizens had a reliable supply of good drink at a reasonable cost but also to control who drank what where when and how No other comparable book examines the relationship of alcohol to violence and disorder during this period     The Security Society Francis Dodsworth,2019-05-07 This book provides a critical engagement with the idea of the security society which has been the focus of so much attention in criminology and the social sciences more broadly Security has been argued to constitute a new mode of social ordering displacing the disciplinary society that Foucault saw as characteristic of the liberal era He saw a control society or risk society characteristic of Neo Liberalism in which the deviant behaviour of particular individuals as less important than general attempts to offset risk and reduce harm Dodsworth argues that much of this literature is extraordinarily presentist in orientation denying the long history of attempts to mitigate risk prevent harm and manage security which have always been a part of the government of order This book develops a critical history of security a thematic analysis of debates about security and aspects of the security society which puts contemporary arguments and practices in dialogue with the texts and practices of the past In doing so the book develops a cultural analysis of the meanings of security and the way these meanings have been articulated in particular practical contexts in order to understand how the promise of security has so effectively captured the imagination and channeled the effective engagement of people throughout the modern period     *Christianity and Sexuality in the Early Modern World* Merry Wiesner-Hanks,2014-05-22 The book surveys the ways in which Christian ideas and institutions shaped sexual norms and conduct from the time of Luther and Columbus to that of Thomas Jefferson It is global in scope and geographic in organization with chapters on Protestant Catholic and Orthodox Europe Latin America Africa and Asia and North America All the key topics are covered including marriage and divorce fornication and illegitimacy clerical sexuality same sex relations witchcraft and love magic moral crimes and inter racial relationships Each chapter in this second edition has been fully updated to reflect new scholarship with expanded coverage of many of the key issues particularly in areas outside of Europe Other updates include extra analysis of the religious ideas and activities of ordinary people in Europe and new material on the colonial world The book sets its findings within the context of many historical fields the history of sexuality and the body women's history legal and religious history queer theory and colonial studies and provides readers with an introduction to key theoretical and methodological issues in each of these areas Each chapter includes an extensive section on further reading surveying and commenting on the newest English language secondary literature     **The Jacquerie of 1358** Justine Firnhaber-Baker,2021 The Jacquerie of 1358 is one of the most famous and mysterious peasant uprisings of the Middle Ages This book the first extended study of the Jacquerie in over a century resolves long standing controversies about whether the revolt was just an irrational explosion of peasant hatred or simply an extension of the Parisian revolt     **Sacred Space in Early Modern Europe** Will Coster,Andrew Spicer,2005-07-28 In this 2005 book leading historians examine sanctity and sacred space in Europe during and after the religious upheavals of the early modern period     Sexual and Gender Diversity

in the Muslim World Vanja Hamzic, 2015-11-23 Discrimination on the grounds of sexual orientation or gender identity is forbidden in contemporary international human rights law yet in many interpretations of Islamic law this is seen to contradict the tenets of Islam Vanja Hamzic here offers a path breaking historical and anthropological analysis of the discourses on sexual and gender diversity in the Muslim world The first of its kind the book sheds new light on the understanding of diversity and resistance to hegemonic visions of the self in Muslim societies Combining first hand ethnographic accounts of Muslims in contemporary Pakistan including the hijra community whose pluralist sexual and gender experience defy the disciplinary gaze of both international and state law with new archival research this book provides a unique mapping of Islamic jurisprudence court practice and social developments in the Muslim world Hamzic provides a comprehensive look at the ways in which sexually diverse and gender variant Muslims are seen and see themselves within the context of the Islamic legal tradition
