Of the Sublime: Presence in Question Jean-François Courtine, 1993-01-01 Today the sublime has again become the focus of sustained reconsideration but now for its epistemological and ontological or presentational aspects As an unmasterable excess of beauty the sublime marks the limits of representational thinking These essays will be indispensable reading for anyone whose work is concerned with the sublime or more generally with the limits of representation including philosophers literary scholars and art historians *Of the Sublime: Presence in Question*, 1993-07-01 Today the sublime has again become the focus of sustained reconsideration but now for its epistemological and ontological or presentational aspects As an unmasterable excess of beauty the sublime marks the limits of representational thinking These essays will be indispensable reading for anyone whose work is concerned with the sublime or more generally with the limits of representation including philosophers literary scholars and art historians Lyotard, Beckett, Duras, and the Postmodern Sublime Andrew Slade, 2007 Original Scholarly Monograph *The Presence of the Infinite* Steve McIntosh, 2015-10-01 The Presence of the Infinite sheds new light on the important subject of spiritual experience Using the emerging insights of evolutionary spirituality integral philosopher Steve McIntosh enlarges readers capacity to have spiritual experience more abundantly and use it more effectively to improve their lives and the world around them The Presence of the Infinite starts by providing a timely cultural analysis and critique of the various forms of spirituality that are vying for influence in contemporary American society Building on this context McIntosh shows how evolutionary spirituality overcomes the limitations of religious secular and New Age spirituality by better harmonizing science and spirit Evolutionary spirituality s transcendent potential is found in its deepening realization of the essentially spiritual qualities of beauty truth and goodness McIntosh then uses evolutionary spirituality s enlarged understanding of what spiritual experience is and how it works to consider the question of ultimate reality This leads to an examination of conflicting ideas that regard spirit as either formless and nondual or as loving and creative By working to harmonize and integrate these alternative conceptions of ultimate reality McIntosh shows how evolutionary spirituality can achieve a synthesis of nondual and theistic teachings of truth that can produce a spiritual renaissance in America and beyond The Presence of the Infinite is destined to become a definitive text in the exciting new field of evolutionary spirituality **Literature and Theology** Dr Heather Walton, 2013-06-28 This book explores current trends in the interdisciplinary study of literature and theology an area of academic activity that has developed dramatically in the past twenty years The field of study originated from the impetus to embrace the richness of imaginative resources in theological reflection and was stimulated by the re emergence of the sacred in contemporary theory Since the mid 90s critical theory has undergone a number of significant transformations theology has become a subject of public concern and the boundaries between sacred and cultural texts have become increasingly unstable This book brings together the work of leading scholars in the field with that of emerging voices Offering an important resource for the growing

number of postgraduate courses exploring the relation between religion and culture in the contemporary context this book delineates current trends in interdisciplinary debate as well as tracing emerging configurations Visualizing Law in the Age of the Digital Baroque Richard K Sherwin,2012-05-23 Visualizing Law in the Age of the Digital Baroque explores the profound impact that visual digital technologies are having on the practice and theory of law Today lawyers judges and lay jurors face a vast array of visual evidence and visual argument From videos documenting crimes and accidents to computer displays of their digital simulation increasingly the search for fact based justice inside the courtroom is becoming an offshoot of visual meaning making But when law migrates to the screen it lives there as other images do motivating belief and judgment on the basis of visual delight and unconscious fantasies and desires as well as actualities Law as image also shares broader cultural anxieties concerning not only the truth of the image but also the mimetic capacity itself the human ability to represent reality What is real and what is simulation This is the hallmark of the baroque when dreams fold into dreams like immersion in a seemingly endless matrix of digital appearances When fact based justice recedes laws proliferate within a field of uncertainty Left unchecked this condition of ontological and ethical uneasiness threatens the legitimacy of law s claim to power Visualizing Law in the Age of the Digital Baroque offers a jurisprudential paradigm that is equal to the challenge that current cultural conditions present **Postmodern Ethics, Emptiness, and Literature** Jae-seong Lee,2015-12-24

This study advances contemporary postmodern poststructural critical theory literary criticism in particular with the help of Mahayana especially Ch an Seon Chinese and Korean Zen Buddhist thought The quest for theinfinity of the Other West and Emptiness or the true I East contributes to the exploration of the contemporary critical issues of ethics and infinity Such an approach will awaken our sense of unrepresented genuine transcendence and immanence The Buddhist Emptiness shows us the absolute Other illuminated on a vaster scale The theory section explores and links Eastern and Western philosophies switching between the two While discussing in depth Hegel Nietzsche Heidegger Derrida Levinas Lacan Deleuze and Nancy this study gradually guides the reader from the contemporary Western thought on the Other and infinity to the Buddhist vision of Emptiness the ultimate reality To overcome the dualistic mode of thought inherent in tradition of Western metaphysics this exploration follows the line that observes Nagarjuna and the imprint of Ch an teachings that are most prevalent in South Korean Buddhism The last three chapters demonstrate a Levinasian and Seon Buddhist approach to the book of Job part of the Judeo Christian Bible as being a more literary than religious text and the excess of the Gothic mood in the two most distinguished and widely celebrated novels Bram Stoker s Dracula and Mary Shelley s Frankenstein The three texts compel readers to confront the infinity of the absolute Other or Emptiness The Grand Prize Winner of the 7th Wonhyo Academic Awards from the Korean Buddhism Promotion Foundation **Idol Anxiety** Josh Ellenbogen,Aaron Tugendhaft,2011-07-18 This interdisciplinary collection of essays on idolatry including both historical and theoretical contributions shows that the concept of idolatry is helpful for all who study the ways that people interact with and conceive

of the things around them **Nietzsche & the Metaphysics of the Tragic** Nuno Nabais,2006-01-01 A concise and historicized analysis of the development of Nietzsche's thought on the subject of tragedy The Place of Landscape Jeff Malpas,2011-05-27 Interdisciplinary perspectives on landscape from the philosophical to the geographical with an emphasis on the overarching concept of place This volume explores the conceptual topography of landscape It examines the character of landscape as itself a mode of place as well as the modes of place that appear in relation to landscape Leading scholars from a range of disciplines explore the concept of landscape including its supposed relation to the spectatorial its character as time space its relation to indigenous notions of country and its liminality They examine landscape as it appears within a variety of contexts from geography through photography and garden history to theology and more specific studies look at the forms of landscape in medieval landscape painting film and television and in relation to national identity The essays demonstrate that the study of landscape cannot be restricted to any one genre cannot be taken as the exclusive province of any one discipline and cannot be exhausted by any single form of analysis What the place of landscape now evokes is itself a wide ranging terrain encompassing issues concerning the nature of place of human being in place and of the structures that shape such being and are shaped by it **Seeing the Apocalypse** Brandon R. Grafius,Gregory Stevenson,2021-04-22 Seeing the Apocalypse Essays on Bird Box is the first volume to explore Josh Malerman's best selling novel and its recent film adaptation which broke streaming records and became a cultural touchstone emerging as a staple in the genre of contemporary horror The essays in this collection offer an interdisciplinary approach to Bird Box one that draws on the fields of gender studies cultural studies and disability studies The contributors examine how Bird Box provokes questions about a range of issues including the human body and its existence in the world the ethical obligations that shape community and the anxieties arising from technological development Taken together the essays of this volume show how a critical examination of Bird Box offers readers a guide for thinking through human experience in our own troubled apocalyptic times **The Future of Creation Order** Govert J. Buijs,Annette K. Mosher,2019-04-16 This book investigates humanities social sciences and politics from the perspective of the concept of creation order It is the second volume in a series that provides a unique and topical overview of attempts to assess the current health of the concept of creation order within Reformational philosophy when it is compared with other perspectives Divided into a section on fundamental reflections and a section on normative practices it discusses issues such as redemption beauty nature love justice morality and ethics It concludes with discussions on a practice based theory to explain religion in international relations and a normative model for the practice of cooperation in development This series reflects the role that the branch of Christian philosophy called Reformational philosophy plays in the discussion on the status of laws of nature Ever since its inception almost a century ago the concepts of order and law principle structure have been at the heart of this philosophy One way to characterise this tradition is as a philosophy of creation order Firmly rejecting both scholastic metaphysics and Deism Reformational philosophers have

maintained the notion of law as holding for reality Questions have arisen about the nature of such law is it a religious or philosophical concept does law just mean orderliness How does it relate to laws of nature Have they always existed or do they emerge during the process of evolution

Literary Texts & the Arts Corrado Federici, Esther Raventós-Pons, 2003
 Literary Texts the Arts s sixteen essays explore numerous aspects of both the theoretical and applied relationships between textuality in the form of novels plays and poems and visuality in the form of the photographic artistic or cinematic image Topics range from the linguistic and artistic attempts to express the inexpressible or the transcendent in notions of the sublime where the essence of phenomena eludes the communicative and epistemological capacity of words and images to postmodern representations of time and cinematic adaptations of literary texts The photographic image is also examined as autonomous language that stands in opposition to the verbal and the written text and as a complementary mode that shares some communicative structures and modalities with the word while not being reducible to it The thread that runs through all of the essays is the assertion of the constructive or power of the word spoken recited written and the image representational mimetic nonrepresentational to create meanings as well as the implication that somehow that capacity is partial because it is limited by the inherent nature of the means of expression

Nietzsche's Engagements with Kant and the Kantian Legacy
 Marco Brusotti, Herman Siemens, João Constâncio, Tom Bailey, 2017-02-23 Nietzsche has often been considered a thinker independent of the philosophy of his time and radically opposed to the concerns and concepts of modern and contemporary philosophy But there is an increasing awareness of his sophisticated engagements with his contemporaries and of his philosophy s rich potential for debates with modern and contemporary thinkers Nietzsche s Engagements with Kant and the Kantian Legacy explores a significant field for such engagements Kant and Kantianism Bringing together an international team of established Nietzsche scholars who have done extensive work in Kant contributors include both senior scholars and young upcoming researchers from a broad range of countries and traditions Working from the basis that Nietzsche is better understood as thinking with and against Kant and the Kantian legacy they examine Nietzsche s explicit and implicit treatments of Kant Kantians and Kantian concepts as well as the philosophical issues that they raise for both Nietzschean and Kantian philosophy Divided into three volumes the focus is on specific areas and texts of Kant s philosophy Nietzsche Kant and the Problem of Metaphysics Nietzsche and Kantian Ethics Nietzsche and Kant on Aesthetics and Anthropology Each volume draws extensively on the flourishing recent literature from both analytic and continental traditions in English German and other languages By responding to scholarly interest in the critical relations between Nietzsche and Kant this series of volumes presents the first systematic study of the pairing of two major European thinkers from the modern period

Object to Be Destroyed Pamela M. Lee, 2001-08-24 In this first critical account of Matta Clark s work Pamela M Lee considers it in the context of the art of the 1970s particularly site specific conceptual and minimalist practices and its confrontation with issues of community property the alienation of urban space the right to the city and the ideologies of

progress that have defined modern building programs Although highly regarded during his short life and honored by artists and architects today the American artist Gordon Matta Clark 1943-78 has been largely ignored within the history of art Matta Clark is best remembered for site specific projects known as building cuts Sculptural transformations of architecture produced through direct cuts into buildings scheduled for demolition these works now exist only as sculptural fragments photographs and film and video documentations Matta Clark is also remembered as a catalytic force in the creation of SoHo in the early 1970s Through loft activities site projects at the exhibition space 112 Greene Street and his work at the restaurant Food he participated in the production of a new social and artistic space Have art historians written so little about Matta Clark's work because of its ephemerality or as Pamela M Lee argues because of its historiographic political and social dimensions What did the activity of carving up a building in anticipation of its destruction suggest about the conditions of art making architecture and urbanism in the 1970s What was one to make of the paradox attendant on its making that the production of the object was contingent upon its ruination How do these projects address the very writing of history a history that imagines itself building toward an ideal work in the service of progress In this first critical account of Matta Clark's work Lee considers it in the context of the art of the 1970s particularly site specific conceptual and minimalist practices and its confrontation with issues of community property the alienation of urban space the right to the city and the ideologies of progress that have defined modern building programs

Meaning, Truth, and Reference in Historical Representation

Frank Ankersmit, 2012-05-04 In this book the noted intellectual historian Frank Ankersmit provides a systematic account of the problems of reference truth and meaning in historical writing He works from the conviction that the historicist account of historical writing associated primarily with Leopold von Ranke and Wilhelm von Humboldt is essentially correct but that its original idealist and romanticist idiom needs to be translated into more modern terms Rehabilitating historicism for the contemporary philosophy of history he argues reveals the basic truths about the nature of the past itself how we relate to it and how we make sense of the past in historical writing At the heart of Ankersmit's project is a sharp distinction between interpretation and representation The historical text he holds is first and foremost a representation of some part of the past not an interpretation The book's central chapters address the concept of historical representation from the perspectives of reference truth and meaning Ankersmit then goes on to discuss the possible role of experience in the history writing which leads directly to a consideration of subjectivity and ethics in the historian's practice Ankersmit concludes with a chapter on political history which he maintains is the basis and condition of all other variants of historical writing Ankersmit's rehabilitation of historicism is a powerfully original and provocative contribution to the debate about the nature of historical writing

Kant on Sublimity and Morality Joshua W Rayman, 2012-07-15 The sublime is the experience of what is great in power size or number Historically from ancient times to the present this aesthetic experience has always been associated with morality but in order to exclude evil fascistic or terroristic uses of the sublime we require a systematic justification of

the claim that there are internal moral constraints on the sublime The author argues that Immanuel Kant alone provides this account binding sublimity to moral ideas the exhibition of freedom the production of respect and violence toward inclinations
