Of Vines And Missions:

Of Vines and Missions Alvin J. Gordon, 1971 **The City of Vines** Thomas Pinney, 2017-12-07 The author of *A History of Wine in America* recounts the beginnings of California's wine trade in the once isolated pueblo now called Los Angeles. Winner of the 2016 California Historical Society Book Award. With incisive analysis and a touch of dry humor, *The City of Vines* chronicles winemaking in Los Angeles from its beginnings in the late eighteenth century through its decline in the 1950s. Thomas Pinney returns the megalopolis to the prickly pear studded lands upon which Mission grapes grew for the production of claret, port, sherry, angelica, and hock. From these rural beginnings, Pinney reconstructs the entire course of winemaking in a sweeping narrative punctuated by accounts of particular enterprises including Anaheim's foundation as a German winemaking settlement and the undertakings of vintners scrambling for market dominance. Yet Pinney also shows Los Angeles's wine industry to be beholden to the forces that shaped all California under the flags of Spain, Mexico, and the United States: colonial expansion dependent on labor of indigenous peoples, the Gold Rush, population boom, transcontinental railroads, rapid urbanization, and Prohibition. This previously untold story uncovers an era when California wine meant Los Angeles wine and reveals the lasting ways in which the wine industry shaped the nascent metropolis. **The California Vine Disease** Newton Barris Pierce, 1892 Bulletin United States. Division of Botany, 1892 **Empire of Vines** Erica Hannickel, 2013-10-09 The lush, sun-drenched vineyards of California evoke a romantic agrarian image of winemaking, though in reality the industry reflects American agribusiness at its most successful. Nonetheless, as author Erica Hannickel shows, this fantasy is deeply rooted in the history of grape cultivation in America. *Empire of Vines* traces the development of wine culture as grape growing expanded from New York to the Midwest before gaining ascendancy in California, a progression that illustrates viticulture's centrality to the nineteenth-century American projects of national expansion and the formation of a national culture. *Empire of Vines* details the ways would-be gentleman farmers, ambitious speculators, horticulturalists, and writers of all kinds deployed the animating myths of American wine culture, including the classical myth of Bacchus, the cult of terroir, and the fantasy of pastoral republicanism. Promoted by figures as varied as horticulturalist Andrew Jackson Downing, novelist Charles Chesnut, railroad baron Leland Stanford, and Cincinnati land speculator Nicholas Longworth—known as the father of American wine—these myths naturalized claims to land for grape cultivation and legitimated national expansion. Vineyards were simultaneously lush and controlled, bearing fruit at once culturally refined and naturally robust, laying claim to both earthy authenticity and social pedigree. The history of wine culture thus reveals nineteenth-century Americans' fascination with the relationship between nature and culture. Bulletin United States. Division of Vegetable Physiology and Pathology, 1891 *Bulletin* U.S. Dept. of Agriculture. Division of vegetable physiology and pathology, 1891 Department Bulletin United States. State Board of Agriculture, 1912 *General Viticulture* Albert Julius Winkler, 1974-12-13 Wherever grapevines are cultivated this book will be welcome because it fills longstanding need for a clear concise treatment of modern viticulture The chapters on vine structure vine physiology the grape flower and berry set development and composition of grapes and means of improving grape quality add to our knowledge of the vine and its functions The text is designed to enable those concerned with either vine or fruit problems to arrive at considered diagnoses
