Jaffe,2017-03-09 The cause of great power war is a perennial issue for the student of politics Some 2 400 years ago in his monumental History of the Peloponnesian War Thucydides wrote that it was the growth of Athenian power and the fear that this power inspired in Sparta which rendered the Peloponnesian War somehow necessary inevitable or compulsory In this new political psychological study of Thucydides first book S N Jaffe shows how the History s account of the outbreak of the war ultimately points toward the opposing characters of the Athenian and Spartan regimes disclosing a Thucydidean preoccupation with the interplay between nature and convention Jaffe explores how the character of the contest between Athens and Sparta or how the outbreak of a particular war can reveal Thucydides account of the recurring human causes of war and peace The political thought of Thucydides proves bound up with his distinctive understanding of the interrelationship of particular events and more universal themes **The Wages of War** Richard Severo,Lewis Milford,2016-03-08 A disturbing chronicle of the US government s mistreatment of American soldiers and veterans throughout history with a new introduction by Charles Sheehan Miles Time and time again the sacrifices made by veterans and their families have been repaid with scorn discrimination lack of health services scant financial compensation and other indignities This injustice dates back as far as the American Revolution when troops came home penniless and without prospects for work yet had to wait decades before the government paid them the wages they were owed When soldiers returned from the Cuban campaign after the Spanish American War they were riddled with malaria typhoid yellow fever and dysentery but the government refused to acknowledge their illnesses and finally dumped them in a makeshift tent city on Long Island where they were left to starve and die Perhaps the most infamous case of disgraceful behavior toward veterans happened after the Vietnam War when soldiers were forced to battle bureaucrats and lawyers and suffer media slander because they asked the government and chemical industry to help them cope with the toxic aftereffects of Agent Orange In The Wages of War authors Richard Severo and Lewis Milford not only uncover new information about the controversial use of this defoliant in Vietnam and the subsequent class action suit brought against its manufacturers but also present fresh information on every war in US history The result is exhaustive proof that save for the treatment of soldiers in the aftermath of World War II the government s behavior towards American servicemen has been more like that of a slippery insurance company than a policy rooted in the idea of justice and fair reward *Annual Report of the Secretary of War* United States. War Dept,1916 **Interpretation of War Statutes** , *Report of the Secretary of War, which Accompanied the Annual Message of the President of the United States, to Both Houses of the ... Congress* ,1916 Religious Zionism, Jewish Law, and the Morality of War Robert Eisen,2017 This study is a pioneering exploration of how rabbis in the religious Zionist community in Israel constructed a body of Jewish law on war It focuses on five leading rabbis in this camp and how they dealt with a number of key moral issues that the waging of war raised **A Solemn Review of the Custom of War** Noah Worcester,1816 *Pamphlet Series* World Peace Foundation,1914 The Politics of the First World War Scott

Plots of War Isabel Capeloa Gil,Adriana Martins,2012-10-30 *Plots of War* Modern Narratives of Conflict discusses the dynamics of change and transformation that underlie the troubled project of modernity and shows how deeply it has been shaped by war and violence The narrative of war the emplotment of violence in historic and mainly in symbolic terms is deeply embedded in the construction of individual and collective memories but it also helps to shape the mediation of future conflicts What is ultimately at stake here is the complex figuration and mediation of the violence of war in ever more hyper mediated ways with direct consequences to the production of identities and processes of cultural memory
