Progressives, Pluralists, and the Problems of the State Marc Stears, 2002-06-13 In the first three decades of the twentieth century two groups of radical political theorists one American and one British were bound together in a unique ideological relationship Pluralists Progressives and the Problems of the State provides the first comprehensive examination of the intellectual dialogue that constituted that bond Drawing on extensive original archival research and employing conceptual institutional and historical analysis the book examines the efforts of these two initially distinctive political movements to forge a single ideology capable of motivating far reaching reform in both of their countries In so doing it challenges traditional narratives emphasizing the exceptional development of American progressivism and British socialism arguing instead that the intellectual aspirations and political programmes of both were constantly shaped and reshaped by international ideological exchange Such an analysis transforms our understanding of the complex political demands of these movements and enables the works of their leading protagonists including G D H Cole Herbert Croly Harold Laski and Walter Lippmann to emerge as rich and sophisticated contributions to modern political thought **Emerging Perspectives on**

Skarlicki, 2003-07-01 The chapters in this volume offer new and innovative ways to view values related to fairness as well as work related values their antecedents and consequences All have been peer reviewed prior to their publication This volume consists of two parts The first part focuses on value based theories in organizations The papers in this section address issues such as how to define classify and study values how values influence fairness by influencing what people believe what they deserve how one's own identity relates to fairness perceptions and how values and norms affect the way that people perceive or construe events **Mechanical Behaviour of Materials** Dominique François, André Pineau, André Zaoui, 1998-11-30 Designing new structural materials extending lifetimes and guarding against fracture in service are among the preoccupations of engineers and to deal with

these they need to have command of the mechanics of material behaviour The first volume of this two volume work deals with elastic and elastoplastic behaviour this second volume continues with viscoelasticity damage fracture resistance to cracking and contact mechanics As in Volume I the treatment starts from the active mechanisms on the microscopic scale and develops the laws of macroscopic behaviour Chapter 1 deals with viscoplastic behaviour as shown for example at low temperatures by the effects of oscillatory loads and at high temperatures by creep under steady load Chapter 2 treats damage phenomena encountered in all materials for example metals polymers glasses concretes such as cavitation fatigue and stress corrosion cracking Chapter 3 treats those concepts of fracture mechanics that are needed for the understanding of resistance to cracking and Chapter 4 completes the volume with a survey of the main concepts of contact mechanics As with Volume I each chapter has a set of exercises either with solutions or with indications of how to attack the problem and there are many explanatory diagrams and other illustrations

Poverty, Inequality and the Critical Theory of Recognition

Gottfried Schweiger, 2020-07-20 This book brings together philosophical approaches to explore the relation of recognition and poverty This volume examines how critical theories of recognition can be utilized to enhance our understanding evaluation and critique of poverty and social inequalities Furthermore chapters in this book explore anti poverty policies development aid and duties towards the global poor This book includes critical examinations of reflections on poverty and related issues in the work of past and present philosophers of recognition This book hopes to contribute to the ongoing and expanding debate on recognition in ethics political and social philosophy by focusing on poverty which is one highly important social and global challenge If one believed that the theme of recognition had been theoretically exhausted over the last couple of years this book sets the record straight The central point of all the studies collected here is that poverty is best understood in its social causes psychic consequences and moral injustice when studied within the framework of recognition theory Regardless of how recognition is defined in detail poverty is best captured as the absence of all material and cultural conditions for being recognized as a human being Whoever is interested in the many facets of poverty is well advised to consult this path breaking book Axel Honneth Columbia University

Homo Curator: Towards the Ethics of Consumption Péter Róna, László Zsolnai, Agnieszka

Winiewicz-Price, 2024-02-20 This book explores the under researched sources of the consumerist culture and the

environmental damage it has brought about The book is an outcome of the symposium on The Ethics of Consumption organised and hosted by the Las Casas Institute at the Blackfriars Hall University of Oxford as part of its Economics as a Moral Science Programme It takes on two contemporary problems the human weakness and capacity for wrong doing and the failure of modern economic theory to account for the moral character of human behaviour and its implicit encouragement of gluttonous life styles In a time when grand political schemes are proposed to revive sustainability of global economy the authors of the papers collected in this book highlight the need for moral renewal without which the most revolutionary structural reforms are bound to fail at producing the desired outcome Topics of the book include the meaning and sources of avarice the attempt to define what is enough exploration of philosophical and theological perspectives which can serve as building blocks for the ethics of consumption This makes the book of great interest to a broad readership of economists social scientists and philosophers Strategic And Critical Materials L. Harold Bullis, James E Mielke, L Harold Bullis, 2019-06-18 Much attention has been focused on U S dependency on imports for supplies of strategic minerals and materials There is alarm about the extent of that dependency and about the possibility that U S economic political and strategic decisions might be unduly influenced by arbitrary actions of foreign suppliers In addition there is concern that t **Narratives of Justice** Grant Reeher, 1996-04-29 DIVAn intriguing look into the minds of legislators div *Dark Pasts* Jennifer M. Dixon, 2018-11-15 In *Dark Pasts* Jennifer M Dixon asks why states deny past atrocities and when and why they change the stories they tell about them In recent decades states have been called on to acknowledge and apologize for historic wrongs Some have apologized while others have silenced denied and relativized past crimes *Dark Pasts* unravels the complex and fraught processes through which state narratives of past atrocities are constructed contested and defended Focusing on Turkey s narrative of the Armenian Genocide and Japan s narrative of the Nanjing Massacre Dixon shows that international pressures increase the likelihood of change in states narratives of their own dark pasts even as domestic considerations determine their content Combining historical richness and analytical rigor *Dark Pasts* is a revelatory study of the persistent presence of the past and the politics that shape narratives of state wrongdoing **Empire's Wake: Postcolonial Irish Writing and the Politics of Modern Literary Form** Mark Quigley, 2013 Traces development of Irish literary modernism from the 1920s to the 1990s through the writings of James Joyce John Millington Synge Samuel Beckett Sean O Faolain Frank McCourt and the *Basket Island* autobiographers Tomas O Crohan and Maurice O Sullivan Considers Irish literature in relation to Irish nationalism and aftermath of British empire **Money and the Age of Shakespeare: Essays in New Economic Criticism** L. Woodbridge, 2015-12-25 In this collection literary scholars theorists and historians deploy new economic techniques to illuminate English Renaissance literature in fresh ways Contributors variously explore poetry s precarious perch between gift and commodity the longing for family in *The Comedy of Errors* as symbolically expressing the alienating pressures of mercantilism *Measure for Measure* s representation of singlewomen and the feminization of poverty the collision between

two views of money in a possible collaboration between Shakespeare and Middleton the cultural spread of an accounting mentality and quantitative thinking and money as it crosses the frontier between price and pricelessness and from early bodily injury insurance schemes to *The Merchant of Venice* **Sophocles and the Politics of Tragedy** Jonathan N.

Badger, 2013-03-05 *Sophocles and the Politics of Tragedy* is an inquiry into a fundamental political problem made visible through the tragic poetry of Sophocles In part I Badger offers a detailed exegesis of three plays *Ajax* *Antigone* and *Philoctetes* These plays share a common theme illuminating a persistent feature of political life namely the antagonism between the heroic commitment to the beautiful and the transcendent on the one hand and the community's need for bodily safety and material security on the other This conceptual structure not only helps us understand these plays but also establishes a distinctive vision of the tragic dimension of political life a vision that can be applied fruitfully to examinations of political projects quite distant from the world of fifth century Athens Such an application is the aim of part II in which Badger coordinates the results of the inquiries of part I and applies them to a consideration of the competing claims of three strands of medieval and early modern political philosophy ecclesiastical rule scientific domination and liberal government Badger identifies the last of these early modern liberalism as a tragic politics that seeks to sustain and contain the tension between transcendent longing and material need **Mechanics of Materials** Bichara B.
