Of Midnight Tales Obsessed! George D. Kovach, 1999-03-01 [The Birthmark \(A Dark Tale of Love & Obsession\)](#)
Nathaniel Hawthorne, 2023-11-28 In *The Birthmark* Nathaniel Hawthorne weaves a dark and poignant tale that explores the themes of love obsession and the human condition. The narrative follows Aylmer, a scientist obsessively determined to remove a small birthmark from his wife Georgiana's cheek, viewing it as a blemish that mars her otherwise perfect beauty. Through Hawthorne's rich symbolism and masterful use of Gothic elements, this novella illuminates the tension between the pursuit of perfection and the acceptance of human imperfection, framing it in the broader context of Romanticism and Transcendental thought. It raises profound ethical questions regarding the nature of love and the limits of scientific ambition. Nathaniel Hawthorne, an emblematic figure of 19th-century American literature, drew on his Puritan heritage and personal experiences to inform his writing. Hawthorne's fascination with moral complexities and the darker aspects of the human psyche manifests in this story, reflecting a personal struggle with societal expectations and the fear of losing one's humanity in the blind pursuit of ideals. His keen psychological insight is evident, allowing readers to empathize deeply with both Aylmer and Georgiana. I highly recommend *The Birthmark* to readers seeking a thought-provoking exploration of obsession and the human spirit. Hawthorne's work invites introspection and encourages discussion, making it a timeless piece that resonates with contemporary themes in a world continually grappling with the ideals of perfection.

Love and Ruin: Tales of Obsession, Danger, and Heartbreak from The Atavist Magazine Evan Ratliff, 2016-07-26 Extraordinary stories of crime, passion, and adventure from *The Atavist* magazine, the trailblazing leader in longform narrative writing. Since its inception, *The Atavist Magazine* has been a pioneer of today's longform journalism renaissance. Now *Love and Ruin* brings ten of the magazine's most astonishing stories into print for the first time. These writers have taken reporting to the extremes of nature, turned inward to explore what makes us human, and burrowed deep into archives in search of mysterious figures and events more surprising than anything in contemporary fiction. What unifies these nonfiction masterpieces is the keen eye with which their writers capture the details of human experience and their knack for hooking us into a story and never letting go. With stories by James Verini, Leslie Jamison, Vanessa Veselka, Jon Mooallem, Cris Beam, Brooke Jarvis, David Dobbs, Adam Higginbotham, Evan Ratliff, Matthew Shaer.
