Of Mines And Men Australias 20th Century Mining Miracle 1945 1985:

Australia's 20th Century Mining Miracle 1945-1985 of Mines and Men Max Griffiths, *Of Mines and Men* Max Griffiths,1998 **The Pilbara** Bradon Ellem,2017 The Pilbara a large thinly populated region in the north of Western Australia has become central to the Australian economy and imagination With millions of tons of iron ore shipped to China the Pilbara is a media staple through stories of mining companies profits the earnings of fly in fly out workers and the wealth of new entrepreneurs For all this what we know about a vital region such as the Pilbara remains incomplete The boomtime stories do not reveal much about the Pilbara itself a place completely transformed across fifty years of mining No one has acknowledged the Pilbara s ancient history or the men and women who worked there from the 1960s building unions and making communities as they worked the mines In those days the Pilbara excited both hope and dread about its workers and their power From the deserts prophets come AD Hope wrote years before in his poem Australia And it appeared that the Pilbara might be the site of a novel kind of unionism with workers winning not only high wages but control of the places where they worked and the towns where they lived But it was not to be Starting in the 1980s the companies fought back defeating the unions and remaking the Pilbara The managers were now the prophets with new ways of organising work and managing workers The companies reinvented the Pilbara through workplace control fly in fly out labor and twelve hour shifts Their vision reshaped not just the desert but the cities not just the work in mines and ports but in offices and shops When the biggest boom in mining history came along it unfolded across a Pilbara landscape very different from a generation earlier The union prophets were gone the companies profits grew This book reveals the story of fifty years of conflict over work and life in the Pilbara and how this conflict has affected the rest of Australia Subject Australian Studies Labor History **The Architecture of Industry** Mathew Aitchison,2016-03-16 From the Rust Belt to Silicon Valley the intersection between architecture and industry has provided a rich and evolving source for historians of architecture In a historical context industrial architecture evokes the smoking factories of the nineteenth century or Fordist production complexes of the twentieth century This book documents the changing nature of industrial building and planning from the end of the nineteenth century to the beginning of the twenty first century Drawing on research from the United States Europe and Australia this collection of essays highlights key moments in industrial architecture and planning representative of the wider paradigms in the field Areas of analysis include industrial production factories hydroelectricity aerospace logistics finance scientific research and mining The selected case studies serve to highlight architectural and planning innovations in industry and their contributions to wider cultural and societal currents This richly illustrated collection will be of interest for a wide range of built environment studies incorporating findings from both historical and theoretical scholarship and design research **Wife or Worker?** Nicola Piper,Mina Roces,2004-09-01 This volume challenges the dominant discourse that perceives Asian women as either mail order brides or overseas workers Providing the first sustained critique of the artificial

analytical division between brides and workers the book demonstrates women's transition from brides to workers and from workers to brides Focusing on how women workers use marriage as a strategy to gain citizenship and how migrants for marriage become workers the authors present these modern Asian women in their multidimensional roles as wives workers mothers and citizens The case studies explore a wide gamut of experiences including Filipino caregivers in Canada Thai sex workers in Germany Filipino brides in Australia Singaporean expatriates in Shanghai Taiwanese families split between Taiwan and California Asian migrants for marriage in Japan and Filipino domestic helpers in Spain and Italy All of these show the multiplicity of roles women maintain and emphasize the point that marriage work and migration are inextricably linked
