### **Summa Theologiae, Prima Pars: Volume 3, Human Beings and God's Governance of Creation, QQ 75-119**

Thomas Aquinas, Thomas de Vio Cajetan, 2023-06-23 This book is an introduction to three questions on love according to St Thomas Aquinas Summa Theologiae I II qq 26 28 These three questions reflect on the nature of love q 26 the causes of love q 27 and the effects of love q 28 It is thus an introduction to the entire phenomenon of love both as a bodily passion and an act of the will The purpose is to present the Thomistic and broadly scholastic account of human and divine love from a philosophical and theological perspective It aims to be a theological and philosophical study of the topic useful both for a graduate professional audience as part of an undergraduate or graduate course and perhaps for the educated reader The thesis of the book is that contrary to contemporary conceptions not all loves are created equal Some loves perfect us and some loves corrupt us The worth of a love depends on its object and end St Thomas thus presents an objective and teleological account of human and divine love that is of philosophical and theological interest The method is broadly exegetical presenting a careful reading of the text and supplying the philosophical and theological background which the text of Aquinas assumes The scope of the work is limited to three questions ST I II qq 26 28 References to interpretative disputes of Aquinas and references to further resources in the secondary literature will be mostly limited to the footnotes making the body of the text accessible to more readers

**The Structure of the Mind** Francesco Belfiore,2004-04-08 This book represents a unique attempt to restore a new classical aspiration towards a philosophical system able to provide some certainties Using the distinctive feature of presenting an original and complete philosophical system author Francesco Belfiore diverges from the philosophical literature of the last decades which has been ever more focused upon specific fields Belfiore shows how failure to recognize this fundamental requirement of any philosophical inquiry has led to difficulties and misunderstandings in interpretation Through his novel approach Belfiore offers novel solutions in the fields of ontology knowledge language esthetics politics and ethics      **Powers** Julia Jorati,2021-05-05 Why does a wine glass break when you drop it whereas a steel goblet does not The answer may seem obvious glass unlike steel is fragile This is an explanation in terms of a power or disposition the glass breaks because it possesses a particular power namely fragility Seemingly simple such intrinsic dispositions or powers have fascinated philosophers for centuries A power s central task is explaining why a thing changes in the ways that it does rather than in other ways powers should explain why an acorn turns into an oak tree not a sunflower or why fire burns wood and wood can catch fire This volume examines the twists and turns of the fascinating history of a difficult philosophical concept focusing on the metaphysical sense of powers that is the powers that are invoked in the explanation of natural changes and activities Scholars probe the views of thinkers from antiquity to the present day Anaxagoras Plato the Stoics Abelard Anselm Henry of Ghent Gottfried Wilhelm Leibniz Margaret Cavendish Mary Shepherd Immanuel Kant Georg Wilhelm Friedrich

Hegel and numerous others In addition the volume contains four short reflection essays that examine the concept of powers from the perspective of disciplines other than philosophy namely history of music West African religions history of chemistry and history of art The history of philosophy brims with controversies surrounding the concept of power and these controversies have not diminished particularly as potentialities or powers see a revival in contemporary analytic metaphysics Hence telling the history of philosophical theories of powers means exploring the trajectory of a concept whose importance to the past and present of philosophy can hardly be overstated      **Psychology and the Other Disciplines** Paul J.J.M.

Bakker, Sander W. de Boer, Cees Leijenhorst, 2012-10-12 Psychology and the Other Disciplines looks at how Aristotelian psychology developed from the medieval to the early modern period by studying its interactions with the other philosophical disciplines medicine and theology      **Divine Powers in Late Antiquity** Anna Marmodoro, Irini-Fotini Viltanioti, 2017-01-26

Is power the essence of divinity or are divine powers distinct from divine essence Are they divine hypostases or are they divine attributes Are powers such as omnipotence omniscience etc modes of divine activity How do they manifest In which way can we apprehend them Is there a multiplicity of gods whose powers fill the cosmos or is there only one God from whom all powers derive and whose powers permeate everything These are questions that become central to philosophical and theological debates in Late Antiquity roughly corresponding to the period 2nd to the 6th centuries On the one hand the Pagan Neoplatonic thinkers of this era postulate a complex hierarchy of gods whose powers express the unlimited power of the ineffable One On the other hand Christians proclaim the existence of only one God one divine power or one Lord of all powers Divided into two main sections the first part of Divine Powers in Late Antiquity examines aspects of the notion of divine power as developed by the four major figures of Neoplatonism Plotinus c 204 270 Porphyry c 234 305 Iamblichus c 245 325 and Proclus 412 485 It focuses on an aspect of the notion of divine power that has been so far relatively neglected in the literature Part two investigates the notion of divine power in early Christian authors from the New Testament to the Alexandrian school Clement of Alexandria Origen Athanasius the Great and further to the Cappadocian Fathers Basil the Great Gregory of Nyssa as well as in some of these authors sources the Septuagint Philo of Alexandria The traditional view tends to overlook the fact that the Bible particularly the New Testament was at least as important as Platonic philosophical texts in the shaping of the early Christian thinking about the Church's doctrines Whilst challenging the received interpretation by redressing the balance between the Bible and Greek philosophical texts the essays in the second section of this book nevertheless argue for the philosophical value of early Christian reflections on the notion of divine power The two groups of thinkers that each of the sections deal with the Platonic Pagan and the Christian one share largely the same intellectual and cultural heritage they are concerned with the same fundamental questions and they often engage in more or less public philosophical and theological dialogue directly influencing one another      *Aquinas* Eleonore Stump, 2008-01-28 In this extensive and deeply researched study Eleonore Stump examines Aquinas major works and clearly assesses the vast

range of Aquinas thought This will be an unrivalled study and an indispensable resource for studying Aquinas **The Living Age**, 1908 **Philosophy in Late Antiquity** Andrew Smith, 2004-07-31 Philosophy in Late Antiquity provides an essential new introduction to the key ideas of the Neoplatonists which affected approaches to Plato as late as the nineteenth century Andrew Smith shows how they influenced Christian thought and his approach not only allows us to appreciate these philosophical ideas in their own right but it also gives us significant insights into the mentality of the age which produced them *Witchcraft in Europe, 400-1700* Alan Charles Kors, Edward Peters, 2001 A thoroughly revised greatly expanded edition of the most important documentary history of European witchcraft ever published **The Witchcraft Sourcebook** Brian P. Levack, 2004 This collection of trial records laws treatises sermons speeches woodcuttings paintings and literary texts illustrates how contemporaries from various periods have perceived alleged witches and their activities **The "Summa Theologica: 1:1.
