Of The Spirit Writings:

Saint Ignatius Loyola--The Spiritual Writings Saint Ignatius (of Loyola), Mark Mossa, 2012 Excerpts from The Spiritual Exercises his autobiography and his collected letters and instructions provide direct insights from Ignatius about the role of humility obedience discernment sin and selfawareness in spiritual life **The Writing of Spirit** Sarah M.

Pourciau, 2017-05-01 Contemporary thought has been profoundly shaped by the early twentieth century turn toward synchronic models of explanation which analyze phenomena as they appear at a single moment rather than diachronically as they develop through time But the relationship between time and system remains unexplained by the standard account of this shift Through a new history of systematic thinking across the humanities and sciences The Writing of Spirit argues that nineteenth century historicism wasn't simply replaced by a more modern synchronic perspective The structuralist revolution consisted rather in a turn toward time's absolutely minimal conditions and thus also toward a new theory of diachrony Pourciau arrives at this surprising and powerful conclusion through an analysis of language scientific theories over the course of two centuries associated with thinkers from Jacob Grimm and Richard Wagner to the Russian Futurists in domains as disparate as historical linguistics phonology acoustics opera theory philosophy poetics and psychology The result is a novel contribution to a pressing contemporary question namely what role history should play in the interpretation of the present *A Compendium of the Theological and Spiritual Writings of Emanuel Swedenborg* Emanuel Swedenborg, 1854

Between Dancing and Writing Kimerer L. LaMothe, 2004 This book provides philosophical grounds for an emerging area of scholarship the study of religion and dance In the first part LaMothe investigates why scholars in religious studies have tended to overlook dance or rhythmic bodily movement in favor of textual expressions of religious life In close readings of Descartes Kant Schleiermacher Hegel and Kierkegaard LaMothe traces this attitude to formative moments of the field in which philosophers relied upon the practice of writing to mediate between the study of religion on the one hand and theology on the other In the second part LaMothe revives the work of the theologian phenomenologist and historian of religion Gerardus van der Leeuw for help in interpreting how dancing can serve as a medium of religious experience and expression In so doing LaMothe opens new perspectives on the role of bodily being in religious life and on the place of theology in the study of religion
