composers it also expands upon the mores of Parisian Musical society 1870 1939 and discusses in greater detail than before the prevalent influences and restrictions which might have had a bearing on a young composer Widor s printed and unpublished works are discussed as are those of his pupil Louis Vierne alongside a more detailed and possibly provocative discussion of the latter s life and loves and their relevance to that composer s compositions His completely unknown cantate lyrique Praxino is also revealed The greater part of Visions of Eternity is given over to a discussion of the influences that affected another of Widor s pupils Charles Tournemire in both temporal and theological terms His individual musical language discussing both his use of traditional Latin and Indian chants quixotic character and amours are also investigated This is a book of great musical relevance for it deals with composers and issues which greatly influenced later French musicians particularly Maurice Durufl Jean Yves Daniel Lesur Jean Langlais and Olivier Messiaen these in turn passed their knowledge to more contemporary composers Whilst this book has been researched in great depth its content is delivered with a light occasionally humorous touch This is not a dry academic work but one for both the cognoscenti and enthusiast alike
