Off Screen Four Young Artists In The Middle East:

Off Screen Al Braithwaite, 2004-09 A year long journey Sept 02 Sept 03 through Turkey Iran Kurdish Iraq UAE Oman Yemen Saudi Arabia Jordan Syria Iraq and Israel *Contemporary Iranian Art* Talinn Grigor, 2014-06-15 In the first comprehensive look at Iranian art and visual culture since the 1979 revolution Talinn Grigor investigates the official art sponsored by the Islamic Republic the culture of avant garde art created in the studio and its display in galleries and museums and the art of the Iranian diaspora within Western art scenes Divided into three parts street studio and exile the book argues that these different areas of artistic production cannot be understood independently revealing how this art offers a mirror of the sociopolitical turmoil that has marked Iran's recent history Exploring the world of galleries museums curators and art critics Grigor moves between subversive and daring art produced in private to propaganda art martyrdom paraphernalia and museum interiors She examines the cross pollination of kitsch and avant garde the art market state censorship the public private domain the political implications of art and artistic identity in exile Providing an astute analysis of the workings of artistic production in relation to the institutions of power in the Islamic Republic this beautifully illustrated book is essential reading for anyone interested in Iranian history and contemporary art *A Documentary History of Modern Iraq* Stacy E. Holden, 2012-07-08 Previously published histories and primary source collections on the Iraqi experience tend to be topically focused or dedicated to presenting a top down approach By contrast Stacy Holden's *A Documentary History of Modern Iraq* gives voice to ordinary Iraqis clarifying the experience of the Shiites Sunnis Kurds Jews and women over the past century Through varied documents ranging from short stories to treaties political speeches to memoirs and newspaper articles to book excerpts the work synthesizes previously marginalized perspectives of minorities and women with the voices of the political elite to provide an integrated picture of political change from the Ottoman Empire in 1903 to the end of the second Bush administration in 2008 Covering a broad range of topics this bottom up approach allows readers to fully immerse themselves in the lives of everyday Iraqis as they navigate regime shifts from the British to the Hashemite monarchy the political upheaval of the Persian Gulf wars and beyond Brief introductions to each excerpt provide context and suggest questions for classroom discussion This collection offers raw history untainted and unfiltered by modern political framework and thought representing a refreshing new approach to the study of Iraq *New York*, 2004 *Saudi Aramco World*, 2004 *The Art Bulletin*, 2005 Includes section Notes and reviews *Children's TV and Digital Media in the Arab World* Naomi Sakr, Jeanette Steemers, 2017-03-30 Who analyses children's screen content and media use in Arab countries and with what results Children defined internationally as under 18s account for some 40 per cent of Arab populations and the proportion of under fives is correspondingly large Yet studies of children's media and child audiences in the region are as scarce as truly popular locally produced media content aimed at children At the very time when conflict and uncertainty in key Arab countries have made local development and diversification of children's media more remote it has

become more urgent to gain a better understanding of how the next generation's identities and worldviews are formed This interdisciplinary book is the first in English to probe both the state of Arab screen media for children and the practices of Arabic speaking children in producing as well as consuming screen content It responds to the gap in research by bringing together a holistic investigation of institutions and leading players children's media experiences and some iconic media texts With children's media increasingly linked to merchandising which favours US based global players and globalizing forces this volume provides a timely insight into tensions between differing concepts of childhood and desirable media messages
