market is about evenly divided among seats both of the metal and non metal variety all other metal office furniture and all other non metal office furniture The impact new technologies in the office environment caused some shifts in the market composition of office furniture during the past ten years along the following lines seats increased their share from 32% to 36% The advance applies to both metal and non metal seats as well as to swivel and other seats non metal office furniture gained market share at the expense of metal office furniture there is a shift away from desks towards other forms of office employee accommodation especially toward systems combining work tops and storage Lighting Dimensions ,1993

Cumulated Index of the Christian Science Monitor ,1965 *Index to the Christian Science Monitor* ,1962 **Index of the Christian Science Monitor** ,1964 The Office Furniture Market ,1988 **A Study of the Canadian Office Furniture Industry** ,1997
