The Rise of the Spanish Empire

HUGH THOMAS

Rivers Of Gold The Rise Of The Spanish Empire 1490 15

Sabine Zange

Rivers Of Gold The Rise Of The Spanish Empire 1490 15:

Rivers of Gold Hugh Thomas, 2013-11-20 From one of the greatest historians of the Spanish world here is a fresh and fascinating account of Spain's early conquests in the Americas Hugh Thomas's magisterial narrative of Spain in the New World has all the characteristics of great historical literature amazing discoveries ambition greed religious fanaticism court intrigue and a battle for the soul of humankind Hugh Thomas shows Spain at the dawn of the sixteenth century as a world power on the brink of greatness Her monarchs Fernando and Isabel had retaken Granada from Islam thereby completing restoration of the entire Iberian peninsula to Catholic rule Flush with success they agreed to sponsor an obscure Genoese sailor's plan to sail west to the Indies where legend purported gold and spices flowed as if they were rivers For Spain and for the world this decision to send Christopher Columbus west was epochal the dividing line between the medieval and the modern Spain's colonial adventures began inauspiciously Columbus's meagerly funded expedition cost less than a Spanish princess's recent wedding In spite of its small scale it was a mission of astounding scope to claim for Spain all the wealth of the Indies The gold alone thought Columbus would fund a grand Crusade to reunite Christendom with its holy city Jerusalem The lofty aspirations of the first explorers died hard as the pursuit of wealth and glory competed with the pursuit of pious impulses The adventurers from Spain were also of course curious about geographical mysteries and they had a remarkable loyalty to their country But rather than bridging earth and heaven Spain's many conquests bore a bitter fruit In their search for gold Spaniards enslaved Indians from the Bahamas and the South American mainland The eloquent protests of Bartolom de las Casas here much discussed began almost immediately Columbus and other Spanish explorers Cort's Ponce de Le n and Magellan among them created an empire for Spain of unsurpassed size and scope But the door was soon open for other powers enemies of Spain to stake their claims Great men and women dominate these pages cardinals and bishops priors and sailors landowners and warriors princes and priests noblemen and their determined wives *Rivers of Gold* is a great story brilliantly told More significant it is an engrossing history with many profound often disturbing echoes in the present

Spice Roger Crowley, 2024-04-09 The story of the sixteenth century's epic contest for the spice trade which propelled European maritime exploration and conquest across Asia and the Pacific Spices drove the early modern world economy and for Europeans they represented riches on an unprecedented scale Cloves and nutmeg could reach Europe only via a complex web of trade routes and for decades Spanish and Portuguese explorers competed to find their elusive source But when the Portuguese finally reached the spice islands of the Moluccas in 1511 they set in motion a fierce competition for control Roger Crowley shows how this struggle shaped the modern world From 1511 to 1571 European powers linked up the oceans established vast maritime empires and gave birth to global trade all in the attempt to control the supply of spices Taking us on voyages from the dockyards of Seville to the vastness of the Pacific the volcanic Spice Islands of Indonesia the Arctic Circle and the coasts of China this is a narrative history rich in vivid eyewitness accounts of the adventures shipwrecks and

sieges that formed the first colonial encounters and remade the world economy for centuries to follow □□(□□□□□□□□□□□□□□□□□□□□)
 □□□) □□□□□□,2025-02-27 History Storyteller **Great Events from History** Christina J. Moose,2005 The publication of the seventh edition of Salem Press bestselling Magill's Medical Guide continues the tradition of providing reference content in both printed and online form as a single product Covers diseases disorders treatments procedures specialties anatomy biology and issues in an A Z format with sidebars addressing recent developments in medicine and concise information boxes for all diseases and disorders Now in its seventh edition Magill's Medical Guide contains 1 200 entries in five volumes Many essay topics are completely new to this edition and all entries from the previous edition have been evaluated and updated by a panel of Medical Editors to ensure their currency and accuracy as needed All cross references to other relevant entries in Magill's Medical Guide have been revised Every bibliography has been updated with the latest editions and sources including Web sites for relevant organizations All appendixes from the previous edition have been updated and checked for accuracy and the Medical Journals list has been expanded to include standard title abbreviations now serving as a key for users
